## BE A BETTER DEBATER!!!

### READ THESE HELPFUL HINTS AND TIPS:

- **TECHNICAL QUESTIONS**

- READ the bill before you decide on your question. DON'T ask questions that are already in the bill. For example, "When will this bill go into effect?" and "How much will this bill cost?" are *usually* answered in the Body of the Bill.
- Don't ask questions that begin with "WHY...?" Those are almost *always* debatable.

- **WHAT YOU MAY DO DURING PRO/CON DEBATE**

- Each time you are recognized, you may do ONE or TWO of the following things:
  - Ask the sponsor(s) a *technical* question about the bill
  - Ask the sponsor(s) a *debatable* questions about the bill
  - Give a speech for or against the bill
  - Yield your remaining time to another delegate
- If you would like to ASK A QUESTION (or a series of 2 questions), when you are recognized, say, "**Will the sponsor(s) yield to a question (or 'series of questions')?**"
- If you would like to SPEAK OR YIELD YOUR TIME AFTER ASKING A QUESTION, you should also say, "And I reserve my right to speak (or 'yield my time') afterward."
- If you would like to YIELD YOUR TIME AFTER SPEAKING, you should reserve your right to do so after addressing the chair.
  - EX: "Hermione Granger, Hogwarts I reserve my right to yield the remainder of my time to Delegate Malfoy from Hogwarts Slytherin."

1                                           An Act Relating to Relating to Animal Welfare in Kentucky.

2  
3                                           **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5     Section 1: Despite having the numerous animals that Kentucky harbors, surprisingly, Kentucky is amongst  
6 the weakest in animal protection laws. Kentucky is known for their animals, specifically their horses. That is  
7 why this is so important. This bill would increase the severity of legal consequences related to animal abuse  
8 conviction.  
9

10    Section 2: Kentucky is ranked the #47th worst state in relation to animal abuse cases and punishments.  
11 Illinois is ranked #1. If Kentucky adopted even just a few of the systems or punishments prompted by Illinois.  
12 We could not only move up in the ranking, but in our peace and justice system entirely. A study by the  
13 Massachusetts Society for the Prevention of Cruelty found that animal abusers are five times more likely to  
14 also harm humans. Getting these people their necessary help, or jail time, could save animals and humans  
15 alike.  
16

17    Section 3: It doesn't necessarily take a large sum of money to put a law or bill into the books, but it does  
18 take a fee of money to enforce that law or bill. I feel the state could pull off the more severe punishment for  
19 animal neglect and general levels of abuse if the law enforcement had more specific areas of the topic to  
20 target. I believe that most of the change would take place in the level of the severity of crimes and the  
21 sentences for the abusers.  
22

23    Section 4: The impact this would have on shelters and animal rescues in general would be very rewarding.  
24 The amount of animals that have been adopted recently, especially due to the pandemic, has skyrocketed.  
25 The rehoming of the abused animals would raise our rank, as well as treating the abusers with the  
26 punishment or treatment that is necessary.  
27

28    Section 5: This bill will go into effect on April 1, 2021

1                   An Act Relating To Increasing The Amount of Guidance Counselors in Kentucky Public Schools

2  
3                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5   Section 1: With the increased need for mental health resources in schools, Kentucky public schools are in  
6   desperate need of more guidance counselors. Guidance counselors assist students through various events in  
7   their lives, whether personal or academic. They are there for students on their worst days.

8  
9   Section 2: The recommended ratio of guidance counselors to students is 1 guidance counselor for every 250  
10   students, but it is not required that Kentucky public schools meet this ratio. Therefore, many Kentucky  
11   schools lack the proper amount of guidance counselors, and students suffer as a result. This also hurts  
12   guidance counselors in understaffed schools because they become overworked.

13  
14   Section 3: The creation of this bill will require all Kentucky public schools to maintain the proper ratio of  
15   guidance counselors to students. For every 250 students, there should be one full-time guidance counselor  
16   in the school.

17  
18   Section 4: This bill will be funded by an increase in the Kentucky tobacco sales tax of an additional \$0.10 per  
19   pack of cigarettes.

20  
21   Section 5: This bill will go into effect at the beginning of the 2021-2022 school year.

6  
7                                    a. All elementary schools in Kentucky will be required to offer at least 20 minutes of recess time to

9  
10                                    b. Recess shall be defined as a period of time where students are given a break from the classroom.  
11                                    They must be given the opportunity for physical activity, conducted outside if weather permits.

