KENTUCKY YMCA YOUTH ASSOCIATION KENTUCKY YOUTH ASSEMBLY Legislative Bill

Referred to Committee
House 1

Blue | Bill # HB 17

Authors: Trey Collins, Catherine Elleman, Sophie Wood	Action on the Bill	
School: Glasgow High School	House	Senate
	□ Passed	🗆 Passed
City: Glasgow	Defeated	Defeated

An act to mandate all Kentucky Public Schools teach sexuality education and instruction in infectious diseases.

Be it enacted by the Youth Assembly of the Commonwealth of Kentucky

Section 1: Students in grades six through twelve must receive instruction at least once annually. Kentucky does not suggest or recommend a curriculum; however, state law does provide specific guidelines that communities must follow when creating an education plan. The plan must be developed locally by community members who are knowledgeable of the latest scientific information and effective education strategies approved by local school boards, and reviewed biennially in accordance with new scientific information.

Section 2: The curriculum must:

- Teach abstinence for school-age youth and mutually monogamous relationships as the safest way to prevent STDs and unintended pregnancy; however, abstinence must not be taught to the exclusion of other material and instruction on contraceptive and disease reduction measures.
- Be medically accurate and age-appropriate.
- Provide the latest medical information regarding the success and failure rates of all forms of contraception, including emergency contraception.
- Inform students the ways to obtain the different forms of contraceptives.
- Use culturally and gender-sensitive materials, language, and strategies that recognize different sexual
 orientations and gender identities.
- Enhance students' understanding of sexuality as a normal and healthy part of human development.
- Validate through course material and instruction the importance of honesty with oneself and others, respect for each person's dignity and well-being, and responsibility for one's actions.
- Teach effective communication and refusal skills, as well as the development of self-esteem.
- Be presented in a manner sensitive to the fact that there are students who have experienced sexual abuse and that does not devalue or ignore students who have engaged in sexual intercourse.
- Teach students about their consent in sexual activity.

Section 3: Schools can offer to have an "opt-out" policy and give parents or guardians the option to remove their child from sexuality education and/or STD/HIV education classes.

Section 4: This bill will be enacted the school year of 2014-2015.
