YOUTH DEVELOPMENT AT THE YMCA

Kentucky YMCA Youth Development is the **social-emotional, cognitive, and physical** process that all youth uniquely experience from birth to career. A successful development process fulfills children and teens' innate need to be loved, spiritually grounded, educated, competent, and healthy.

Positive youth development is supported by the intentional efforts of individuals, including parents, mentors, teachers, community members, peers, and others who help foster the skills needed for successful living through motivation, active engagement, enriching activities, and healthy relationships.

DIMENSIONS OF WELL-BEING

At the Y, we support youth development by fostering nine dimensions of well-being: Character, Giving, Inspiration, Health, Achievement, Relationships, Belonging, Meaning, and Safety.

Youth Development at the Y emphasizes three of these dimensions when measuring the impact and effectiveness of our programs:

Achievement
Relationships
Belonging

THE FIVE PILLARS

To help ensure the fidelity and quality of our YMCA teen programs, we measure and seek to maximize impact using the following pillars:

Academics
Positive Relationships
Positive Identity
Life Skills
Civic Engagement (Youth and Government*)

My Docket

- Fill out this page to help you remember key points when you give speeches and ask questions.
- The best time to get info from Sponsors is during Bill Sharing in First Committees.
- Try to come up with thoughtful questions that are not answered in the bill.
- Take note of the points made in each speech, pro and con. You can help make the debate better by responding to previous speakers, rather than just repeating the same points made in previous speeches.

BE A BETTER DEBATER!!!
READ THESE HELPFUL HINTS AND TIPS:

