Author(s): **Mariah Clark**

**Jordan Tenharmse**

Title: **An act to clean the water resources of Botswana**

BE IT HEREBY ENACTED BY THE GENERAL ASSEMBLY OF THE UNITED NATIONS

Subject: **A proposal to clean the water sources of Botswana.**

BE IT HEREBY ENACTED BY THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

Section 1: **The majority of Botswana is desert. This causes lots of water shortages. The rest of the water is unpurified.**

Section 2: **We plan to put desalination factories along the Major Rivers in Botswana. This will take the salt out of the water and provide fresh drinking water. The energy to run this will come from the sun.**

Section 3: **These will cost about 2 million each because they won't be as big as the ones in the US.**

Section 4: **This money will come from the funds that are already used to find water. The UN will send people into Botswana to help build the pumps so that they are more technologically advanced.**

Section 5: **This water will be used to give to the people and will be delivered in trucks throughout the country.**

Section 6: **This will go into effect 6 months after passage.**