12  
13                                    Section 2: Any statute contrary to this Act shall be amended or repealed.

1 An Act Relating To Amending 235.990, Section 2 to Increase Fines and Legal Consequences for Operating a  
2 Water Vehicle Under the Influence of Alcohol

3  
4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5  
6 Section 1: This bill will amend KRS 235.990, section 2 to increase the fines for drinking while operating a  
7 water vehicle, if the driver is found to have a blood alcohol content level more than 0.08.

8  
9 Section 2: According to KRS 235.990 section 2, a person’s first offense will result in a fine of at least \$200  
10 but no more than \$250. With this revision amendment, this fine would stay the same, and in addition the  
11 offense would be added to the person’s criminal offense record.

12  
13 Section 3: A person's second offense will result in a fine of \$500. This is an increase from the current KRS  
14 235.990, which sets the fine at \$350.

15  
16 Section 4: Under the current law, a person’s third offense results in a fine of at least \$600 and at most  
17 \$1,000 and/or at least 30 days in jail. This bill changes the consequences to always be a minimum of 30  
18 days in jail and a fine of \$1000.

19  
20 Section 5: After a 4th offense, and subsequent offenses, the offender would get increased time in jail.

21  
22 Section 6: This bill will go into effect 90 days after passage.

1 An Act Relating To Requiring Kentucky’s Public Schools to Have a Licensed Medical Provider on Campus

2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: Every school that is funded by the Kentucky government would be legally required to have a  
6 school nurse that’s medically trained and certified on campus within school hours.

7

8 Section 2: There is already a 2-day inspection required by law every four years to make sure that schools are  
9 maintaining a safe and healthy environment for students. The Kentucky Department of Education also  
10 evaluates schools on a regular basis. When this inspection takes place, the inspectors will check to make  
11 sure that the school has a licensed medical provider on campus.

12

13 Section 3: If the inspection does not find that a school nurse is on staff, the school will have 120 days to fill  
14 the position. After the 120 days, if no nurse is hired, there will be a \$500 fine. Every 120 days that pass in  
15 which the school has not hired a nurse, the fine will continue.

16

17 Section 4: Any statute contrary to this Act shall be amended or repealed.

18

19 Section 5: This bill will take effect beginning with the 2021 - 2022 school year.

1                                        An Act Relating To Bio Coal Use in the State of Kentucky

2

3                                        **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: In eastern Kentucky land and air are contaminated by mountaintop removal. Studies show that humans

6 are harmed by exposure to dust and many toxins released into the air and water from surface mining. People

7 living near the mining have cancer rates of 14.4% and 9.4% for other people in Appalachia. Rates of children born

8 with birth defects was 42% higher in areas near mountaintop removal mining.

9

10 Section 2: Regulation of valley fills associated with mountaintop removal mining is primarily under the authority of

11 two federal statutes, the Surface Mining Control and Reclamation Act (SMCRA, 30 U.S.C. I1201) and the Clean

12 Water Act (CWA, 33 U.S.C. I1252), and involves several federal and state agencies. Also, a few states have

13 completely outlawed it, while some, like Kentucky, believe it is still legal.

14

15 Section 3: Other states have created laws to help resolve this issue such as state legislators in Georgia

16 introducing a bill that outlawed the use of mountaintop removal mining. North Carolina did it a year before. Also,

17 Maryland has been taking a stand and recently had a hearing about it, and a bill should be passed soon.

18 Tennessee has taken it a step further, and has passed a bill that seeks to prevent mountaintop removal from

19 expanding beyond the borders of Appalachia into the Cumberland region.

20

21 Section 4: Our bill would increase the use of bio coal. Bio coal is made from biowaste- like wheat or straw. It

22 works just like normal coal, except there is no chemical waste being released into nature. Bio coal is a carbon-

23 neutral fuel that can replace fossil coal in industrial processes. It is produced within the process of Biogreen

24 pyrolysis and carbonization of raw biomass performed within controlled temperature and residence time

25 conditions. Our bill states that at least 50% of coal produced in Kentucky will be replaced with bio coal.

