1                                   An act to require all seed containing GMOs to be labeled accordingly.  
2  
3                                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
4  
5 Section 1: GMOs are genetically modified organisms. A portion of seeds that are available for the  
6 noncommercial gardener may contain GMOs. Genetically modified organisms are typically used to reduce  
7 growth time and help plants resist round up, and other threats.  
8  
9 Section 2: Currently, it is not required to label products containing GMOs in seed sales.  
10  
11 Section 3: Any product not containing a label listing it is genetically modified would be removed from the  
12 shelves of any supplier.  
13  
14 Section 4: This bill would be enforced by random tests by the Kentucky Department of Agriculture at no  
15 cost to the public.
