1 An act to automatically assign a life coach to a released mental health patient to prevent previously "cured"
2 mental instability from reoccurring.
3

4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**
5

6 Section 1: Our Bill is an act to ensure that people that have been previously institutionalized mental health
7 patients will receive temporary (depending on severity) care from trained professionals as to prevent post
8 critical state. This will ensure that those who are released are truly cured and not a harm to themselves and
9 society.
10

11 Section 2: Funding will be provided by the patient directly. The cost of the admission to the hospital will now
12 include the fee for post release check-up/counselling. The funding for the mental hospital comes from the
13 patient when admitted to the hospital; this extra fee will be a minor addition to the original admission fee.
14

15 Section 3: If the patients do not follow the rules and show up to their scheduled meetings; and or house
16 visits, they are forced to return to the mental institution for a limited amount of time.
17

18 Section 4: This will be enforced by the internal part of the hospitals themselves, if the hospital doesn't
19 automatically assign a "life coach" the state government will then take it into their own hands.
20

21 Section 5: This bill will go into effect January 1, 2015.