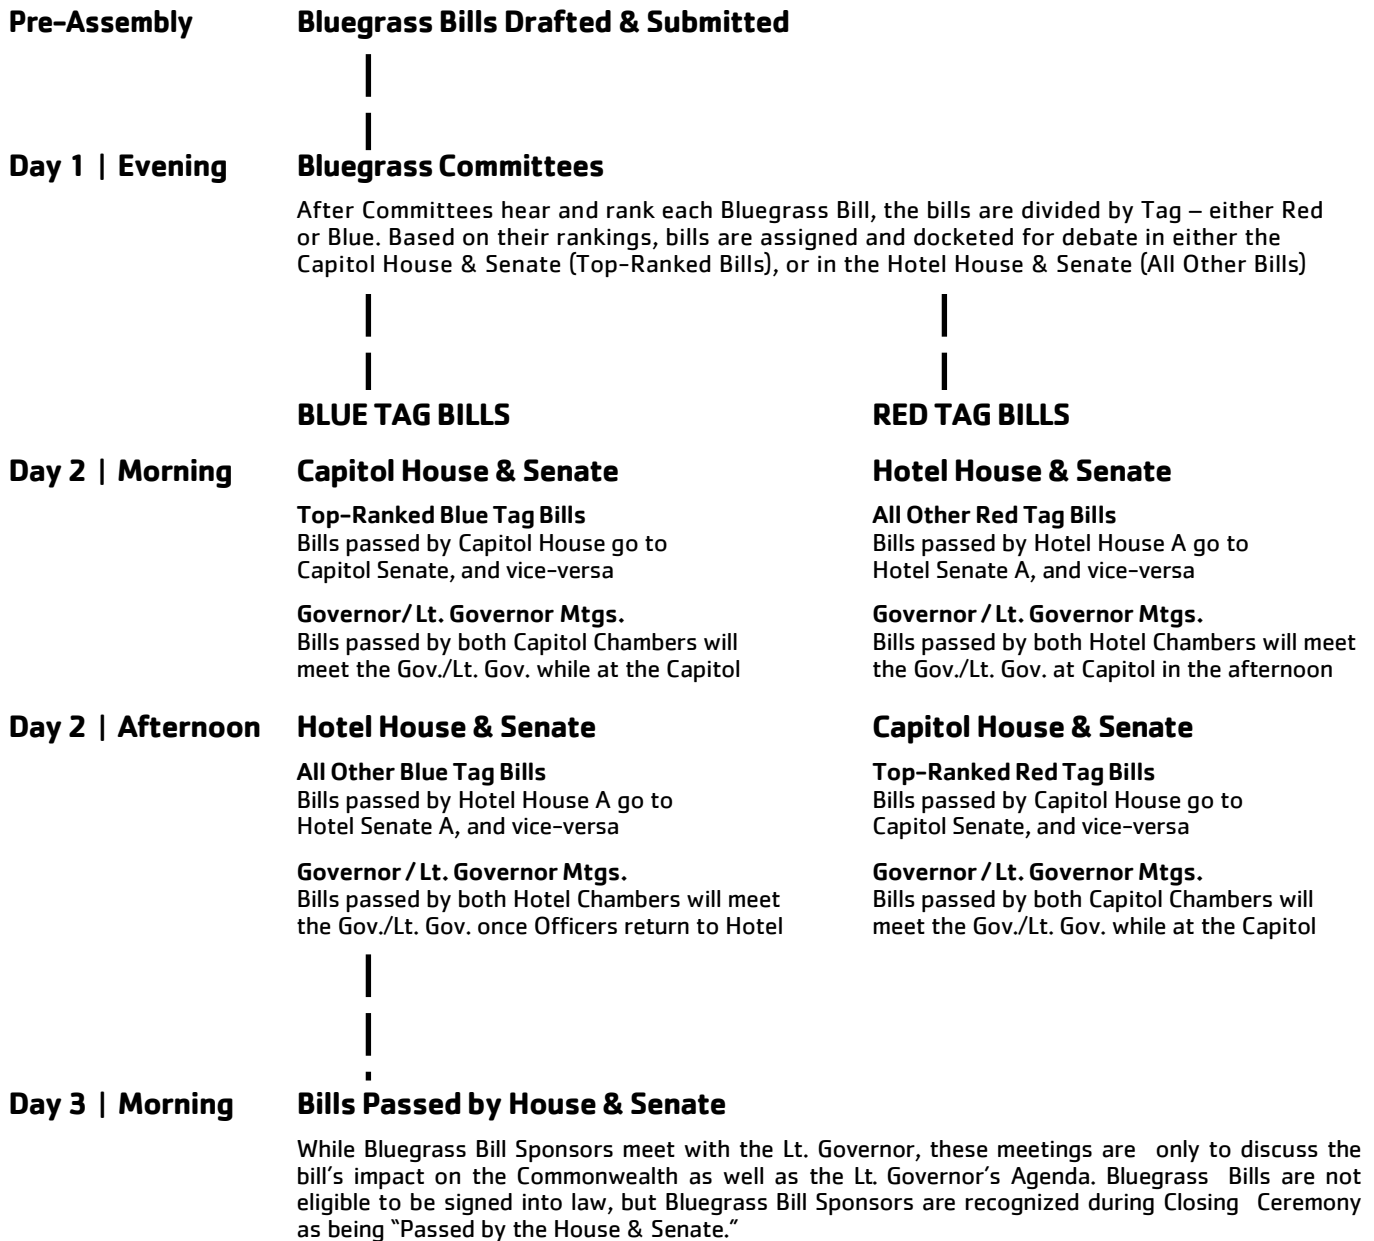

- **TECHNICAL QUESTIONS**
 - READ the bill before you decide on your question. DON'T ask questions that are already in the bill. For example, "When will this bill go into effect?" and "How much will this bill cost?" are *usually* answered in the Body of the Bill.
 - Don't ask questions that begin with "WHY...?" Those are almost *always* debatable.
- **WHAT YOU MAY DO DURING PRO/CON DEBATE**
 - Each time you are recognized, you may do ONE or TWO of the following things:
 - Ask the sponsor(s) a *technical* question about the bill
 - Ask the sponsor(s) a *debatable* questions about the bill
 - Give a speech for or against the bill
 - Yield your remaining time to another delegate
 - If you would like to ASK A QUESTION (or a series of 2 questions), when you are recognized, say, **"Will the sponsor(s) yield to a question (or `series of questions')?"**
 - If you would like to SPEAK OR YIELD YOUR TIME AFTER ASKING A QUESTION, you should also say, "And I reserve my right to speak (or `yield my time') afterward."
 - If you would like to YIELD YOUR TIME AFTER SPEAKING, you should reserve your right to do so after addressing the chair.
 - EX: "Hermione Granger, Hogwarts. I reserve my right to yield the remainder of my time to Delegate Malfoy from Hogwarts Slytherin."

Section 1: This law will prohibit all forms of declawing cats, including declawing, tendonectomy, and onychectomy. Declawing is an inhumane act, and therefore shall be abolished in all forms.

Section 2: Declawing, tendonectomy, and onychectomy are all procedures that put the cat in pain. It is also the cause of many behavioral problems, including biting and not using the litter box. It also results in many physical problems, including chronic pain, arthritis, lameness, nerve/tissue damage, gangrene, abscesses, paw pad atrophy, bone regrowth, osteomyelitis, and back pain. In no ways is this procedure beneficial to the cat, unless it is necessary for its health.

