An act to limit the amount of students on each school bus

Be it enacted by the Youth Assembly of the Commonwealth of Kentucky

Section 1: We have found out that the majority of students surveyed believe that their busses are overcrowded and unsafe. We wish to limit the number of students per bus to 42 for middle/high school buses, and 46 for elementary

Section 2: The average cost of a new school bus os $40,000. However, we will most likely purchase used school busses, which cost around $2,000. We plan to purchase about 40 more school busses in a five year span. The other over crowded busses will be broken up into first and second run riders

Section 3: This bill will be enacted five(5) years after being passed. The schools transportation supervisor will enforce this bill. If the school does not have a transportation supervisor, the board of education will provide one. the penalties are as follows:

First offense: written warning
Second offense: if not carried out (4) months later - fine 0f $500
Third offense: If not carried out by the end of the school year - fine of $1,000 for each bus

Section 4: In order to fund this bill we will use mainly school fundraising (selling candy, bakes sales, etc.) If the school board does not have enough money then we will be forced to make budget cuts, but this is a highly unlikely considering they have five years to plan and budget for the change
