1 An act to provide funding for the investigation for cocoa farms in Colombia.

2
3 **Be it hereby enacted by the General Assembly of the United Nations**

4
5 Justification Clause: Cocoa is a major export of the nation of Colombia. The leaves of the cocoa plant is the
6 main ingredient in cocaine. Last year Colombia produced 340 tons of cocaine, distributing it throughout the
7 world. Cocaine causes environmental, educational, economic and health issues. This proposal asks the United
8 Nations for funding to provide staff to inspect all cocoa farms in Colombia. This will decrease the production
9 of cocaine while not restricting the production of cocoa.

10
11 Section I: To hire 50 inspectors and provide transportation for the inspectors, we are proposing for a
12 United Nations grant of \$500,000 from the United Nations Drug Control Programe and the Center for
13 International Crime Prevention (UNODC). This will cover the annual salary of the workers, transportation and
14 any housing expenses. This will benefit many countries such as the United States and Europe by decreasing
15 their drug imports.

16
17 Section II: Inspectors will look for the components to make cocaine including battery acid, gasoline, and other
18 chemicals. If excessive amounts of suspicious materials are found, the suspect(s) will be subject to laws
19 already in place for those who violate the laws.

20
21 Section III: This will be enforced by the United Nations by monitoring the inspections.

22
23 Section IV: Colombia exports cocaine to the United States, Europe, Canada, and Mexico. The decrease in
24 cocaine production will decrease the use of this illegal drug in these countries, benefiting them greatly. Other
25 countries can also use this proposal as a basis to create their own proposal to stop production in their
26 countries.

27
28 Section V: This proposal will go into effect 6 months after passage.