Section 3: This bill would be enforced by the Kentucky Humane Society. If one is to violate this law the owner of the cat will be fined \$500 and the person who performs the procedure or extracting of the claws will be fined double the money they got from the procedure.

Section 4: The law will be put to effect immediately and will include all people in Kentucky. This bill will be disregarded if a licensed veterinarian determines a cat needs to be declawed for health issues. This is only to be allowed in extreme cases, however, where it is absolutely necessary for the cat to be declawed, and there is no other option.

1 An act to require Kentucky to honor out of state teaching certificates for military spouses who hold
2 certification in another state.

3
4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5
6 Section 1: Imagine having a teaching certificate but not being able to teach because you are a military
7 spouse and have just moved to a new state in which you are not deemed as certified. For many military
8 spouses who hold teaching degrees, this is the reality when they move to Kentucky. Kentucky should honor
9 out of state teaching certificates of military spouses for the duration of their military orders. Currently,
10 Kentucky only provides emergency certification for those who move in and are not properly certified per the
11 state's requirements. With this, the pay of an emergency certified teacher falls into a lower category
12 comparable to that of a beginning classroom aide.

13
14 Section 2: This could be monitored by the Kentucky Educational Professional Standards Board which
15 currently tracks the certification and qualifications of every teacher in the state. Currently the only state in
16 the United States to have a law that addresses this need is Utah, which passed in 2018.

17
18 Section 3: If military orders extend beyond five years, or if the service member decides to end their service
19 obligations, then the spouse would need to make plans to begin taking the required tests immediately to
20 obtain their Kentucky teaching certificate and be completely certified per state requirements within a year.
21 The cost of this would fall on the educator.

22
23 Section 4: There is no cost to implement this bill.

24
25 Section 5: This bill will go into effect August 1, 2022.

1 An Act Relating to Reducing the Amount of Nicotine in Vaping Products

2
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4
5 Section 1: A NEW SECTION OF KRS CHAPTER 138 IS CREATED TO READ AS FOLLOWS: People need to
6 reduce the use of nicotine inside vaping products.

7
8 Section 2: A vape pod is an electronic device where users can breathe in vapor through the mouthpiece. They
9 come in different flavors and scents to attract people of all ages. It can be very harmful to your body. It
10 makes you dizzy. Nicotine can also cause depression. Nicotine stimulates the release of the chemical
11 dopamine in the brain. Dopamine is involved in triggering positive feelings. It is often found to be low in
12 people with depression, who may then use cigarettes as a way of temporarily increasing their dopamine
13 supply. Nicotine is one of the products inside of the vape pods that gets people addicted to it. The amount
14 of nicotine should be limited and reduced to help people with a possible addiction to this overcome that
15 challenge.

Section 1: In Kentucky, feminine products are a “luxury item” meaning that under the law, feminine products are not reasonably necessary. These luxury items are outrageously expensive and not everyone can get their hands on them. We want to take this act away. We believe that anyone with a uterus should get these products for a cheaper price, as they did not choose to have their menstrual cycle.

Section 2: We want to create a law to have cheaper feminine products in stores and public restrooms. Almost every woman in this world has a menstrual cycle, feminine products, such as pads and tampons, are a necessity. Not even just women, transgender men still have to struggle with not affording pads and tampons because most of them can still have a uterus. In an average box, there are about 36 tampons and we use 4 of them every day for about a week. This comes around every month and each box of tampons costs about \$7.00. This would round to about \$1,773.33 for a lifetime and \$150-\$300 every year for just tampons, not including pads, which we also need. Some restrooms have products but they are about 50 cents for a single tampon/pad and very few restrooms have them. Many people cannot afford this and we all need to be sanitary and safe during our menstrual cycles.

Section 3: Scotland just recently was the first nation to make feminine products free. The law supplies access to free products in schools, universities and public places. This has helped so many people have a safe, affordable, and sanitary menstrual cycle. Although its hard for us to make them free, making them cheaper is a huge possibility.