26

27 Section 5: At a price of \$230 per metric ton, this project will generate approximately \$2.2 million in revenue to

28 Vega each year. The torrefied bio-coal will be manufactured at the company's facility in Allandale, then shipped in

29 containers by rail to the Port of Savannah. It is about 6 cents per pound. Even though it is a lot more expensive

30 than normal coal, it will save many lives and will ensure safe drinking water for countless more. Research found

31 that many sponsors are willing to pay for this project to help make Kentucky a better place. Also, even though it

32 may not be the best option, raising the taxes by 1% will pay for this yearly.

33

34 Section 6: This bill would take effect January 2022.

An Act Relating To Improve Education in the State of Kentucky

**Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

Section 1: Many students in the state of Kentucky are reading at novice levels. According to the Bowling Green Daily News, more than half of the fourth graders in the state are not proficient in reading and Kentucky is 45th nationally for education. Research shows only 64% of Kentucky children can read well and 60% of children have problems with reading.

Section 2: According to the Young Readers Foundation, reading improves vocabulary, helps with better comprehension, develops better thinking skills, stronger memory, and improves grades at school. Reading is important, because it develops the mind. It helps kids to listen better and creates a bigger imagination. Later in life, reading can help you to communicate and to get a good job. According to United Way, kids in third grade who are more proficient in reading are more likely to pass through high school and college.

Section 3: Our bill would create a summer reading program for kids in Kindergarten, 1st, 2nd , and 3rd grade that struggled in school the previous year. This program will be free and available to all Kentucky students regardless of if the student is in private school, public school or homeschooled, but if a certain child needed to go to this camp because they haven't met the reading requirements for that grade level, they would have to go.

Section 4: Tutors will be students from local high schools to help students work on material that they have struggled on with other students. The camps would be a fun active learning experience with games and fun trips. The Tutors would have volunteer hours. This experience would help their resume for college, and it would cut the cost for paying teachers.

Section 5: The money for our solution would come from the Kentucky Education Budget or extra money from the school for fun activities. This would be a free summer camp for students throughout the state of Kentucky.

Section 6: This bill will go into effect in January of 2021.

1                                    An Act Relating To accessibility of prescription medicines.

2  
3                                    **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5                                    Section 1: A NEW SECTION OF KRS CHAPTER 217 IS CREATED TO READ AS FOLLOWS:

6  
7                                    (1) Pharmacies would be within a 5 mile radius of residential zones in urban areas and 10 mile radius  
8                                    of residential zones in rural areas.

9  
10                                   (2) Mail-order prescriptions and over-counter medicines will be delivered within 3 days of ordering.

11  
12                                   Section 2: Pharmacies are scarce in parts of Kentucky mainly because bigger pharmacy companies receive  
13                                   more pay then smaller pharmacies so the smaller pharmacy companies have to shut down leaving large parts  
14                                   of the state without pharmacies. People without access to the medicine they need could die or have their  
15                                   symptoms worsen severely.

16  
17                                   Section 3: The state will fund the smaller pharmacy companies so they can keep their store open. This would  
18                                   provide more pharmacies that are within the set mile radius.

19  
20                                   Section 4: People who receive mail-order prescriptions and over-counter medicines should have their  
21                                   medicines delivered in approximately 3 days. People shouldn't get their prescriptions late or missing because  
22                                   mail-order pharmacies will keep refill prescriptions stock and will have medicines counted for the orders.

23  
24                                   Section 5: Any statute contrary to this Act shall be amended or repealed.

1                    An Act Relating To Calling for Firearm Training Requirements for All Firearm Purchasers

2  
3                    **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5    Section 1: To own a gun in Kentucky, you have to be 21 and older, provide a state ID, and have an instant  
6 background check confirmed by the firearm dealer. Despite these requirements, over 1,700 people are killed  
7 and 3,200 are injured each year due to gun violence in Kentucky. Almost 30 children (ages 0-11) die from  
8 gun violence each year. Kentucky is ranked with the 15th highest death rate in the US due to gun violence.  
9 Despite the increase in gun violence over the past 10 years, laws have remained the same. Kentuckians are  
10 in urgent need of gun law reform.

11  
12    Section 2: This bill is requiring that prior to all gun purchases, each consumer must complete a 1-hour  
13 training course. NRA certified firearms instructors training courses are acceptable. Waivers will be applicable  
14 for all military personnel and police officers, past and present. Rather than providing proof of certification to  
15 the firearm retailer, they must provide official government identification. Any Kentucky citizen wishing to  
16 purchase a gun from a public retailer must present a certification of proof in addition to their state ID.

