1 Act requesting military aid to cease the deaths of citizens in the Darfur Genocide, as well as to introduce a
2 newly elected government in West Sudan
3

4 **Be it hereby enacted by the General Assembly of the United Nations**
5

6 Justification Clause: Thousands of refugees are being brutally killed all over the world, including Sudan. These
7 deaths are avertible; however no major actions have been successful in the country of Sudan. Since 2003,
8 over 400,000 people have died, and 3 million people have survived these vicious attacks with major injuries.
9 Only about half of those injured received medical aid, while others were left to suffer and starve alone in the
10 desert. Since 2009, hardly any action has been taken, and 13 international aid organizations have been
11 expelled by the government. We propose to take military action, and put an end to this major genocide.
12

13 Section 1: In order to succeed in conducting this task, we will need 150,000 peacekeepers to abolish the
14 Sudanese government and protect the unalienable rights of the citizens.
15

16 Section 2: We will have world ambassadors come to Sudan and help rebuild and restore the Sudanese
17 government. The government will be given to the people and a system of government will be created that
18 benefits all citizens.
19

20 Section 3: This cruel genocide is spreading rapidly and having a major effect on the people of Sudan. If we
21 stop the genocide now, we can prevent it from causing further harm to Sudan and its surrounding countries.
22 If genocide takes place in the future, this act will be able to benefit the country that is being harmed.
23

24 Section 4: In order to take military action, we propose that a 2/3 majority of the countries in the Security
25 Council must vote in favor of this statement.
26

27 Section 5: This proposal will be enacted on February 1st, 2015.
