The General Assembly,

Alarmed by police brutality and government involvement in enforced disappearances because police and government officials are there to protect the citizens.

Fully aware that the United Nations defines enforced disappearances in the December 2010 mandate as “(1) Deprivation of liberty against the will of the person; (2) Involvement of government officials, at least by acquiescence; (3) Refusal to acknowledge the deprivation of liberty or concealment of the fate or whereabouts of the disappeared person.”

Keeping in mind that enforced disappearances involves more than 80 countries and still has 43,000 unsolved cases,

Recalling, in 2010, the International Convention for the Protection of All Persons from Enforced Disappearance was created, yet enforced disappearances continue to rise,

Observing that enforced disappearances violates Article 1 (right to dignity), Article 3 (right to life), and Article 6 (recognition as person before the law) in the Declaration of Human Rights,

1. Calls upon the United Nations to provide more training and resources to the International Convention for the Protection of All Persons from Enforced Disappearance,
2. Requests the convention to monitor the police, and if the police are still continuing their behavior the United Nations will send in troops to help with enforcement.

1 Establishment of Immigration Policies and Procedures with Refugee Care

- 2
- 3 The General Assembly,
- 4
- 5 Deeply concerned with the annual growth of immigrants from surrounding countries crossing borders into
- 6 Austria without proper immigration procedures and refugee care,
- 7
- 8 Convinced of the overwhelming issue of illegal immigration and the refugee crisis in other countries throughout
- 9 Europe, such as, Germany, Czech Republic, Romania, and Italy who could potentially value having more
- 10 permanent immigration procedures and refugee care,
- 11
- 12 Recalling the past work of the UN on immigration; the United Nations help with the worldwide UN Refugee
- 13 Agency,
- 14
- 15 Recognizing the economic strain illegal immigration puts on the country of Austria yet understanding the
- 16 humanitarian need of the refugee situation,
- 17
- 18 Believing in the necessity for peaceful, stable and prosperous lives as citizens within Europe without chaos and
- 19 discord,
- 20
- 21 1. Seeks the establishment of multiple immigration checkpoints throughout Europe, specifically in Italy,
- 22 Romania, Austria, Germany, and the Czech Republic. These checkpoints would serve as mobilizing
- 23 shelters that direct refugees to other areas while providing basic essentials needed.
- 24
- 25 2. Further requests that the UN provide specific and safe policies and procedures for monitoring and
- 26 mobilizing immigration checkpoints while keeping the safety of all peoples affected.

1           A Resolution to use renewable resources from landfills to create a new source of energy in the Bahamas  
2  
3    The General Assembly,  
4  
5    Affirming the need for using renewable resources from landfills to further beautify, reduce unemployment, and  
6    create a better source of energy.  
7  
8    Currently, the Bahamas nor the United Nations have tried to fix the issue regarding landfills within the  
9    Bahamas.  
10  
11   Bearing in mind Bahamas Waste branded the New Providence landfill “our biggest source of pain” in 2016, and  
12   the landfills are now becoming a large issue within the Caribbean Islands.  
13  
14   Taking into consideration that our resolution to use renewable resources from landfills to create a new source  
15   of energy will produce more available jobs. Over 12% of Bahamians are unemployed within the Bahamas and the  
16   Caribbean Islands this will give them a way to work and provide money for their families.  
17  
18   Approximately there are 1,348 landfills in the Bahamas. Each landfill is 700 acres and 500 feet high. The  
19   Bahamas land is very important to them because their main source of income is tourism. Our bill will help  
20   beautify the Bahamas and produce jobs for the unemployed.  
21  
22   Realizing money is needed to create this new source of energy in the Bahamas, the money gained from the sale  
23   of the cardboard recycling equipment will be used toward this cost. Profit is estimated at \$42,729 and  
24   donations from donors to get this resolution started will be received.  
25  
26   Today, The Bahamas is heavily dependent on imported fossil fuels to meet approximately 99% of its energy  
27   needs. This resolution is going to change that and use renewable resources from landfills to be the new source  
28   of energy in the Bahamas. This will help beautify the Bahamas, provide jobs, and create a new source of energy  
29   that is more reliable and affordable.

1 Convention to end government censorship

2

3 The General Assembly,

4

5 Affirming, censorship is bad because it limits the right of free speech and can lead to scarce knowledge of a  
6 topic without the internet,

7

8 Fully aware that some countries have censorship, no one has tried to stop it. That what our resolution is here to  
9 do,

10

11 Emphasizing, in the past it has been brought up, but now it is bigger than ever. This is considered a basic human  
12 right,

13

14 Recalling censorship and freedom of speech falls under Article 19 in the Declaration of Human Rights. According  
15 to the ICHRP Article 19 says that everyone has the right to freedom of opinion and expression,

16

17 1. Calls upon the United Nations to assist the people to take action and protest,

18

19 2. Further proclaims, the United Nations should assist the people of these countries to set up a protest to  
20 get the country violating their rights to change their ways. They should also show the good things  
21 about the internet and having access to it.

28  
29

The General Assembly,

Convinced that the Republic of Congo has the potential to be a highly prosperous country

Recalling that there has been no action taken place regarding the human rights violations and fraudulent elections by the government of the Republic of Congo,

Reaffirming that every human is entitled to safety from "torture or to cruel, inhuman or degrading treatment or punishment," according to Article 5 of the Universal Declaration of Human Rights,

Conscious that UN peacekeepers have been sent to examine the violation, this resolution is to further enforce the want of peace within Republic of Congo against President Denis Sassou Nguesso,

Bearing in mind that nothing has been done to terminate these inhumane actions,

Determined to cease these barbaric operations,

1. Calls upon the UN office of the high commission of human rights to
  - a. Advise the government of the Republic of the Congo to abandon these savage acts and institute free and fair elections within a two year time period
  - b. If these conditions are not met, the UN will use military force to prosecute under the declaration of human rights to the UN charter; and
2. Request the UN office of the high commissioner on Human Rights to report to the General Assembly on the resolution.