17  
18    Section 3: Each proof of certification must contain the trainee name, date of training, name of  
19 instructor/training center, signature of trainee, signature of instructor.

20

Section 2: "supplies" is defined as computer software, office supplies, art supplies, gym equipment, instruments, music, decorations, maps, and other material directly used in a classroom setting.

Section 3: this grant shall apply to contracted, licensed teachers currently serving. Retired teachers and teachers in training are not eligible for this grant.

Section 4: this grant shall be distributed to each school district in the Commonwealth for further distribution to their teachers, to occur no later than July 15 of each calendar year, or before the beginning of the next academic year. Whole grants must be paid to teachers directly, the district is to act as a pass-through entity.

Section 5: Teachers are required to provide a receipt for every purchase made to the district. Receipts will be turned in to the district within one month of the beginning of that district's school year. Physical and digital receipts will be maintained by the district for four calendar years. Physical and digital records will be available to the Kentucky Department of Education to prevent fraud, waste, and abuse.

1 An Act Relating To the Requirement of Epinephrine Auto Injectors in Schools

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: An Epinephrine Auto Injector, such as EpiPen or Auvi-Q, is currently not required to be provided  
6 by schools in the state of Kentucky. Thousands of these auto injectors are wasted each year along with a  
7 fraction of hard working Kentuckians income, when parents have to supply an auto injector with their  
8 student. This is wasting money and auto injectors all over the state; there needs to be a solution to this  
9 problem.

10  
11 Section 2: Epinephrine auto injectors are expensive, however they are life saving devices. This bill will require  
12 schools to have one Epinephrine auto injector on site for every 100 students. For schools under 1000  
13 students there will be a requirement of 4 Epinephrine auto injectors and there will be a requirement of 2  
14 additional Epinephrine auto injectors per 500 students.

15  
16 Section 3: Epinephrine auto injectors are very expensive. The average cost of a 2 pack of Epinephrine auto  
17 injectors is around \$730 US dollars. Parents will waste so much money on extra Epinephrine auto injectors  
18 that their child will probably and hopefully never use. After five years of someone not using an Epinephrine  
19 auto injector the cost adds up to around \$3700 US dollars. This bill will save the parents and guardians  
20 money by requiring the schools to provide these auto injectors.

21  
22 Section 4: The benefit of this bill is that it will save tens of thousands of dollars for parents and guardians  
23 because they will not be buying extra Epinephrine auto injectors for their child(ren) to send to school. Due to  
24 this bill, these children would still be safe if they had an allergic reaction while in school, because the school  
25 would still be equipped with enough Epinephrine auto injectors. Not only will it save the parents money, but  
26 it will also ensure that less Epinephrine auto injectors go to waste.

27  
28 Section 5: This bill will go into effect on August 1, 2021

1                                    An Act Relating To Hiring Unemployed Veterans in Kentucky

2

3                                    **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5     Section 1: There are an estimated 284,000 veterans in the United States who are unemployed. In 2019, the  
6     overall United States unemployment rate was 3.6%. In September 2020, the unemployment rate for United  
7     States veterans was 6.8%.

8

9     Section 2: This bill would give Kentucky businesses tax incentives to hire unemployed veterans. These tax  
10    incentives would be applied only to the Kentucky Corporation Income and Limited Liability Entity Tax. For  
11    every unemployed veteran hired by a company of over 20 workers, there will be a 0.5% reduction in the  
12    state taxes for that business. For every unemployed veteran hired by a company of 20 workers or less, there  
13    will be a 1% reduction in the state taxes for that business. The maximum amount of a tax decrease for any  
14    business would be 10%.

15

16    Section 3: This bill does not require any additional funding to implement.

17

18    Section 4: This bill would go into effect January 1, 2021. For every veteran hired, he or she must be  
19    employed by the business for at least 3 consecutive months in order for the tax benefit to apply. The  
20    veteran must also work at least 30 hours per week, excluding weeks with official holidays, paid time off, sick  
21    days, or otherwise approved time off. After the minimum 3 months of employment, the additional tax  
22    benefits will go into effect the following year on January 1. If a hired veteran voluntarily leaves the employer,  
23    is terminated, is laid off, or otherwise is no longer employed by the business at any time, businesses will lose  
24    that portion of their tax credit in the following year.

1 An Act Relating To ensuring that large newly constructed buildings get a quote on the long-term profits of  
2 solar panels.

