Section 1: The purpose of this bill is to prevent and/or end the process known as fracking in Kentucky. Fracking is a process in which fractures in rocks and rock formations in the ground are created in order to retrieve oil and natural gas by the injection of fluid into the existing cracks of rocks and rock formations. The entire process of fracking endangers our water and the health of our communities.

Section 2: All fracking wells will be filled and drilling any new ones will be illegal, and subject offenders to both civil and criminal liability.

Section 3: Offenses for fracking -

1st offense-\$1,000.00 fine

2nd offense-\$5,000.00 fine

3rd offense-\$25,000.00 fine and/or one to five years in prison.

Section 4: This bill will be enforced by the Kentucky State Police.

Section 5: Upon passage, this bill will become law on July 1, 2015.