- 1                                   Convention on the Prevention and Protection Against Human Trafficking  
2  
3     The General Assembly,  
4  
5     Alarmed by the threat human trafficking poses worldwide,  
6  
7     Keeping in mind that the United Nations defines human trafficking as the transportation, transfer, harboring,  
8     recruitment, or receipt of persons by improper means,  
9  
10    Observing that UN Resolution 11/ 3, as well as articles of the Universal Declaration of Human Rights, mentions  
11    human trafficking by condemning it,  
12  
13    Recalling that in 2011 and 2014, the UN Voluntary Trust Fund for Victims of Human Trafficking awarded a  
14    Small Grants Facility to many NGOs serving multiple nations, including Costa Rica in 2011, to combat human  
15    trafficking,  
16  
17    Declaring that Costa Rica is striving to be one of the top leaders on combating human trafficking, in the region  
18    of Central and South America,  
19  
20    Noting with satisfaction that the UN Charter tries to maintain peace in Costa Rica and other countries that are  
21    facing human trafficking issues,  
22  
23        1. Calls upon the UN to allocate additional funding to the United Nations Voluntary Trust Fund for  
24        Victims of Human Trafficking for NGOs and government institutions for human trafficking prevention,  
25        victim support projects, and services;  
26  
27        2. Encourages other countries worldwide to raise awareness and take actions against human trafficking;  
28  
29        3. Recommends that all nations should strive to become Tier 1 countries, under the Trafficking Victims  
30        Protection Act (TVPA) of 2000.

21  
22  
23  
24  
25  
26  
27  
28

The General Assembly,

Deeply disturbed that 168 million kids are trapped in child labor around the world according to the United Nations,

Emphasizes that child labor is defined in the dictionary as "The use of children in industry or business, especially when illegal or considered inhumane,"

Recalling that exploitation of child labor has been recognized and addressed, as declared in its resolutions 51/492 and 51/77,

Reaffirming that "Everyone has the right to rest and leisure, including reasonable limitation of working hours, and periodic holidays with pay," as stated in Article 24 of the Declaration of Human Rights,

Conscious that steps taken by Fair Trade Certified towards reducing child laboring in chocolate industries can contribute towards the goal of the complete elimination of child labor,

Further reminds that on June 12th, the U.N. recognized that "...it is estimated some 168 million children remain trapped in child labour, many of them work full-time,"

1. Calls upon the Secretary General to sanction countries that are proven to use child labor,
2. Further proclaims that the UN would create the Child Labor Committee; a committee devoted to going into countries and see if any wide scale child laboring is occurring,
3. Confirms that any violation of this would result in a sanction of 1% of the countries GDP.

Convention on the removal of the United Nations Security Council Resolution 2371

- 1  
2  
3 The General Assembly,  
4  
5 Having considered the state in which the North Korean citizens have been left in with the Sanction being acted  
6 upon,  
7  
8 Accepted the fact that North Korea has done crimes against humanity in previous actions,  
9  
10 Conscious of the world's views against the nuclear weapons program of North Korea,  
11  
12 Notes that Resolution 2371 was imposed on August 5, 2017 to cease the practice of ballistic missiles testing,  
13  
14 Determined to repeal the resolution so that the North Korean people will be able to flourish,  
15  
16 Seeking more peaceful actions towards the world's countries,  
17  
18 1. Encourages the United Nations to repeal the portion of Resolution 2371 in which it was commanded  
19 that the Democratic People's Republic of Korea not export any coal, iron, iron ore, seafood, lead, and  
20 lead ore products;  
21  
22 2. Recommends that the United Nations Security Council enact this, if it is ratified, immediately after it has  
23 been adopted;  
24  
25 3. Calls upon the United Nations Security Council to send negotiators for a mediation with other countries  
26 regarding exporting and importing.

26  
27  
28  
29  
30  
31  
32  
33

The General Assembly,

Realizing that Xenophobia is a big problem in Denmark but in many other countries as well.

Solving this may be complicated, but there is a solution to the national and international xenophobia problem.

Recalling that Denmark grants asylum to Iraqis only 29% of the time; this is three times less than the EU average of 88%. Denmark grants asylum to Afghans 35% of the time which is about less than twice acceptance than the EU's average of 68%.

Recalling that around the world xenophobia is on the rise such as the Republic of India, Russian Federation, Commonwealth of Australia, the United States of America, Republic of South Africa, Argentine Republic.

Determined that through this effort xenophobia internationally will significantly decrease. More people will accept other religions and cultures if this effort is successful. Kindergarten is when children are still unaware about differences in race, yet they still understand what is given to them. So, these children who learned the other cultures at an early age, will be more used to talk and make friends with people who has a different culture and traditions than them and who look different than themselves.

Recalling that a United Nations expert found out that quality education reduces xenophobia, racism, and other types of discrimination.

1. Calls upon UN General Assembly to create a class in kindergarten to twelfth grade that introduces children to different cultures and languages.
2. Making this solution a reality needs Social Studies teachers who teach their students about the negative side of xenophobia and embracing other cultures. These teachers will study a different culture every semester. The students will learn the languages, foods, traditions, and much more about each culture.
3. Having the United Nations Educational, Scientific, and Cultural Organization (UNESCO) enforce this resolution starting on the date it will take effect.

1 Convention on beginning the rebuilding of forests internationally  
2  
3 The General Assembly,  
4  
5 Recognizing that more than 1.6 billion people worldwide rely on forest products for all for part of their  
6 livelihoods,  
7  
8 Deeply concerned that the rate of deforestation happening so quickly will both affect the environment and the  
9 worldwide economy as well,  
10  
11 Taking into account that the Director-General of the United Nations Food and Agriculture Organization, José  
12 Graziano da Silva, said that “we will not succeed in reducing the impact of climate change and promoting  
13 sustainable development if we do not preserve our forests and sustainably use the many resources they offer  
14 us,”  
15  
16 Having considered that countries such as Finland, Russia, the United States of America, Canada, Germany,  
17 Australia, and Latin American countries depend on wood as a large economic source of income,  
18  
19 1. Calls upon the United Nations to pledge 1.2 million dollars to organizations against deforestation, such  
20 as Natural Resources Defense Council, Rainforest Trust, and Cool Earth annually to make trees still be a  
21 export that we can benefit from instead of forests being destroyed completely,  
22  
23 2. Requests that the 1.2 million dollars will be taken annually from the United Nations budget which is  
24 estimated at 6.8 billion (as this year 2017-2018),  
25  
26 3. Encourages any country to donate if they wish to add additional money to the cause.