Section 4: How will this bill be paid for? We will spread the news through social media such as youtube, tik tok, and Instagram to get planned parenthood’s attention. There will be links to fundraisers, and if we need to raise taxes by 5% to those not in poverty. Cops also get funded 3.8 million dollars a year. A lot of these funds go towards unreasonable military-grade weapons. We want to avoid this option as much as possible but even 5 percent of these police funds would help tremendously to go towards at making tampons cheaper. BILL WILL GO INTO ACT IN 2021

Section 1: Creating more programs to help children stuck in neglectful homes. Kentucky leads first in child neglect in the US with a record number of 10, 000 cases. It is difficult to prevent all cases of child abuse, but you can still aid children in need with charity and volunteer work. Collecting supplies and donations through school programs. These donations will be provided to any child in need. There will be more availability for staff so students can report any situations at home. Along with clothing and comfort there will be more accessible food drives for children in low income families. These programs will be non-profit and will be free for anyone to donate or volunteer.

Section 2: Provide more thorough welfare checks to identify more harmful environments. In the Kentucky government system, 0.6% of government funding is used on welfare and social services. Taking funds from overly funded programs will increase the amount of money spent on social services, allowing them to perform better during neglect or endangered welfare situations. Sections that will be taken from will be transportation and police funding specifically in areas with unneeded funding. This will bring the funding up for public assistance about 0.3%. There will be several more case workers fulfilling welfare checks and will have to be checked to make sure they are completing checks and identifying situations correctly.

Section 3: Provide more school psychologists and counselors. People at school to be able support children and help them in tough situations. These teachers and staff workers will help children realize all of the opportunities for help they have. For every 350 kids of 7-12 grade there is one counselor but only a small number of kids (1 out of 450 kids) actually use the counselors frequently. There will be more freedom given to staff members so they can easily confront and aid children who are suspected to be in danger. This will come in the form of rule changes such as ensuring confidence in teacher reports and shortening the decision-making process to retain the importance of the case.

Section 4: Create more programs to inform children about what it's really like for a child in an abusive situation. More lessons in the teaching curriculum to further improve the child's understanding of child abuse and neglect. Schools will be able to give small quizzes and reports of student understandings. This will show how effective these lessons and programs are and will allow further improvements from there. There will be repeating sessions from certified staff members to teach the effects of these situations. This will also allow student concerns for peers to be more open and well-thought out. It will also teach staff how to better listen in on the student reports and corrections.

Section 1: To support minority voters, a 2% tax will be placed upon all citizens of Kentucky. This tax will take 2% of every citizen’s yearly income. This 2% tax will take roots on January 1, 2022, so that we’re ready for the 2024 presidential election and any other elections that follow. This will provide poll sites for minority voters and everyone’s voice will be heard. With everyone’s voice getting heard, this will much more so enforce and add to America’s democracy subject and help with equaling the playing field for everyone in the state of Kentucky by providing everyone the ability to effectively vote and have their voice and opinion heard.

Section 2: It is proposed that Section 147 of the Constitution of Kentucky be amended to read as follows: Citizens of voting age will be sent and are requested to fill out a mail-in ballot and go through the process of voting and submitting said ballots to be verified and counted. Also, the minimum number of voting hours that workers are allowed to take leave to vote is 5. Bus fares and taxi costs will be lowered down to \$0 across the state of Kentucky on said voting day (no matter the year or voting purpose) in order to adequately transport voters to poll sites. Any statute contrary to this Act shall be amended or repealed. To add to the already existing voting laws in Kentucky we will be allowing more access to voting areas, especially in areas where minority voters reside. We also plan to make it easier for citizens to vote by allowing mail-in ballots to be mailed every year to citizens without an excuse being required.

Section 3: In order to figure out where these new polling sites are needed, a survey will be sent to every citizen aged 18 or older in the state of Kentucky. This survey will be sent by mail and by email once every two years. There will also be people who will go door to door and hand out the surveys. It will be asked that every citizen fills out and returns this survey. The survey will include the following questions: Do you usually vote? Yes or no If you answered no to the following question, why? Where do you live? Where is the nearest polling site located? Basic information (Age, name, etc.) The answers to these questions will provide information that is needed to determine where new polling sites are needed. New polling sites will be set up in schools, churches or other buildings in areas that do not have any nearby polling sites.

Section 4: The tax that is placed upon Kentuckians will account for the following: Salaries for ballot assisters The surveys sent out and received Payment for those who count the received surveys Renting poll sites and building set ups for voting cubicles, areas, etc. Paying government bus companies and taxi corporations to make up for any lost salary for Election Day

Section 5: This Act takes effect on January 1st, 2022 in time for that year’s state election as well as future presidential elections. The tax we collect from this time forward will pay for the poll sites that will be set up according to the survey results that are to be sent out immediately.