3  
4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5  
6 Section 1: This bill is ensuring that new buildings being established over 5,000 sq feet must get an estimate  
7 on the cost solar panels will save them in the long-run. This bill would go hand in hand with the Kentucky  
8 New Energy Ventures.

9  
10 Section 2: Ensuring universal access to affordable clean electricity in the future means investing in clean  
11 energy sources such as solar energy. Adopting cost-effective standards like solar energy will reduce the  
12 amount of power plants in Kentucky.

13  
14 Section 3: Use our school as an example. Before Covid-19 hit, we were thinking about installing solar panels  
15 for our school district, and it would've cost us \$2,546,000. In the year after installation, it would have saved  
16 us \$141,949, cutting down our electricity costs by about 50%.

17  
18 Section 4: The consequence of this law, if not enforced is a fine of \$250 on the first offense. If they do not  
19 get a quote within 1 month, then the fine would be increased to \$500.

20  
21 Section 5: Our bill needs no funding because the quotes provided by the solar panel manufacturers have no  
22 cost.

23  
24 Section 6: The Kentucky Energy and Environment Cabinet (KEEC) will enforce this law.

25  
26 Section 7: All laws or parts of laws in conflict with this bill will hereby be repealed.

27  
28 Section 8: This law will go into effect on January 1, 2023.

1 An Act Relating To Legalizing Casino Gambling with the Tax Revenue going towards Education.

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: Casino Gambling will be legalized in the Commonwealth of Kentucky and the tax revenue from  
6 these casinos will go into the General Fund to be used for Education purposes.

7  
8 Section 2: Several forms of gambling already exist in Kentucky such as betting on horse racing and charitable  
9 gaming. Legalizing casinos would attract many people and businesses into Kentucky. Currently, people are  
10 going across state lines to participate in casino gambling but legalizing this in Kentucky would provide more  
11 income to our Commonwealth.

12  
13 Section 3: The purpose of this bill is to raise revenue that could then be used to increase the funding for  
14 education in the Commonwealth of Kentucky. Education is the most important way to ensure that our future  
15 is bright but due to the Coronavirus pandemic, the funding for education in Kentucky is at risk of being cut  
16 and reduced. Legalizing Casino Gambling would not only help protect our budget for education but increase  
17 funding.

18  
19 Section 4: This bill will not cost the taxpayer or the government but it will raise money that can be used to  
20 better fund education in the Commonwealth of Kentucky.

21  
22 Section 5: This bill will lead to the creation of the Kentucky Gaming Commission which would be created to  
23 enforce this bill.

24  
25 Section 6: All laws or parts of laws in conflict with this bill will be hereby repealed.

2  
3                                    **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5    Section 1: The following Kentucky Constitution section is to be amended: Section 184 - Common School

7  
8    Section 2: The following Kentucky Constitution section is to be repealed: Section 189 - Common School Fund

10  
11   Section 3: This will allow state SEEK (Support Education Excellence in Kentucky) funds to follow the child to

An Act Relating To Early In-Person Voting in Kentucky

**Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

Section 1: Currently in Kentucky, there are no options for early in-person voting. Due to the Covid-19 pandemic, early in-person voting was accessible to many people. Voting stations were open on dates earlier than election day. This provided more open windows for voters to participate.

Section 2: The purpose of this bill is to expand the voting opportunities to eligible voters and improve accessibility. In person early voting shall be conducted on the three Saturdays preceding a primary election, regular election or special election. On these days, voting will be held between the hours of 9 AM and 4 PM in each county in Kentucky. Registered voters may cast their votes in the county clerk's offices or designated voting offices on these days. Local eligibility requirements will be confirmed by election officials. Early voter's names will be placed on a record to ensure there are no double voters. If voters are waiting to cast an early vote at 4 PM, they will be permitted to stay in line and vote. However, if any people wish to come in after them, they will not be accepted. Election officials will determine the cutoff for voters to get in line.

Section 3: Upon passage, this bill will go into effect on January 1st of the following calendar year.

1                                   An Act Relating To Better Mental Health Services in the State of Kentucky

2  
3                                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5   Section 1: Not all Kentucky public and private schools have trained school counselors. During the pandemic,  
6   students have been extremely stressed with online school, but they haven't had anyone to talk to relieve  
7   their stress and anxiety. School counselors are not mandated for grades K-8 or 9-12, In Kentucky. There are  
8   only 442 school counselors with Kentucky's population being about 4 million people.