1                   Convention on the Creation of Work Study Programs in Ghana and Other West African Countries  
2  
3           The General Assembly,  
4  
5           Deeply disturbed by the 918,543 children who worked in Ghana’s chocolate plantations in 2014, many of whom  
6           are scarred by machetes, sickened by exposure to pesticides, and crippled by the 100 lb loads they carry,  
7  
8           Further deploring that according to a UNICEF report, more than 50% of Ghanaian children eligible for secondary  
9           school do not go, and less than half of the school day is spent on focused instruction,  
10  
11           Conscious that the UNODC and IOM are already working to educate Ghanaians about the problems and dangers  
12           of child labor and to rescue exploited children,  
13  
14           Recognizing Ghana’s own efforts to better the primary education system in their country,  
15  
16           Bearing in mind that ILO convention 138 allows children 15 years of age and older to work in non-hazardous  
17           conditions,  
18  
19           Keeping in mind that many families depend on their children’s earnings for survival,  
20  
21           1.       Calls upon the ILO to partner with chocolate producers to improve conditions for child laborers and to  
22           monitor them so that they comply with all UN labor regulations,  
23  
24           2.       Seeks help from UNICEF and UNESCO to establish schools which provide quality education to these  
25           workers,  
26  
27           3.       Urges UNICEF and UNESCO to assist in the creation of work study programs so that children can  
28           attend school while they also earn income for their families.

20  
21  
22  
23  
24  
25  
26  
27

The General Assembly,

Recalling that due to many conflicts and problems in the homelands of many people, approximately 1.2 million people sought refuge in Greece.

Acknowledging unfavorable economic situations have led to Greece currently facing a nation-wide economic crisis.

Realizing that Greece has had an estimated population of 1.2 million documented and undocumented refugees in 2001 alone.

Concerned that because Greece’s current economic situation and that so many people seek refuge from their war torn homes, our country can only provide less-than-adequate living conditions for all of the refugees.

Expressing grave concern that many refugees in overpopulated areas cannot be provided for properly and thus are being forced into holding camps with prison like conditions that expose refugees, primarily women and children, to physical and sexual exploitation.

Understanding that UN Resolution 71/173, Assistance to Refugees, returnees and displaced persons in Africa, does not provide an adequate model for a solution to this issue as we would be sending refugees into unsafe lands.

1. Greece requests that all industrialized nations in the UN provide assistance in relocating the refugees that Greece cannot house by itself, and provide adequate living conditions for the refugees in their said nations, including adequate amounts of food, water, shelter, mental and physical health services,

1 Convention to provide rehabilitation for human trafficking victims  
2  
3 The General Assembly,  
4  
5 Deeply convinced that human trafficking is a heinous crime that harms of belittles  
6 hundreds of thousands of humans each year,  
7  
8 Alarmed that 60% of the 50,0000 victims of human trafficking are children and human trafficking is equally to  
9 2.7 percent of guatemala’s GDP,  
10  
11 Recalling that the sale or trade of humans is condemned by S/RES/2331 and expresses its  
12 intention to instigate sanctions upon instigators of human trafficking,  
13  
14 Having considered human trafficking violates Article 1,2, 3,4, and 5 of the Declaration of Human Rights  
15  
16 Further recalling, the UN Secretary General says “Slavery and other such egregious abuses of human rights have  
17 no place in the 21st century” in his November 21, 2017 address,  
18  
19 1. In confidence, the UN should take action on the topic of human trafficking, to create rehabilitation  
20 centers for the millions of people who were previously human trafficked,  
21  
22 2. Calls upon the UN to use the rehabilitation centers to help the victims of human trafficking return to a  
23 normal life.

1 An act relating to implementing the SODIS method in Haiti

2

3 The General Assembly,

4

5 Alarmed by the fact that only 55.2% of the population has access to an improved water source, while close to  
6 70% does not have direct access to potable water.

7

8 Fully aware that expenses often create problems with water availability. Around 54% of the population lives on  
9 less than US \$1 a day and 78% on less than US \$2

10

11 Deeply concerned by the mass amount of waterborne diseases in Haiti, such as Cholera, Guinea Worm Disease,  
12 Typhoid, Leptospirosis, and Dysentery.

13

14 1. Draws the attention to the need for clean water in Haiti

15

16 2. Takes note of the process in which the SODIS method is implemented: A transparent PET bottle is  
17 cleaned with soap. Then the bottle is filled with water and placed in full sunlight for at least 6 hours.  
18 The water has then been disinfected and can be drunk

19

20 3. Calls upon the UN Conference on Disarmament to implement the SODIS method for the health and  
21 protection of Haitians.

The General Assembly,

Taking into consideration the recent events that have occurred on our continent, our nation, in the interests of national security and national sovereignty has resolved to keep our borders protected and closed from waves of refugees regardless of country of origin.

Fully aware that in doing so, we realize this puts us at odds with many other delegations in this body; yet we stay the course.

Reaffirming our resolve and inspiration, we look to allies like Poland and the Czech Republic for mutual support of strict migration and immigration policies, and return full support for all member countries considering the safety of their people and sovereignty of their nation above all when confronting these issues.

Having examined the issue with our council members, coinciding with the opinions of our populace, we look to member nations that have felt the full effects of this migration wave to learn from their mistakes and aid us in the struggle to fix the issues that arise from migrant populations near our borders and their own.

Further recalling that precedent has been set by this governing bodies own Refugee Agency regarding the resettlement and relocation of refugees from Greece, this delegation sees no logical reason that the resolution will not be considered and accepted. (Briefing Notes: March, 4th 2016)

Deeply disturbed by rising crime rates in EU member states, this plan is of utmost importance to Hungary when considering the following:

- Migrants (Males aged 14-30) have been linked with higher violent crime rates, according to a study which was funded by Germany's Ministry of Family Affairs.
- Approximately 47 out of 100 Iraqi refugees are males aged 18-34 with no discernible job skills. Also, approximately 39 out of 100 Syrian refugees are males within the same category.
- Over 900,000 refugees came through Turkey and the Eastern Mediterranean area alone (approximately 3 million refugees reside currently in Turkey).
- 4,691 documented refugees are currently in Hungary today.

