Social Responsibility Giving back and providing support to our neighbors

YOUTH DEVELOPMENT AT THE YMCA

Kentucky YMCA Youth Development is the **social-emotional**, **cognitive**, and **physical** process that all youth uniquely experience from birth to career. A successful development process fulfills children and teens' innate need to be loved, spiritually grounded, educated, competent, and healthy.

DIMENSIONS OF WELL-BEING

At the Y, we support youth development by fostering nine dimensions of well-being: Character, Giving, Inspiration, Health, Achievement, Relationships, Belonging, Meaning, and Safety.

Youth Development at the Y emphasizes three of these dimensions when measuring the impact and effectiveness of our programs:

Achievement Relationships Belonging

ap

and healthy relationships.

THE FIVE PILLARS

To help ensure the fidelity and quality of our YMCA teen programs, we measure and seek to maximize impact using the following pillars:

Positive youth development is supported by the intentional efforts of individuals, including parents, mentors, teachers,

community members, peers, and others

who help foster the skills needed for successful living through motivation, active engagement, enriching activities,

Academics Positive Relationships Positive Identity Life Skills Civic Engagement (Youth and Government*)

*Each YMCA teen program has a unique pillar of measurement. As a Youth and Government program, the Kentucky YMCA and our Student YMCA Chapters measure civic engagement.

- Fill out this page to help you remember key points when you give speeches and ask questions.
- The best time to get info from Sponsors is during Bill Sharing in First Committees.
- Try to come up with thoughtful questions that are not answered in the bill.
- Take note of the points made in each speech, pro and con. You can help make the debate better by responding to previous speakers, rather than just repeating the same points made in previous speeches.

BE A BETTER DEBATER!!! READ THESE HELPFUL HINTS AND TIPS:

• TECHNICAL QUESTIONS

- READ the bill before you decide on your question. DON'T ask questions that are already in the bill. For example, "When will this bill go into effect?" and "How much will this bill cost?" are *usually* answered in the Body of the Bill.
- Don't ask questions that begin with "WHY...?" Those are almost *always* debatable.

• WHAT YOU MAY DO DURING PRO/CON DEBATE

- \circ Each time you are recognized, you may do ONE or TWO of the following things:
 - Ask the sponsor(s) a *technical* question about the bill
 - Ask the sponsor(s) a *debatable* questions about the bill
 - Give a speech for or against the bill
 - Yield your remaining time to another delegate
- o If you would like to ASK A QUESTION (or a series of 2 questions), when you are recognized,

say, "Will the sponsor(s) yield to a question (or `series of questions')?" If you would like to <u>SPEAK OR YIELD YOUR TIME AFTER ASKING A QUESTION</u>, you should

- If you would like to <u>SPEAK OR YIELD YOUR TIME AFTER ASKING A QUESTION</u>, you should also say, "And I reserve my right to speak (or 'yield my time') afterward."
- If you would like to <u>YIELD YOUR TIME AFTER SPEAKING</u>, you should reserve your right to do so after addressing the chair.

• EX: "Hermione Granger, Hogwarts. I reserve my right to yield the remainder of my time to Delegate Malfoy from Hogwarts Slytherin."

1 2	An Act Relating To require carbon monoxide detectors in all buildings that offer public services (hotels, shopping centers, restaurants, etc).
2	shopping centers, restaurants, etc).
4	Be it enacted by the Youth Assembly of the Commonwealth of Kentucky
5	be it enacted by the routh Assembly of the commonwealth of Kentucky
6	Section 1: The purpose of this bill is to require carbon monoxide detectors in buildings that offer public
7	services, which will protect citizens from carbon monoxide poisoning.
8	
9	Section 2: Carbon monoxide is an odorless gas that causes thousands of deaths each year in North America
10	without warning. Since 2016, there have been over 2,000 deaths due to carbon monoxide (CO) poisoning.
11	According to the Center for Disease Control, 50,000 people visit the emergency room each year, with 4,000
12	of those individuals being hospitalized. In Kentucky, there are approximately 80 people hospitalized from CO
13	poisoning each year and an average of 17 Kentuckians that die every year due to unintentional carbon
14	monoxide poisoning. Adding carbon monoxide detectors to public places would add extra safety to Kentucky
15	citizens.
16	
17	Section 3: Funding for the carbon monoxide detectors will be provided by the owner of the public service
18	building.
19	
20	Section 4: This law will be enforced by the Kentucky Department of Public Health.
21	
22	Section 5: First Offense – A warning will be issued to the business, and it must be in compliance within 3
23	months. Second Offense – A \$50 fine per missing carbon monoxide detector. Third Offense – The business
24	will be shut down/condemned until the business is in compliance.
25	
26	Section 6: This bill will go into effect November 1, 2022.

