Title: **An act to establish a research group in Qatar to gather information about the new SARS related virus**

BE IT HEREBY ENACTED BY THE GENERAL ASSEMBLY OF THE UNITED NATIONS

Justification Clause: Recently a virus was discovered in the Arabian peninsula which is very closely related to the SARS virus. The virus has so far had a mortality rate of over 53%. The virus seems to be spread through very close conditions. Little else is known at this time. The virus has however managed to spread from the Arabian Peninsula to the United Kingdom.

Section I: A group of 20-30 experts in the field of microbiology be sent to Qatar to begin work on discovering the origins and spread of the virus, along with 10-20 doctors to try and discover a way to treat said virus.

Section II: These scientists will be handpicked by a board of members of the World Health Organization

Section III: This will be funded by the World Health Organization

Section IV: This is to be completed as soon as funding can be procured to stop the virus from spreading further