Deeply concerned by the lack of help shown by Persian Gulf member states regarding assistance in re-housing migrants and refugees from their neighboring countries, we strongly condemn Saudi Arabia, UAE, Qatar, and Oman and suggest this body do the same.

1. Welcomes the hard work and important steps taken by the United Nations Refugee Agency to help assist with the issues arising from this current wave of migration.
2. Endorses the plans set forth by the United Nations Refugee Agency, while recognizing and holding to the established ideals of our nation-state and the sovereignty thereof.
3. Reaffirms the commitment Hungary has made not only to member states, but more importantly our populace, to assist in alleviating the migration issues currently facing EU member states.
4. Designates lands near the southern border with Serbia as medical check-in and temporary housing stations staffed entirely by Hungarian medical and military personnel.
5. Further recommends oversight and accountability monitoring by UN Human Rights Officials.
6. Further invites other international organizations, vetted thoroughly and recommended by this body, to assist in the massive undertaking that would be the day-to-day operation of the medical centers, food distribution programs, education services, and any other needs that may arise.
7. Calls upon the United Nations and any affiliated organizations to assume responsibility for obtaining valid relocation options for individuals in the temporary housing centers no later than 60 days from the date of initial check-in.
8. Declares accordingly the United Nations and any affiliated organizations will provide transport from temporary housing centers to designated relocation country.
9. Strongly condemns the unwillingness of Persian Gulf member states Saudi Arabia, Qatar, UAE, and Oman to provide assistance to the vulnerable, displaced people in neighboring countries.
10. Expresses its appreciation in the United Nations member states willingness to respect the sovereignty of Hungary and her people whilst working together to treat those in need with respect and love.

The General Assembly,

Alarmed that 2.5 billion people globally do not have access to proper sanitation and 2,200 children die daily from diarrheal disease due to improper sanitation.

Deeply concerned that 50% of citizens of India do not have access to a toilet either in their homes or their communities.

Noting that 47% of schools in India do not have safe, usable toilets for girls.

Noting further that the lack of privacy, safety and proper facilities often leaves girls open to attack by snakes, and sexual assault by male peers or adults.

Observing that since 2015, the number of girls enrolled in schools worldwide has decreased by 600,000.

Convinced that adequate sanitation leads to economic benefits such as healthcare savings, increased school attendance, and decreased death rates.

Keeping in mind the United Nations Goals to Transform Our World, goal #6 is to ensure access to water and sanitation for all.

1. Calls Upon the United Nations to consult with Stantec and UNICEF to create a wastewater management facility in India.
2. Expresses its hope that the United Nations, Stantec, and UICEF will collaborate to ensure that every public school in India will have separate and adequate restrooms for males and females.
3. Endorses UNICEF and the WASH program to design a curriculum to be implemented in public schools in India, Indonesia, Nigeria, Ethiopia, and Pakistan about the dangers associated with open defecation and other common sanitation issues.

- 1                    A resolution providing equal and fair pay to women in each UN member nation  
2  
3    The General Assembly,  
4  
5    Noting that with deep concern that women in Ireland and across the world face a disparity in wages in  
6    comparison to their male colleagues,  
7  
8            1. Reminds that there is a 13.9% pay gap for the same job between men and women in Ireland. This varies  
9            in other member nations,  
10  
11           2. Calls upon the UN Conference to provide guidelines to implement for each member nation to provide  
12           equal pay for women in each member nation,  
13  
14           3. Recommends the penalties for not abiding by this resolution be:  
15              a. 1st Offense: Fine of 1,500 dollars  
16              b. 2nd Offense: Temporary (10 business days) removal of business license  
17              c. 3rd Offense: Permanent removal of business license,  
18  
19           4. Designates each national government monitor business practices and complaints, also enforcing  
20           penalties when needed,  
21  
22           5. Seeking that this resolution go into effect 6 months after passage.

The General Assembly,

Recognizing the problem of illegal drug use by Israeli youth,

Alarmed by the fact that seventy-thousand Israeli teens are regular drug users,

Deeply concerned by the availability of illegal drugs in Israel,

Noting that success at rehabilitation centers is a disappointing 30%,

Recalling that providing alternatives to drug use is a human right as stated in resolution 60/7,

Having examined Article 25 which states, in part, "Everyone has the right to a standard of living adequate for the health and well-being of himself and of his family, including food, clothing, housing and medical care and necessary social services," in the UN Declaration of Human Rights,

1. Calls upon the United Nations Office of Drug and Crime (UNODC) to provide funding to build three youth service centers in Israel to prevent future substance usage and abuse,
2. Further request that UNODC staff the centers with managers, social workers, security, and volunteers to operate the facilities,
3. Urges the implementation of UNODC's Children's Project (Project GLOK42) developed to promote a worldwide coordinated response to children and adolescents at risk of using drugs, and youth affected by drug use dependence at the centers.

- 1                                   A resolution to address the cause of the number one crime in Kenya, carjacking.  
2  
3    The General Assembly,  
4  
5    Emphasizing that the greatest threat of crime in Kenya continues to be road safety, namely carjacking,  
6  
7    Recognizing that organized crime is the primary reason for carjacking and that financiers of organized crime are  
8    rarely punished,  
9  
10   Bearing in mind that corrupt political governments control the police force therefore diminishing the force's  
11   affect on fighting crime,  
12  
13   Conscious that steps are being taken by European agencies and private sectors to restrain violence in Kenya,  
14   and to prevent carjacking,  
15  
16   Bearing in mind that the UN Secretary General has called for a halt in violence in Kenya,  
17  
18       1.   Calls upon the UN to apply pressure to the Kenyan government to prosecute organized crime financiers.  
19  
20       2.   Further recommends that the Kenyan police force receive extensive training, economic benefits for their  
21       contribution to the force, and be removed from the control of the corrupt political government.  
22  
23       3.   Requesting that the Kenyan private security council be granted the privilege of possessing firearms.

The General Assembly,

Alarmed that Lebanon produces over 2.04 million tons of Municipal Solid Waste (MSW) per year and that each person from Lebanon generates approximately between 0.8 and 1.2 kg per day,

Deeply concerned about the effects of opening burning or dumping of the garbage are having on the daily lives of all living things, the waterways, and the environment of Lebanon,

Emphasizing that Lebanon’s landfills cover 600,000 square meters of land with 100s of meters extending into the Mediterranean Sea,

Noting that approximately half of all the solid waste is recyclable or compostable and that Lebanon does not have a solid waste management plan for the entire country,

Recalling resolution 64/292, the United Nations General Assembly explicitly recognized the human right to water and sanitation and acknowledged that clean drinking water and sanitation are essential to the realisation of all human rights.