1	An Act to Extend the Minimum Lunch Period in Kentucky Public Schools
2	
3	Be it enacted by the Youth Assembly of the Commonwealth of Kentucky
4 5	Section 1. The state of Kentucky has no such laws requiring a minimum time for students to eat lunch. Most
6	Section 1: The state of Kentucky has no such laws requiring a minimum time for students to eat lunch. Most often, in schools across the Commonwealth, lunch periods range from 20-30 minutes. Many states in the
7	U.S. have passed legislation regarding how much time students must have actually "in their seat" eating.
, 8	These laws are often based on CDC guidelines which state "in order to ensure that students have sufficient
9	time to eat their meal, a minimum of 20 minutes is needed from the time students sit down."
10	
11	Section 2: Our bill proposes to set a minimum time requirement of 20 minutes once students have been
12	seated. Schools would have the flexibility to adjust the time beyond that, considering the time it takes to
13	walk to the cafeteria, wait in line, pay for food, and find a seat. For most schools, a lunch block would be 25-
14	30 minutes depending on the size of the student population of the school.
15	
16	Section 3: No funding will be required to carry out this new mandate.
17	
18	Section 4: Each school district in Kentucky will be responsible for ensuring that their schools have schedules
19	that reflect the minimum time as proposed above. School districts not implementing the minimum seat time
20	requirement may face a decrease federal funding.
21	
22	Section 5: This bill will go into effect at the start of the 2022–2023 school year, to allow school districts and
23	administration time to modify master schedules to work in the minimum lunch time.

7	
8	Section 2: Failure to comply with this law should result in a fine up to \$300 based on what illegal substances
9	were used, a suspension of government funding for up to 4 weeks until participant undergoes substance

1	An Act Relating To mandatory police body cams
2	
3 4	Be it enacted by the Youth Assembly of the Commonwealth of Kentucky
5 6	Section 1: Our reasoning behind choosing police body cameras is to break down the numbers of police brutality cases. Police Brutality is a large problem around here and in the south. The United States has the
7 8	most Police brutality cases out of the whole world. There was a case on March 13th, 2020 in Louisville Ky of a 26 year old woman who worked in the medical field. Who was laying in her bed asleep when serval white
9	police officers came into her house and shot her. Many people tried to defend the police up by saying "she
10 11	should've opened the door when they knocked" or "she was suspicious for drugs". That is not a reason to shoot a defenseless woman. Wearing a camera could prevent deaths of defenseless people who are accused
12	of fighting back or having a weapon. This will also help cops who are falsely accused. For example, in multiple
13 14	cases before, police officers had been wrongfully accused of tampering with evidence.
15 16	Section 2: Improve police accountability and lowering reports of police misconduct + Police body cameras are a powerful tool in traffic stops, public venues, and domestic violence cases +Police body cameras are an
17	effective reform tool and have strong support from members of the public. +There is a 60% reduction in full
18 19	force actions when wearing a body camera (Rialto, California USA)
20 21	Section 3: There are 120 counties in Kentucky. A single body camera costs an average of \$500. There are around 886 troopers in Kentucky. We are well aware that the cost will be expensive, but we have to think of
22 23	the other things that Kentucky spends money on. On police brutality payouts last year, Kentucky spent more than \$6.65 M. We think that this is an absolutely ridiculous number. We believe that by spending \$445,000
24 25	a year, this outrageous number will decrease.
26 27 28 29	Section 4: Who will be viewing this footage? A new supervisor, responsible for managing the footage and making sure that everyone is wearing them correctly. A unbiased judge will be viewing, and the chief of police per county will be watching their troopers footage as needed.
30 31	Section 5: What would happen if someone deleted their footage? The supervisor would see this in the history and the trooper or sheriff will be held accountable.