1 An Act relating to greenhouse gas emissions from gas powered public transit.

2
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4
5 Section 1: According to the U.S Energy Administration (EIA), “The United States used about 392 million
6 gallons of finished motor gasoline per day in 2018. Most consumers use gasoline in cars, light trucks, and
7 motorcycles, but they also use it in small aircraft, boats and other watercraft, and landscaping and
8 construction equipment. (“Gasoline Explained”) There are millions of greenhouse gasses going into the air
9 due to these public transits. If our country is going to have any environmental improvement, this needs to
10 change.

11
12 Section 2: Public transit emits a surplus amount of greenhouse gases/carbon dioxide into the atmosphere
13 (this severely damages the ozone layer). Electric versions of these do not emit any gases, and improve the
14 ozone layer drastically. Public transit is more environmentally friendly for communities, and if it is carbon
15 neutral, it will truly aid the world and state of Kentucky.

16
17 Section 3: A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS.

18
19 (1) All public transit in Kentucky shall become carbon neutral by the year 2024.

20
21 (2) A tax of 2% income will be imposed on those that use gas powered public transit by the year
22 2023 (and a 5% income tax for those that own the transit).This bill will enforce the use of electric
23 powered public transportation vehicles.

24
25 Section 4: The higher tax from the government will aid the cost of the carbon neutral transportation
26 mechanisms and will encourage “zero emission” transport for communities

27
28 Section 5: Any statute contrary to this Act shall be amended or repealed

Section 1: We are creating this law due to recent safety concerns in our state. After the recent shooting of Breonna Taylor the public has become more and more wary of the police. This act is to regain trust in the police system. It will help prove when in court who is guilty, if any offending officer has nothing to hide then this transition to institute body cameras will be no hassle at all

Section 2: In section 95.015 rights and duties of police officers in the kentucky state laws, we propose a new law to be added. We propose an enactment to force all members of the police, while on duty, to wear a body camera while partaking in law enforcement of any kind. This body camera must be on and filming at all times. Under no circumstances may it be turned off while at any crime scene.

Section 3: Any violation of this law will result in a minimum of \$200 dollars and a maximum of 10 years and a 10,000 dollar fine. Other punishments may include community service hours or dismissal. An example of a minimum fine would be a minor bar fight where no major harm was inflicted upon any individual and the police officer simply did not have their camera recording. An example of a maximum fine is when you are found directly responsible for the death of at least one person and you did not have your camera recording.

Section 4: This bill will not require extra funding.

Section 5: This bill will go into effect a week after this bill is passed

Section 6: All police officers are required to wear a body camera while on the clock. Any statute contrary to this act shall be reprimanded or repealed.

1 An act relating to working towards a more organized and certified law informant over the foster care
2 system!

3
4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5
6 Section 1: This bill mandates that the state will provide the foster care system with qualified employees to
7 appoint responsible and qualified individuals for Fostering children. Some of the qualifications include: every
8 individual(s) being mentally and economically stable, to be able to provide a safe environment for the
9 child/children, and not have a past record.

10
11 Section 2: This bill needs to be abided by all occupants of the state of Kentucky.

12
13 Section 3: Each individual living in the household that the child will be staying in will be required to have a
14 background check. This background check will include: talking to their pre- existing children, their other
15 family members, neighbors, and of course checking their health, record, credit, and mental state. Not only will
16 there be background checks for the families, but also for the social workers! If we have more certified and
17 qualified workers, it will make the foster care system 10x easier.

18
19 Section 4: The money funding Foster care systems in Kentucky is provided by the Federal government. There
20 are two types of Foster care systems, which are both being funded by two different organizations.
21 "Privatized Foster Care is funded by a 3rd party private agency" Privatized Foster Care systems risk not
22 having that money to pay from that 3rd party agency. We would need to make sure to have that money to
23 pay for the Foster care system. This will include taking a portion of tax from regular taxes along with taking
24 a small grant of money from diapers and other necessities that children need in order to give more money for
25 foster care systems.

26
27 Section 5: Once a week each foster child should be checked in on *unless already adopted* (by their CPS
28 worker). Connection with family, feeling safe, and background checks will be taken into consideration along
29 with any other information proven helpful. If a child is struggling in their new home, actions will be made to
30 ensure that the child will be in a safe, fitting family. (ie. re-training parents and anything else agreed on)

31
32 Section 6: This bill will go into effect the first of January, 2021 and proceed to be carried out until voted out
33 by the federal government in the state of Kentucky.