Determined to create a cleaner and healthier environment for those in Lebanon,

1. Requests that the NGO Al Midan work within Lebanon to further the efforts of the Green Med Initiative to build a systematic recycling program throughout the entire country to overcome the dire situation that our abundance of garbage is creating;
2. Calls upon Al Midan to create an educational program about the importance of recycling, how to recycle, and how recycling can have a positive impact on our country’s environment;
3. Draws the attention to the possibility of creating opportunities for jobs in building recycling centers and staffing those centers.

1 Resolution to Decrease the Maternal Mortality Ratio and Allow for More Medical Professionals in Africa and Other  
2 Interested Countries  
3  
4 The General Assembly,  
5  
6 Convinced the Maternal Mortality Ratio (MMR) in Malawi is one of the highest in Sub-Saharan Africa, as there are  
7 over 675 deaths for every 100,000 live births in Malawi, compared to the United States maternal mortality rate of  
8 19 deaths for every 100,000 births, and there are less than 1% of Malawi's population are physicians, doctors, and  
9 midwives,  
10  
11 Recalling that the MMR in Malawi has decreased, but not to the desired goal of 155 deaths per 100,000 live birth,  
12 as declared in the United Nations Millennium Development Goals (MDG5),  
13  
14 Reaffirming that according to the Declaration of Human Rights people are entitled to a decent life with sufficient  
15 medical care,  
16  
17 Conscious that the steps taken by the United Nations towards lowering the MMR will complete our goal of reducing  
18 maternal deaths in Malawi,  
19  
20 Determined to achieve a lowered rate of maternal deaths by providing a larger amount of medical assistance,  
21  
22 Having examined the research of the United Nation Millenium Development Goals.  
23  
24 1. Calls upon the United Nations and any interested government officials, or tribal leaders to hold a conference to  
25 discuss partnering with Doctors Without Borders to reduce the MMR in Malawi and other countries;  
26  
27 2. Requests that United Nations proposes student loan forgiveness for medical professionals in or outside Africa who  
28 choose to serve in the maternal and urgent care hospitals of Malawi and other interested countries for more than  
29 two years;  
30  
31 3. Further, proclaiming that no United Nations funding will be needed and student loan forgiveness for medical  
32 professionals will be provided by any interested governments that seek to improve their maternal mortality rate;  
33  
34 4. Keeping in mind that countries are not forced to volunteer and participation is optional, those who do agree fully  
35 consent to providing loan forgiveness from their own funds;  
36  
37 5. Expresses its hope that this resolution will not only increase the amount of medical graduates in Malawi and other  
38 countries by removing the pressure of student loans, but will also allow for safer childbirths and reassured parents.

<b>School:</b> Garrard Co. MS	
<b>City:</b> Lancaster	

- 1 A proposal to allow the ICC (International Criminal Court) to jurisdiction the prosecution of Myanmar for acts of  
2 genocide against the Rohingya population.  
3
- 4 The General Assembly,  
5
- 6 Recalling that in 1948 when the Union Citizenship Act was passed, the Rohingya people of Myanmar have been  
7 considered stateless and not considered one of the 135 ethnic groups in Myanmar. This action has stripped the  
8 Rohingya of their rights such as marriage, practicing religion, education, and access to healthcare, which has  
9 rendered the Rohingya helpless.  
10
- 11 Realizing that since 1970, there have been numerous reports that the Rohingya people were being raped,  
12 tortured, and murdered by Myanmar security forces, forcing them to flee to neighboring countries such as  
13 Bangladesh, Thailand, and Malaysia.  
14
- 15 Noting further that in November of 2016, a UN official accused the Myanmar government of carrying out an  
16 "ethnic cleansing" of the Rohingya people, or in broader terms, genocide. Monks in Myanmar have stated that  
17 the Rohingya Muslims pose a threat to the Buddhist population, which is the majority religion in Myanmar.  
18 Approximately 45.1 million of people are Buddhist and only 1.1 million are Rohingya Muslim, which would make  
19 it nearly impossible for the Rohingya to threaten the Buddhist population in any way, shape, or form.  
20
- 21 Alarmed by a statement by the UN Secretary General which, referring to the Rohingya genocide crisis, stated,  
22 "...the situation has spiralled into the world's fastest developing refugee emergency and a humanitarian and  
23 human rights nightmare."  
24
- 25 1. Calls upon the ICC (International Criminal Court) to investigate and, if necessary, prosecute Myanmar for  
26 acts of genocide and violating the Universal Declaration of Human Rights, articles 2, 5, 13 (Section 1  
27 and 2), 16 (Section 1), and 30.  
28
  - 29 2. Further Recommends the country of Myanmar to cease any and all forms of violence against the  
30 Rohingya population and penalize any actions of violence carried out against the Rohingya.

The General Assembly,

Convinced that the use of drugs around the world poses a threat to the health of the general population,

Taking note of the efforts by the U.S. against drugs such as cannabis and cocaine,

Recalling resolution 67/193 of April 23rd, 2013 and the effort of international cooperation against the worldwide usage of drugs and it's failed efforts may we improve upon it,

Conscious of the usage of medical marijuana by certain nations medical marijuana may be used with the possession of a permit or certificate validating the use of medical marijuana by the holder of the form,

1. Calls upon National Governments internationally on the extraction of all illegal substances such as cannabis, cocaine, heroin, etc. and prohibiting the use of any and all narcotic substances;
2. Draws the attention of the General Assembly to enforce the anti-use of narcotics and the prohibition of drugs as a general product;
3. Requests National Authorities to raid and remove all drug related operations.

