## NATIVE ATTIRE

Students may wear appropriate native attire (with optional native headdress) on the first night of the conference.

- Native Attire should be a *serious* representation of a country's indigenous or historical culture. Disrespecting the tradition of a country will not be tolerated.
- Students are encouraged to *make* their costumes rather than purchasing them.
- Native Attire **MUST** be *within conference dress code*.
- Inappropriate attire will disqualify a school from nomination for major awards.
- Native Attire **MAY NOT** be worn after the first night of the conference. Delegations wishing to add a piece of their native attire (such as a sash or native headdress) to their second-day professional dress must have the approval of their Regional Director.
- Shoes must be worn **AT ALL TIMES**.