1 An act to make Alternative Education Programs to be more community inclusive for grades K-12

2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: In an effort to adapt learning to be more accessible/inclusive for students with learning disabilities

6 and give them the tools they need for academic success, a new initiative will be undertaken by the Kentucky

7 Department of Education.

8

9 Section 2: With this program students get the personalized education that they need to fully understand

10 something. Whether they want to learn a sport, a hobby (music, dance, etc.), or an academic study, Our plan

11 is to get them a student who excels in that area, to help and support them.

12

13 Section 3: This program is no cost. It would not cost anything to run. Students would have the opportunity

14 to learn after school and before school if they so choose. 1.2 million students drop out of highschool a year.

15

16 Section 4: When doing this to adapt learning for those who need some extra help, there would be a program

17 that students help challenged students, so that all of K-12 students can be successful. When the students

18 are helping the other challenged students learn they would also be practicing that skill, in which case they

Governor's Bill Signing Announcement

After meeting with the Sponsors of all Commonwealth Bills that passed the House & Senate, as well as consulting with the Cabinet and the Budget Committee, the Governor will announce (after Fun Time on second night) which Commonwealth Bills are being signed into law.

If your bill passed the House and Senate but was not announced, then has been vetoed by the Governor (Note: there are NO vetoes at MS KYA – all Commonwealth Bills passed by the House and Senate are signed into law). A full list of vetoes will be posted by the Y-Desk. Bill Sponsors wishing to challenge a veto can sign-up for the Veto Override Session at the Y-Desk.

Day 3 | Morning

Veto Override Session | HS KYA Only

At HS KYA, prior to the start of Closing Ceremony, any Bill Sponsors who wish to challenge the Governor's veto will be given the opportunity to do so during the Veto Override Session.

Bills on the Override Session docket required a 2/3-majority vote of the Assembly to be heard. If the vote is successful, the Governor and Bill Sponsors each get 1 min. to speak. Bill Sponsors can yield part of their time to Lobbyists, and the Governor can yield to a Cabinet Member or the Attorney General. A final simple majority vote is required to override the veto and enact the bill into law.

1 An Act Relating To Food Deserts In The Commonwealth Of Kentucky.

2
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4
5 Section 1: A food desert is defined as a geographic area where access to affordable, healthy food options,
6 such as fruits and vegetables, is limited or nonexistent, because grocery stores are not within close
7 proximity. They are most commonly located in low-income areas, as well as rural areas. This is due to the
8 fact that this specific population has such a long distance to travel to the nearest store.

9
10 Section 2: This law will give a one time 15 percent tax credit to certified stores that open in areas
11 considered as food deserts. Stores would be able to apply to receive tax credits to open in a food desert.
12 This would ensure that those of any class or zip code have access to nutritionally adequate foods.

13
14 Section 3: Food deserts are most commonly located in low-income areas, as well as rural areas. This is due
15 to the fact that this specific population has such a long distance to travel to the nearest store. With limited
16 options within a mile radius of most homes many turn to unhealthy foods that are close at hand. This little
17 access to nutritious foods is also related to higher rates of illnesses and shorter life spans, along with
18 obesity, which is one of the largest rising health issues. Other contributing factors to this problem are
19 inactive lifestyles and diets.

20
21 Section 4: This law will be enacted by January 1, 2021

1 An act to require all schools to hand out hygiene products to less fortunate students

2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: Children with poor hygiene become social outcasts, which affects their self-esteem, grades, and
6 their desire to even come to school. In 2012 West Plains Elementary School started handing out hygiene
7 bags and is seeing a 5% attendance increase.

8

9 Section 2: This bill would require all schools to hand out hygiene bags every 9 weeks to less fortunate kids.
10 Different bags would be handed out to different ages and genders. For children 5th grade and up the bag
11 would include deodorant, shampoo, conditioner, a toothbrush, toothpaste, bar soap, a hairbrush, and
12 feminine products if needed.

13

14 Section 3: This law will be enforced by The Kentucky Department of Education.

15

16 Section 4: This bill will cost 80-120 dollars per student per year depending on age and gender. The funding
17 will come from donations and government funding.

