1 An act to develop a United Nations committee to investigate and encourage land recovery for the purpose of  
2 agricultural growth.  
3

4 **Be it hereby enacted by the General Assembly of the United Nations**  
5

6 Justification Clause: All around the world today, the land available for agricultural production is quickly  
7 disappearing. A majority of this disappearance is due to global warming (melting ice-caps), pollution, and  
8 urban expansion. As the global population continues to expand, the need to produce more food and other  
9 natural resources continues to rise. By exploring and funding land reclamation projects, the world may  
10 better meet the needs of the global population.  
11

12 Section I: The United Nations will create a Committee for Land and Agricultural Recovery (CLAR). The  
13 committee will include members from the General Assembly.  
14

15 Section II: The Committee for Land and Agricultural Recovery (CLAR) will have two general purposes:  
16 A. Consider proposals from member nations for land recovery projects in their country.  
17 B. Work with scientists and environmentalists to develop new technology to better reclaim land for  
18 agricultural projects.  
19

20 Section III: CLAR will offer loans and technological support to member nations with approved projects. These  
21 member nations would then be required to pay back the loans upon completion of their reclamation projects.  
22

23 Section IV: Membership in the Committee for Land and Agricultural Recovery (CLAR) would be voluntary for  
24 the member nations who wish to participate.  
25

26 Section V: The loans would be provided by the World Bank at an interest rate determined by the CLAR, based  
27 on the country's ability to repay.  
28

29 Section VI: The Committee will be formed upon passage by the General Assembly of the United Nations.
