Title: An act to sponsor a foundation or volunteer force called "Seize the Beach" to help remove pollution from the Bahamas' many beaches.

BE IT HEREBY ENACTED BY THE GENERAL ASSEMBLY OF THE UNITED NATIONS

Justification cause:

The Bahamas is a very famous destination that provides many recreational activities including beach Exuma and the well known hotel, Atlantis. Some people in these locations may litter the beaches with trash such as an item was a hotel key card. This pollution situation causes many problems for the inhabitants of this country. For example, this pollution causes the Bahamian population to have a lack of sanitation. This shortage of sanitation spreads many diseases such as malaria.

Section I: This sanitation work force will provide many benefits to the natives of the Bahamas. It will cause a decrease of a diseased population and bring more tourists. This bill will ensure a clean and more sterile population.

Section II: This foundation will receive government loans and donations from supporters of the cause. We will also do sponsorships with various companies such as Frootloops or Cheerios.

Section III: The "Seize the Beach" organization will help people around the area to stay healthy and promote tourism. Nobody would want to come to a country filled with dirty, sick people.

Section IV: the supposed headquarters of the "Seize the Beach" foundation would be located in the capitol of the Bahamas which is Nassau. There would be additional reporting centers that would be located throughout the Bahamas so who ever would like to give donations will come to one of the centers.

Section V: The "Seize the Beach" foundation is to go into effect after the ratification of the bill in late July of 2013.