1	An Act Relating To Use of Solar Energy in Kentucky Schools
2	
3	Be it enacted by the Youth Assembly of the Commonwealth of Kentucky
4	
5	Section 1: Our bill for KYA this year is to mandate solar panels for the schools in Kentucky. We chose to make our
6	bill about solar panels because they are needed to provide a better source of energy in our city. Solar panels are
7	better for the environment because they reduce the usage of fossil fuels. Also, they are a much cheaper
8	alternative to fossil fuels. The reason that we would want to substitute the use of fossil fuels is because when we
9	burn them we are putting carbon dioxide into the atmosphere. This also contributes to greenhouse gases.
10	
11	Section 2: Solar panels are used to convert solar energy into electricity. Solar energy is a renewable resource.
12	Renewable resources are an energy source that cannot be depleted and are able to supply a continuous amount
13	of clean energy for us. Solar panels produce zero harmful emissions into the atmosphere as they create power.
14	This helps with many problems in our world today, like air pollution, water pollution, and climate change.
15	
16	Section 3: Solar panels are a much cheaper option for our schools and cities. Over time, schools can save about 1
17	million dollars in annual energy costs. This money could go to other things that help the schools and students. As
18	of 2016, solar is the cheapest source of energy in the world.
19	
20	Section 4: The typical solar payback takes about 8-10 years, depending on your utility cost. If we put 80,000
21	square feet of panels it would cost \$51,000. If we include the wiring, racking, labor, and inverters this would
22	triple, or if not quadruple the amount. This money could be come up with by funding or donations from the school,
23	students, parents, or people in the community.
24	
25	Section 5: We would protect the solar panels by having a fence so students cannot access them. Also, the
26	students would also not be let over in the area where the solar panels are. If there was a big storm that caused
27	the panels not to work, there would be a generator to help the solar panels operate. Every single panel will have
28	insurance on it as well.
29	
30	Section 6: If the people did not choose to follow the rules, then they would be charged with community service
31	hours. The community service would be 10 or more hours, but then the judge can take it further than that if
32	needed.

1	An act to require all school personnel and bus drivers to submit to random drug screening.
2	
3	Be it enacted by the Youth Assembly of the Commonwealth of Kentucky
4	
5	Section 1: Currently, Kentucky has no statewide rule that school personnel and bus drivers must submit to
6	random drug testing. This bill would require these individuals to submit to a random drug test if their district
7	deems necessary; whether due to safety violations or observations by administrators.
8	
9	Section 2: Since each county's board of education already is in charge of managing their own personnel, they
10	would also be the ones to oversee this bill. The expense for a five panel drug screening, which on average
11	costs \$65, would be the responsibility of the individual being asked to take the drug test. If that person
12	passes their test, they would then be reimbursed for the cost of the test by their school board.
13	
14	Section 3: If an employee fails their drug screening, they will be put on administrative leave, where they can
15	use their sick days to cover their time off so they still receive pay, until they can pass two consecutive tests.
16	Failure to pass the two required tests within a thirty day period will result in the employee losing their
17	position permanently.
18	
19	Section 4: There is no cost to implement this bill for the state, however, if a test is passed, the school board
20	for the specific district will need to use school funds to reimburse the individual who passed.
21	
22	Section 5: This bill will go into effect August 1, 2023, or at the beginning of the 2023–2024 school year;
23	whichever comes first.

1	An Act To require all schools to have a monthly K9 Unit search of the school.
2	
3	Be it enacted by the Youth Assembly of the Commonwealth of Kentucky
4	
5	Section 1: Drugs are an everyday factor in some schools and an issue that our students should not have to
6	face. This bill would require local K9 Units to search schools monthly in an effort to curb the presence of
7	drugs in Kentucky schools. If a situation presents itself where a K9 Unit is needed because of a perceived
8	threat, then the personnel and students; as well as the K9 and their handler, would be familiar with the drill
9	and how to proceed.
10	
11	Section 2: Each school would be required to schedule their visits with their local law enforcement department
12	for planning purposes. This could even be the responsibility of the school's SRO. If a visit is missed, it would
13	need to be rescheduled within the next 30 days so the school could get back onto their monthly schedule.
14	
15	Section 3: Most districts already employ walkthrough searches and have police present throughout the year
16	on the school grounds, however, this bill would regulate the searches within the school to add another layer
17	of protection for our students. Statistically, during a building search, a K-9 can perform the search 70%
18	quicker than a four-man special response team, with a 93% success rate. Since some counties do not have
19	K9 Units in their police force, efforts would need to be coordinated by law enforcement with other counties
20	to ensure all schools are covered. In the event of an emergency, there would need to be a K9 Unit familiar
21	with each school to aid in searches.
22	
23	Section 4: The cost to implement this bill for the state will be covered by each county and will be monitored
24	by the City Police or Sheriff's Department in each county. This would cover the cost of travel, even to another
25	county, and the cost of the K9 officer handler's time.
26	
27	Section 5: This bill will go into effect August 1, 2023, or at the beginning of the 2023–2024 school year;