9  
10   Section 2: We think that every student should have the ability to obtain resources to help them with their  
11   mental state. If students don't get this extra help, their success rate can grow lower, and it can be more  
12   difficult to focus in school. A handful of people are attending online school during this pandemic. Everyday,  
13   students have to go through stress from technical difficulties, to even not being able to socialize with their  
14   friends throughout the day. A lot of kids don't have access to therapists. Whether it's financial issues, or  
15   parental restrictions. We need to have therapists available always, even for kids who are doing virtual school.

16  
17   Section 3: Research shows that a higher percentage of students with mental health issues due to online  
18   school and covid 19 are trying to receive help. A lot of them don't have the resources to obtain the help they  
19   need. For our bill, we would like to have more school counselors, who are trained, to help deal with student's  
20   mental health.

21  
22   Section 4: We think it is a good idea to require money to come out of the state budget for school services.  
23   Our bill will be funded in two ways. First of all, counselors make around 50,000 dollars per year on average.  
24   We would like to split the paycheck between the school, and taxes. The school board will each pay 25,000  
25   dollars, (over time) to counselors. This will occur over time meaning their pay rate per day will contribute to  
26   this final cost of 25,000. With there being 129 school districts, and 685,167 students in Kentucky, the  
27   amount of counselors we need per student is one counselor to 250 students. Overall, we are going to  
28   require a minimum of adding two to five counselors per school.

29  
30   Section 5: This bill will take effect on January 1st, 2021.

1                                    An Act Relating To Raising the Minimum Wage in the state of Kentucky

2  
3                                    **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5    Section 1: Today's minimum wage is not enough to make a living, especially for workers that have families.  
6    Our bill will not only help those families and workers, but will also help young college students and people  
7    who struggle to keep up with bills and money for their family.

8  
9    Section 2: The current minimum wage in Kentucky is \$7.25 an hour. Which means minimum wage workers  
10   make just under \$16,000 annually.

11  
12   Section 3: People pay around \$4,600 for a year of health insurance The average American household is 3  
13   people, and a person spends at least \$3,000 on food a year, for three people the total would be 9,000 a  
14   year. Those two things alone is \$13,600, leaving little to none behind for other necessities such as  
15   education, shelter, food and much more.

16  
17   Section 4: Our bill proposes that the minimum wage in Kentucky be raised to \$11 an hour. As inflation has  
18   risen in the past few decades, so has the cost of housing, education and basic necessities. And as living  
19   expenses increased, the minimum wage has not. By raising the minimum wage in Kentucky, more people can  
20   afford to live comfortably and it can decrease poverty levels in our state.

21  
22   Section 5: This bill will go into effect on January 1st, 2021.

12 infrastructure and our environment, strengthen our financial security, expand opportunity and reduce market

1                                    An Act Relating To Black History Education in Kentucky Middle Schools

2

3                                    **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5    Section 1: Under this bill, all middle schools in Kentucky must have someone teach 1619 project curriculum

6    for one day a week in Black History month. This would take up a class's history/social studies period.

7

8    Section 2: The 1619 Project is an initiative started by the New York Times that focuses more on the

9    achievements and suffering of black people rather than teaching only about white history, as most current

10   curriculum does.

11

12   Section 3: There are multiple curriculum resources available on the internet for speakers or teachers to use

13   that pertain to the 1619 Project and would be beneficial during Black History Month and lead to important

14   discussion. The curriculum is free and either a teacher could teach it, or someone could volunteer to help the

15   school.

16

17   Section 4: In current times, as we are learning more about racial inequality, it is very important for students

18   to be educated about the history of black people in a more acceptable way than most current curriculum

19   teaches it.

1                                    An Act Relating to School cyber security for all students in Kentucky

2  
3                                    **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5    Section 1: Students in Kentucky are at risk of seeing inappropriate ads and inappropriate emails. Student’s  
6    private information can possibly be exposed if there isn’t the right protection. The purpose of this bill is to  
7    ensure that students remain safe online while on a school issued device. This applies to all technology that  
8    students get from school such as chrome books/iPads. This keeps students from looking at inappropriate  
9    ads and having their private, confidential information compromised. This also keeps hackers from being able  
10   to hack students’ technology and devices.

11  
12   Section 2: When a student receives a school issued device, the device will have software installed on it to  
13   protect the student online. The internet protection software will go on all devices issued by a public school
