<b>City:</b> Louisville							

1           An act to reduce the amount of construction projects in a city at one time in the state of Kentucky.  
2  
3                           **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
4  
5   Section 1: In the state of Kentucky, construction projects take over roads by the immense amount going on  
6   at one time. We would like to limit the amount of construction projects going on at one time to a maximum  
7   of 3.  
8  
9   Section 2: The purpose of this bill is to regulate traffic, help local businesses, and reduce the costs for  
10   citizens. The average amount of time it takes to finish a construction project is 35 months. The average  
11   construction project costs \$84,000. Reducing the amount of projects will decrease traffic and costs for  
12   citizens in the city.  
13  
14   Section 3: The bill will be enforced by the state. If a company requests to do a project and there is already 3  
15   projects going on, the permit for the construction will be declined. Once a project finishes, the other  
16   company will be able to start theirs. If a company finishes a project earlier than planned, the workers will  
17   receive a bonus in their pay.  
18  
19   Section 4: This bill will go into effect January 1, 2016.