- 1                                   Convention on Forming a Peace Treaty between North Korea and South Korea  
2  
3    The General Assembly,  
4  
5    Recalling that North Korea and South Korea signed a ceasefire on July 27 1953, they are still at war and it  
6    effects continue to linger in both North and South Korea today.  
7  
8    Keeping in mind that North and South Korea have been at war since June 25, 1950, and the war has never  
9    officially ended, we are guided to propose a peace treaty to end the long lasting, 68 year war.  
10  
11        1. To enact this resolution, both North Korean and South Korean leaders, Kim Jong-un and Moon Jae-in,  
12        must agree to terms of peace, then both countries must sign the treaty on neutral land. The peace  
13        treaty will be signed by both North Korea and South Korea leaders, in the Peace House, on the border  
14        between both countries, also known as the Demilitarized Zone.  
15  
16        2. Both countries, North Korea and South Korea, will meet in the Peace House on May 30th, 2018 to  
17        discuss and and sign the treaty.  
18  
19        3. All military forces stationed outside the Demilitarized Zone will be reduced to an eighth so that both  
20        countries can enforce their borders while still opening a peace-like attitude.  
21  
22        4. This resolution will not have any expenses following the passage.  
23  
24        5. This will be enacted 70 days after passed.

The General Assembly,

Recognizing that while improvements have been made, AIDS remains an epidemic in Rwanda and around the globe,

Taking note that many countries most affected by AIDS are large coffee exporters,

Taking into consideration the UN "90-90-90 targets" that aim to diagnose 90% of people with HIV by 2020,

Deeply disturbed that 30% of people with AIDS have not been diagnosed,

1. Call upon the UN to institute a voluntary 1% coffee tax on all coffee imports.
2. Recommends that the money gained from the tax be used to purchase HIV testing kits.
3. Further recommends that free testing be offered to all countries who pay the tax.

25  
26  
27  
28  
29  
30  
31

The General Assembly,

Deeply concerned, over fishing is important because small and almost powerless countries such as Senegal are having their fish stolen by Russia, China, and other strong European countries,

Alarmed by these fish trawlers from Russia, China, and European countries taking fish, and destroying rocks that serve as a habitat for native fish therefore harming the economy and agriculture of Senegal and other west African nations,

Recalling the UN Developmental Goals, the UN has set goals for this subject matter. These goals include ensuring better use of natural resources, generating economic growth, and improving nutrition (among others),

Keeping in mind these stronger and wealthier countries are violating article 25 of The Declaration of Human Rights (right for all people and their families to have enough food and water to be healthy). This issue violates this article because people living in Senegal do not have enough fish to eat when others don't have any fish to eat at all while wealthier countries are overfishing in their waters,

Emphasizing that the UN Secretary General has taken interest in this subject, he quoted such: "The 40 million fishers worldwide, of which more than 15 million work full-time on fishing vessels, are in need of special protection that accounts for the diversity of their industry, the long-standing traditions that shape it, and the effect of globalization on the complex working relationships." - UN Secretary General, António Guterres,

1. Calls upon the UN to make a task force and patrol the waters to 12 nautical miles. And 24 hour surveillance in the area,

2. Confirms, only Senegal and other west African residents can fish in the 12 nautical mile distance from their country,

3. Recommends, any country found fishing in that area will face sanctions from the United Nations.

The General Assembly,

Alarmed by an estimated 6.2 million drought and hunger affected Somalis in need of assistance, including food, water and sanitation, health and nutrition, protection and shelter today in Somalia, according to a 2017 UN study. The people of Somalia are without food, water, or shelter, the most basic of human needs for survival. Our proposal would ensure that the men, women, and children of Somalia most affected by these horrible conditions have the necessary aid packages needed for survival. Without meeting their most basic of needs, the country will be unable to advance and provide for themselves in the future.

1. This proposal will create a joint committee starting with nations across the globe in providing aid to Somalia. Examples of aid include appropriate food rations and water rations air dropped into locations of extreme need, and shelters erected and built to aid in the homelessness that famine has caused as these people move from areas of extreme heat with little to no rainfall. The United Nations along with the Office of the Special Adviser on Africa will ensure that the committee is producing clear results of aid towards the country.
2. Each airdrop consisting of food will include food that is non-perishable and necessary for survival. These airdrops will be dropped in areas of high need as determined by the Office of the Special Adviser on Africa. Each Shelter sent will include: beds with nets, cots, and be able to stand up to the elements.
3. This proposal will apply to Somalia and will be enforced primarily for areas of extreme need as determined by the Office of the Special Adviser on Africa.
4. We would make a committee that would be full of volunteer representatives from United Nations countries. Proper logs would be kept of aid sent to Somalia by the Office of the Special Adviser on Africa so as to keep track of aid provided. These records will serve as evidence of aid sent but also participation in UN related Issues/Campaigns.
5. This proposal will be enacted immediately after passage.

- 1                                   i. The Reduction of HIV/AIDS Through Improved Education and Medical Research
- 2
- 3    The General Assembly,
- 4
- 5    Deeply disturbed that 110,000 AIDS related deaths occurred in South Africa in 2016 and only 55% of children
- 6    are on an antiretroviral treatment,
- 7
- 8    Further recalling that AIDS is an enormous problem global, as declared in its resolutions 70/266 and 72/139.
- 9
- 10   Recognizing that the Declaration of Human Rights states that everyone has the right to adequate medical care
- 11   and mother and childhood have special care,
- 12
- 13   Convinced that steps taken by the South African government towards reducing the country's HIV positive
- 14   percentages and number of AIDS related deaths has decreased but has not solved the problem at this time,
- 15
- 16   Observing that the UN security council representative voiced that presenting AIDS as a security issue in 2005,
- 17
- 18       1. Further requests that the South African government and that of other countries inflicted by the
- 19       HIV/AIDS epidemic should better educate and develop further research in order to help lower the rates
- 20       of people infected;
- 21
- 22       2. Recommends to begin by putting 10 small education centers across rural South African areas to reduce
- 23       the amount of uninformed adults and children about the prevention, risks and complications of
- 24       HIV/AIDS;
- 25
- 26       3. Encourages the World Health Organization (WHO) to build research facilities in 2019 across the globe
- 27       to extend knowledge on the HIV disease and find a treatment plan of higher quality to better and
- 28       shorten the extent of taking medicine to fight the disease;
- 29
- 30       4. Supports this plan being in place as soon as possible to assist and provide what we need to build the
- 31       research facilities and education centers, pending on UN approval, by the middle of 2019.

The General Assembly,

Observing the insufficient number of medical professionals in South Sudan and other developing countries worldwide.