18

19 Section 5: First offense is \$100, each 9 weeks this bill is not implemented is an additional \$75.

20

21 Section 6: This bill will go into effect the start of the 2022-2023 school year.

1 An act to require all pregnant women 12 weeks of paid maternity leave.

2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: Each pregnant woman in Kentucky currently gets 6 weeks of paid maternity leave, and we believe

6 it should be more.

7

8 Section 2: New mothers need more time with their newborns. We propose that each woman get 12 weeks

9 maternity leave with pay.

10

11 Section 3: According to lawlabor.com, women are protected by the Pregnancy Discrimination law and the

12 Family Medical Leave law. Basically, these laws state that a woman cannot get fired or deducted pay simply

13 because she is pregnant. Our law would be that women get 12 weeks of paid maternity leave so that she has

14 more time to bond with the newborn without financial stress.

15

16 Section 4: This law would be effective January 1st, 2021.

17

18 Section 5: It would be around \$4,200 for 12 weeks per woman, depending on their weekly salary. (this is

19 based on a \$50,000 yearly income, but rates may vary). The punishment for not obeying this law would be

20 the employer would have to pay the woman what they owe them, and then pay the Commonwealth of

21 Kentucky the same amount.

22

23 Section 6: Other states that have implemented this law are California, Rhode Island, and New Jersey. This

24 has been successful, and nothing has gone wrong with this act in these states. This will help new mothers

25 with the stress of financing.

26

27 Section 7: Imagine if your mother could not afford to take care of you as a baby or have enough time to

28 bond with you. This bill will ensure that this will never happen.

Section 1: Life skills training class Begins 6th grade, as they gradually make their way through the systems, the courses will differ. Some examples of the classes they will take financial classes like learning how to pay a payment or bill, how to write, they will learn how leases work how to buy and sell a home or car and how to manage money, We will also teach cooking classes so that students can easily make meals for themselves as they age and we will teach cpr courses.

Section 2: Lgbtq+/Sex education and physical classes Must be inclusive of the LGBTQ+ youth community during sex education and physical education classes, making it mandatory for all students to take a physical education class and or sex education. We will make school and PE and SE classes more inclusive and safer for LGBTQ+ people to open up or anyone for that matter. We want to strive and make it more mandatory for more students to participate in these classes.

Section 3: More mental health advocacy Doing mandatory screenings for all types of mental disorders and providing counseling for those who struggle with mental health. We will make students feel as if they are in a safer environment making it easier for them to open up about home problems, mental issues, or school struggles.

Section 4: Changing up homework and school hours So we will essentially change the school start time from about 8:05 to 9:45 or 10ish. This allows students to go to bed at a somewhat later hour, and be able to wake up later essentially allowing them to get more sleep. We will also work to minimize or eliminate homework given to students. Clearly if a student does not manage their class time wisely then they will have to go home and complete their assignment. Yes it will be hard to completely eliminate homework however we would like to make it to where you cannot send students home with a large homework assignment.

Section 1: This bill will eliminate Lignite, or brown coal, mining in Kentucky. The ban of brown coal strip mining will help Kentucky environmentally because forests on mountains won't be destroyed.

Section 2: The practice of strip mining destroys landscapes, forests, and wildlife habitats. All of the loose soil that is washed away after rain and erosion will end up in rivers, polluting the water for anyone who drinks it. The mountaintop removal in strip mining affects the water quality tremendously and clean water is a requirement for everyone.

Section 3: The prices of renewable sources are decreasing, this will result in non-renewable sources no longer being relevant to use.

Section 4: This bill would eliminate strip mining for brown coal and will be enacted in January of 2023.

Section 1: The current law in Kentucky states that A number of federal and state laws and regulations involve health care, such as Medicare, and Medicaid, the privacy rights of patients, the legality of physician-assisted suicide, the right to choose your own end-of-life care, and more.

Section 2: There is no additional cost to enforce this bill. This bill will be implemented by the Louisville Metro public health department, which is already existing, therefore it will come at no cost, with an exception to the already existing salary medical staff. The salary is paid by taxes and can range from \$30,000 to \$60,000 each year per medical assistant, depending on their jobs

Section 3: In Kentucky, there must be a law to remove the chargemaster, and have fair and set prices for medical equipment (tools, exams, etc). There should also be a law to tax high income people, and put more into providing effective and reasonable healthcare, and hospital bills and healthcare should be free for people below average income (\$48,000).