4	
5	Section 1: In dangerous situations, this bill will improve the safety of all citizens by establishing a 911 text in
6	addition to the 911 emergency calls.
7	
8	Section 2: Currently, the only way to contact 911 in Kentucky, except for 27% of KY counties, is by making
9	an emergency call. There are over 700,000 deaf or hard of hearing people living in Kentucky currently that
10	this bill would greatly affect in an emergency situation. In addition, if dealing with an incident making speech

12	
13	Section 3: There will be no additional fees for texting 911. The ability to contact emergency services this

1	An Act Relating to A Free Breakfast and Lunch Program for All K-12 Public School Students
2	
3	Be it enacted by the Youth Assembly of the Commonwealth of Kentucky
4	
5	Section 1: No child in Kentucky should experience hunger, and every public school pupil should benefit from
6	access to a healthy and freshly prepared meal during the school day. For the 2021-2022 school year,
7	COVID relief funding has provided all Kentucky public school students the opportunity to have a free school
8	breakfast and lunch daily. This has been a welcomed relief to some of the financial burden that was placed
9	on families during this time. Although families have struggled financially during COVID, this relief funding is
10	not indefinite and will run out, as early as next school year.
11	
12	Section 2: Our bill proposes to offer a free breakfast and lunch to each Kentucky public school student in
13	grades P-12. This would ensure that every child in the state has access to breakfast and lunch at school that
14	can help support their academic success. School meals reduce childhood hunger, decrease childhood
15	overweight and obesity, improve child nutrition and wellness, enhance child development and school
16	readiness, as well as support learning, attendance, and behavior.
17	
18	Section 3: The cost of this bill will be covered by grants from the National School Breakfast Program, the
19	National School Lunch Program, and the US Department of Agriculture. Any remaining costs will be offset by
20	reallocating Kentucky state taxes reserved for education. The cost of this bill will also vary based on the

1	An Act Relating To the addition of modern roundabouts in Kentucky
2	
3	Be it enacted by the Youth Assembly of the Commonwealth of Kentucky
4	
5	Section 1: This bill will help to increase the number of roundabouts in Kentucky and therefore help to
6 7	improve road safety. Roundabouts will be installed at intersections that meet a certain number of cars daily.
	Section 2: Some of the other states that have induced roundabouts is the state of Wisconsin has the most
8 9	roundabouts in the U.S. and there are 440 roundabouts in Wisconsin, 256 are on the state trunk highway
10	(STH) system and 184 are on local highways. The city with the most roundabouts in the U.S. is Carmel,
11	Carmel has more than 134 roundabouts in the city, that is more than any other city in the United states. The
12	number of injury accidents in Carmel have reduced by about 80 percent and the number of accidents overall
13	by about 40 percent.
14	
15	Section 3: The installation of more roundabouts would help the citizens of Kentucky by reducing the percent
16	of both fatal and nonfatal crashes. The annual cost of roundabouts eliminates the maintenance cost that can
17	be up to 10,000 dollars a year. It would also help to reduce the exhaust emissions from cars that would not
18	have to continuously stop. The modern roundabout also increases the traffic flow allowing for more working
19	citizens to arrive on time.
20	
21	Section 4: If citizens were to need to know how to drive on a roundabout they could find that information on
22	a page connected to the Kentucky state department of transportation. There would also be an accurate
23	amount of signs that would help to instruct them through the roundabout. Also, a modern roundabout
24 25	simulation would be required on every drivers test in Kentucky.
26	Section 5: This bill would be taken into effect immediately. Roundabouts would be placed at intersections
27	that meet a certain number of cars per day. Or depending on the average speed of every car that goes by.
28	and meet a certain number of cars per day. Or depending on the average speed of every car that goes by:
29	Section 6: Funding for this bill would be paid by the Kentucky State Department of Transportation and would

GOR FOR IT 2022 | GFI Character Development Conference

GFI Bluegrass | Grades 6-8

January 15-16, 2022

GFI Commonwealth | Grades 9-12

January 15-16, 2022

Go For It is an inspirational and motivational experience that builds servant leaders through personal discovery and skills development. Through in-depth guided discussion, small group activities, and teambuilding, teens hone leadership skills and explore their own values away from the pressures of their daily lives.

A rare space where teens can truly be themselves, students have fun, forge lasting bonds with peers from around the Commonwealth and return home better prepared to be effective servant leaders in their home, school and community.