Guided by the alarming number of deaths related to preventable or curable disease.

Confident that tens of thousands of deaths per year can be prevented by increasing the number of qualified medical professionals in rural villages.

1. Calls Upon the United Nations to discuss the creation of a medical exchange program to oversee applications and scholarships for individuals interested in pursuing medical certification in disease-stricken areas.
2. Recommends the creation of a medical exchange program managed through the United Nations medical exchange program in which tuition to a public university is exchanged for 4 years of service in a rural village as assigned by the United Nations medical exchange.
3. Further recommends that the United Nations medical exchange develop an application program in which interested individuals can apply for tuition assistance in exchange for this service.
4. Assign individuals who complete the medical exchange program to serve areas in highest need as determined by the United Nations.

The General Assembly,

Alarmed by the fact that women are referred to as “the weaker sex” in the dictionary of the Spanish Language published by The Royal Spanish Academy,

Fully aware that the gender pay gap has widened to twenty four percent, and women must work seventy nine more days a year to earn the same as their male counterparts,

Deeply concerned by the rising number of gender-specific violent crimes in Spain,

Recalling the fifth goal of the United Nations’ Sustainable Development Goals being “achieve gender equality and empower all women and girls,”

1. Calls upon the United Nations Committee on the Elimination of Discrimination Against Women, to create a program to educate Spaniards on gender equality,
2. Recommends that the trial program begin in Spain to later include other United Nations members seeking to improve gender equality in their country,
3. Requests that this resolution will go into effect immediately upon passage.

31

The General Assembly,

Convinced that women’s rights are inferior to men’s rights globally.

Concerned that 1/3 of the world’s women will experience physical or sexual abuse at some point in their lives.

Deeply disturbed that less than 40 per cent of the women who experience violence will seek help of any sort.

Believing that the reluctance to seek help is a combined result of widespread acceptance of violence against women and the limited facilities available for reporting violence as expressed in the United Nations World Women’s Report and the report of the Special Rapporteur for Sudan.

Noting further that sexual violence against women as a weapon of war is increasingly common especially throughout Africa.

Determined that having women’s care facilities in 3rd world countries will save lives.

1. Calls upon member countries of the United Nations to discuss and make recommendations to decrease violence against women.
2. Encourages the United Nations to deem sexual violence used as a weapon of war a Crime Against Humanity and punishable as deemed appropriate by the International Criminal Court.
3. Further requests the coordination of United Nations medical care facilities specializing in women’s care to be located in areas where violence against women is highest. These facilities will provide anonymous physical and psychological care for victims of sexual abuse.
4. Notes that funding for these Women’s Care facilities be provided through grants such as End Violence Against Women International and the UN Trust Fund for Ending Violence Against Women.

22  
23  
24  
25  
26  
27  
28  
29

The General Assembly,

Convinced that the cocoa industry is a large factor in the world’s economy,

Deeply concerned about child labor and the harsh, unsafe working conditions faced by 1.4 million children in the cocoa farming industry,

Fully aware that the Harkin-Engel Protocol calling for the end of the worst forms of child labor by 2020 is in place but is not currently as effective as hoped,

Concerned that many children in the cocoa industry are not only being forced to work but are also victims of human trafficking and slavery,

1. Calls upon the UN Human Rights Council to prohibit the illegal sale of cocoa produced and demands a tax that includes severe sanctions such as making it illegal to sell cocoa produced by children over country borders and putting a tax on all cocoa produced by children for countries in violation of child labor, human trafficking and slavery with regards to the cocoa industry;
2. Requests that these actions take place in countries producing cocoa including Ghana, Côte d’Ivoire, Nigeria, Cameroon, Dominican Republic, Peru, Mexico, Ecuador, Brazil and Indonesia;
3. Urges governments to abolish child labor in cocoa farms, monitor the human trafficking that goes along with it, and penalize anyone currently trafficking or having children in their labor force by making it illegal to sell cocoa across country borders that has been produced by a child.
4. Declares that this is a pilot program, upon success this program should be implemented in other fields besides cocoa within the UN

1 Establishment of Social Empowerment Programs in Refugee Camps to assist Syrian Women & Children  
2  
3 The General Assembly,  
4  
5 Alarmed by the rise of domestic violence and psychological pressures against women and children as well as the  
6 loss of security and lack of education in the Syrian refugee camps in Lebanon, Turkey, and Jordan.  
7  
8 Taking into consideration that 75% of these refugee camps are made up of women and children.  
9  
10 Bearing in mind that the UN Commission for Social Development in its 55th session (2017-2018) noted that  
11 the 2030 Agenda was linked to the rights of women, young people, older persons, indigenous people, persons  
12 with disabilities and other vulnerable groups. Those groups continue to face major obstacles to their  
13 development, while people living in extreme poverty lack the political power and equal opportunities to take  
14 charge of their destiny. Hence, human dignity must be at the centre of any sustainable development process.  
15  
16 Recognition of the countries of Lebanon, Turkey, and Jordan for their generosity in opening their borders to the  
17 refugees escaping the civil war in Syria.  
18  
19 Believing that establishment of social empowerment programs for Syrian Women and Children in Refugee Camps  
20 supports the Declaration of Human Rights, Article 1- Right to Equality, Article 3- Right to Life, Liberty, Personal  
21 Security, and Article 26- Right to Education,  
22  
23 1. Calling upon the UNFPA, the United Nations Population Fund, and UN Women to launch the program  
24 outlined at the 55th session to improve the quality of and access to essential services that respond to  
25 the needs of women and children subjected to violence.  
26  
27 2. Requests that the EVAWI (End Domestic Violence Against Women International) and CARE International  
28 build community centers and provide counseling, empowerment courses and educational programs to  
29 the women and children refugees of Syria.

1 Implementation of the Program of Partners4Prevention

2

3 The General Assembly,

4

5 Alarmed by the fact that in 2016 there was 117,550 reported cases of domestic abuse in Taiwan, which is

6 around 322 cases per day.

7

8 Bearing in mind it was estimated by officials that the unknown number of unreported cases was most likely

9 double the reported number.

