City: Hopkinsville	

1 An act to create a solid and liquid waste disposal system in Belize to improve living conditions and decrease
2 level of waste.
3

4 **Be it hereby enacted by the General Assembly of the United Nations**

5
6 **Justification Clause:** Nearly 90% of all Belizeans have no access to sewerage services. This creates serious
7 sanitation issues for the people of Belize and the environment. Since this is such a serious problem, creating
8 a disposal system would be the ultimate solution.
9

10 **Section I:** Belize will build new disposal centers to handle the large amounts of solid and liquid waste.

11
12 **Section II:** These centers will be funded by both Belize and the U.N. Belize will raise their departure fee and
13 implement trade tariffs to help with the cost.
14

15 **Section III:** Establish a U.N. inspection team to monitor and enforce the building and maintenance of solid
16 and liquid waste disposal system.
17

18 **Section IV:** Refusal to meet U.N. standards will result in a loss of U.N. funding for the disposal system.
19

20 **Section V:** This bill will go into effect immediately upon passage, with building expected to be completed by
21 January 1, 2016.
