City: Louisville	

1 An act to provide and promote nature preservation in Australia’s wilderness and coral reefs.

2

3 **Be it hereby enacted by the General Assembly of the United Nations**

4

5 Justification Clause: Australia is home to 10% of the world’s biodiversity, and has several different biomes in
6 such a small space. Australia’s Great Barrier Reef has lost half of its corals in the past years, and the
7 rainforests are being pressured by urbanization. Because of these repressions, something else must be to
8 done to help protect these unique areas of Australia.

9

10 Section I: This proposal will be done by creating non-profit organizations to protect and promote nature
11 preservation in Australian’s unique biomes. \$35,000 will be sent out every year to fund these organizations,
12 plus national promotion through audio and visual advertisements.

13

14 Section II: This act will take affect for four years, or until these organizations take some kind of effect on the
15 environments.

16

17 Section III: This act will take action on January 1, 2015.