10

11 Keeping in mind that programs such as Partners4Prevention have already been implemented or have done

12 research in the following countries to reduce domestic violence: Indonesia, Cambodia, Bangladesh, Sri Lanka,

13 Papua New Guinea- Bougainville, China, and Vietnam.

14

15 Further recalling that Partners4Prevention is a joint program funded and endorsed by the UNDP, UNFPA, UN

16 Women, and UNV in the Asian and Pacific regions.

17

18 1. Calls upon the United Nations to implement Partners4Prevention in Taiwan to help bring awareness,

19 education, and prevention to domestic violence.

20

21 2. Endorses the United Nations to input this program in more Asian countries.

1 Resolution to increase funding to build additional medical centers and hospitals in refugee camps  
2  
3 The General Assembly,  
4  
5 Convinced that refugees are dying because of simple illnesses that can be easily prevented,  
6  
7 Conscious that WHO (World Health Organization) and Doctors Without Borders are taking steps to prevent the  
8 unnecessary suffering or death of refugees in poor living situations,  
9  
10 Confirms that UNICEF (United Nations International Children’s Emergency Fund) is working towards raising  
11 money to help children in refugee camps with poor living conditions,  
12  
13 Remembering such resolutions as Resolution 2139 (2014) to ease aid delivery to Syrians,  
14  
15 Bearing in mind that Article 25 of the United Nations Declaration of Human Rights states that everyone has a  
16 “right to adequate living standards”,  
17  
18 Affirming that the U.N. Secretary General Ban Ki-moon told the UNHCR (United Nations High Commissioner of  
19 Refugees) that the Syrian refugee crisis “demands an exponential increase in global solidarity”,  
20  
21 Guided by the preceding evidence we feel it important to require each refugee camp have a hospital or medical  
22 center run by individuals,  
23  
24 1. Requests that every country participating in the U.N. pledges a certain amount of money to fund this  
25 project taking place in all countries with refugee camps;  
26  
27 2. Calls upon the United Nations Department of Economic and Social Affairs to collect and distribute said  
28 money appropriately;  
29  
30 3. Emphasizes the need to collect and distribute said money by December 31st, 2018.

30  
31

The General Assembly,

Deeply concerned that 88% of people in Africa died of disease in the last year,

Bearing in mind that this poses a major threat to people in Africa, and all throughout the world,

Deeply disturbed that as of February 14, 2018, 3,705,851 people have already died worldwide from communicable diseases such as HIV and malaria,

Affirmed by the fact that an estimated 1.5 million deaths could be avoided a year with global vaccination coverage,

Recalling from article 2010/1, vaccinations are vital for the decrease of mortality in developing countries, such as Uganda and Kenya,

Conscious of the steps that have been taken by the World Health Organization to help increase the number of people being vaccinated in Africa,

Recalling the start in 2011 and ending in 2020, the World Health Organization is on a mission to help stop several major diseases (Malaria, Yellow Fever, and Zika) that are plaguing Africa, and the rest of the world,

Emphasizing that China has helped Uganda and other developing African nations develop their medical supplies including vaccines and other necessary medical supplies,

1. Proposing that the UN and the World Health Organization increase their funding towards vaccines in African nations,
2. Suggesting that the most economically sound plan would be to spread out the distribution of vaccines across several years ultimately leading to a decrease of wide spread of diseases and deadly bacteria.

40  
41

The General Assembly,

Deeply conscious that between 2002 and 2011, the Japanese alone killed over 7,900 whales in the Antarctic,

Recalling that the International Court of Justice ruled that whaling was illegal,

Affirming that it is legal to whale in Iceland, under certain conditions, but is still illegal in the majority of U.N. countries,

Having considered that whale's waste kick-starts the growth of phytoplankton underwater. Phytoplankton pull carbon from the air which makes the air healthier and cleaner. About 400,000 tonnes of carbon has been taken from the air with the help of whales. With so many whales being killed, less carbon is being taken from the air which results in speeding up the process of Global warming,

Bearing in mind that even after the ban in 1986 by the International Whaling Commission, Japan decided to only make their whaling program smaller instead of quitting whaling completely,

1. Calls upon the International Maritime Organization to commence negotiations in order to attempt to come to an agreement that will keep whales from being hit by ships, whether purposely or accidentally, in order to preserve the whale population;
2. Encourages the International Whaling Commission to keep trying to support the conservation of whales and to decrease the amount of whaling in certain areas, especially by negotiating with the countries such as Japan, Norway, and Iceland;
3. Supports the Greenpeace Oceans Campaign in its attempt to help keep our endangered marine life safe by creating campaigns to stop whaling, over-fishing, and marine pollution;
4. Further invites organizations and campaigns such as The Endangered Seas Campaign by the World Wildlife Foundation, the International Marine Mammal Association, The Ocean Alliance, and the Whale and Dolphin Conservation Society to help in the persuasion and creation of other programs to help reduce whaling;
5. Expresses its hope that the countries of Japan, Norway, Iceland, and Australia will comply with this plan to reduce the amount of whaling in their areas;
6. Further reminds the organizations in support of that whaling could further pollute our oceans due to krill not being eaten by the whales when one whale could eat tens of thousands of krill in a single day;
7. Seeks that the Advisory Committee on the Protection of the Sea, the National Resources Defense Council help support this cause and bring about a resolution to reduce - or even put an end to - whaling.

22  
23  
24  
25  
26

The General Assembly,

Alarmed that the oil crisis is affecting the economy of Venezuela,

Emphasizing that Venezuela’s crude production has been steadily declining as the oil-dependent state slogs through an economic crisis precipitated by years of government mismanagement and exacerbated by a prolonged oil price slump,

Declaring in Venezuela, one of Latin America’s biggest oil producers, has an import problem that is shocking the global market and sending refiners on the hunt for replacement supplies,

Realizing that oil revenue is dependent on other nations and their economic connections with Venezuela with stable oil pricing necessary,

1. Calls upon the assistance of the United Nations to provide a committee specializing in economic growth and development to reinvigorate and expand the current economy of Venezuela with oil production possibilities;
2. Requests from the United Nations clear and protective policies in regards to oil refining production, distribution and global market pricing.
3. Further reminds the countries of South Africa, Argentina, Greece, Turkey, Spain, Ukraine, Serbia, Brazil and Uruguay, all oil-refining countries, to protect the economic laws in place in order to prevent oil price-gouging.