Section 4: This bill will help citizens of the United States of America. In many ways this includes preventing citizens from going bankrupt. As stated by the Washington post over 500,000 people go bankrupt every year because they cannot pay their outrageous medical bills. If this bill turns out to be law we estimate that it will help most of the low-income residents

Section 5: This bill will take place at the end of January 2022

1 An Act Relating To Security of Jobs to those with Lower Socio-Economic Status.

2
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4
5 Section 1: The COVID Crisis has exposed an issue with our employment systems that are currently in place.
6 44% of the labor force earns low wages. This puts millions at risk of unemployment when the economy is in
7 crisis given they are the first to be laid-off. With additional training and education, low-skilled workers could
8 increase their chances of moderate-income level jobs with stability.

9
10 Section 2: This bill proposes a program adopted by the Commonwealth that would provide education and
11 skills training that would allow workers options when they become unemployed.

12
13 Section 3: Private businesses, with incentives, and the Commonwealth would structure the program similar
14 to the pay-in of unemployment. The tiered system would provide training that would boost job opportunities
15 and then job security. The Commonwealth would use the current amount budgeted for unemployment while
16 restructuring the tiers and use additional amounts that would come from private businesses.

17
18 Section 4: Tax incentives would be given to private businesses in order to incentivize participation. This bill
19 would restructure the unemployment system indefinitely in the Commonwealth of KY.

1 An act to require all Drug Rehabilitation centers in the state
2 of Kentucky to provide Buprenorphine Naloxone (Suboxone) treatment

3
4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5
6 Section 1: 23.4 out of 100,000 people in Kentucky overdosed on opioids in 2018. With this being one of
7 the biggest problems in the state, there needs to be a solution. Which brings us to what we want to
8 accomplish with our bill. Our bill will require all drug rehabilitation centers to provide Buprenorphine
9 Suboxone treatment to opioid addicts willing to receive the treatment.

10
11 Section 2: Considering only 9 out of 227 drug rehabilitation centers in Kentucky provide this service, it is
12 very limited and hard to get. If this treatment is more accessible it will provide an easier way to get more
13 successful treatment to opioid addicts looking to have a better quality of life. This will decrease the relapse
14 rate and give them a greater chance of a full recovery.

15
16 Section 3: With a yearly rate of 10,000 opioid addicts who check in to drug rehabilitation centers in
17 Kentucky and 14 doses required for recovery, this will cost approximately \$700,000 a year. This act will be
18 funded by the Kentucky Opioid Response Effort (KORE). This will be easily funded because as of September
19 2020 (KORE) received a grant for \$35.4 million dollars to make an effort to decrease the overdose rate on
20 opioids each year.

21
22 Section 4: With the money from the Kentucky Opioid Response Effort we will be able to get with Suboxone
23 the company and buy large amounts of Buprenorphine Naloxone directly from Suboxone themselves. After
24 we collect the Suboxone we will distribute it monthly to all of the drug rehabilitation centers across the
25 state. Considering this will be at no cost to the individual facilities, there will be no reason for them to not
26 provide this service. So there will be no need for a punishment

27
28 Section 5: This bill will go into effect January 1st, 2022.

1 An act to require all students have someone to sit with at lunch

2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: My bill would prevent loneliness by allowing one student to be paired with another to sit together

6 during lunch. This will help with those who are very shy or sit by themselves at lunch to make new friends.

7

8 Section 2: About one in every ten kids at school are lonely. This bill will hopefully help decrease that number

9 to zero out of ten kids. Many of you have most likely seen at least one person at your school eating lunch by

10 themselves, this bill is going to change that.

11

12 Section 3: Many students who are lonely tend to be depressed which could lead to suicide. This makes

13 loneliness a very serious matter. This bill will hopefully decline the number of deaths of students due to

14 suicide. It will also help with building friendships with other students.

15

16 Section 4: This bill will be required in all schools in Kentucky. If a school were to refuse to follow through with

17 this bill they would be fined \$50 and an inspector would come one day and make sure they implemented this

18 bill after the warning. If the school continues to not implement this bill they would be fined another \$50 and

19 the inspector would come again to make sure they enforce this bill. This will continue until the school

20 enforces the bill.

21

22 Section 5: When enforcing this bill teachers will pair each student with another and then two students will sit

23 together if they choose to. If they decided to sit together if one person wants to invite others then they may.

24 The two students don't have to just sit with each other they can sit with others if they choose to. If one

25 student decides they don't want to sit with the other and the other student usually sits by themselves then

26 they will be repartnered and if the same happens the scenario repeats.

27

28 Section 6: This bill will go into effect January 1, 2021
