Title: **An act to establish a world mall in France with small businesses owned by countries that are part of the United Nations.**

BE IT HEREBY ENACTED BY THE GENERAL ASSEMBLY OF THE UNITED NATIONS

Justification Clause:

This proposal will help boost the economies of all countries that open up a business in the world mall. It will also benefit France by bringing in smaller businesses to give France's larger businesses competition, and will create more job opportunities.

Section I:

The world mall will be located in a highly populated area in France, where France's citizens and thousands of tourists will have the opportunity to shop each day, and where it will have room to expand, if necessary.

Section II: Countries may choose to either send its citizens to work in their store(s), or to have France provide employees. If a country chooses to have France provide employees, countries may still earn a percentage of the business's profit. This money will go to the manufacturers of the store's products. If a country chooses to provide their own workers, then the profit will be distributed between the country's workers and manufacturers.

Section III:

The cost of this proposal will vary, depending on how many countries choose to open a business in the world mall. The cost will be distributed among the country's businesses, depending on the size of the store they want.

Section IV:

This proposal will be enacted as early as January 2016.
