The General Assembly,

Recognizing that forest fires have seen a significant increase in Australia over the past 30 years due to climate change, and in 2019 and 2020 alone 28.4 million acres of land were burned in Australia due to forest fires,

1. Calls upon the UN to come together and share ideas and research on how to prevent forest fires and relief areas where they have occurred. We encourage participation from other nations to ensure all perspectives of this issue are heard and all possible solutions are discussed thoroughly;
2. Encourages participation from scientists, affected citizens, and world leaders in a select committee to discuss the issues facing them and provide resources for relief through the congregation of a committee for relief and prevention of forest fires. This resolution will not only assist Australia in its efforts to prevent forest fires, but it will also give the global community resources and assistance from other countries to fight fires in their home country.

37
38
39

The General Assembly,

Deeply concerned with the mistreatment and disregard for the stability of rainforests across the globe, as they are abundant with resources that benefit many global industries, seeing that 8 million hectares (31,000 square miles) of rainforests are being cut down each year across the globe.

Convinced that rainforests are essential to the health and safety of our planet, seeing as the rainforest plays a central role in constraining the effects of climate change by absorbing carbon. Amazon alone has absorbed 1.7 billion metric tons of CO₂ a year which is the equivalent of 1,692,000 homes.

Convinced that rainforests are essential for Earth's ecosystem, seeing as the Amazon rainforest alone is home to around 40,000 plant species, nearly 1,300 bird species, 3,000 types of fish, 427 species of mammals, and 2.5 million different insects.

Convinced that rainforests are essential for cultural heritage, seeing as multiple indigenous peoples such as the Mbuti in Central Africa and the Chimbu in New Guinea call the rainforest home and 50 million worldwide people depend on the rainforest for their food and shelter.

Convinced that rainforest are essential for the wellbeing of the human race, seeing as the United States' National Cancer Center Institute examined 3000 plants and 70% have the possibility to hold anti-cancer properties and about 120 prescription drugs including aspirin already have come from rainforests.

Bearing in mind the advisory opinion of the Secretary General of August 8, 2021, on the issue of deforestation, saying, "The alarm bells are deafening, and the evidence is irrefutable: deforestation is choking our planet and putting billions of people at immediate risk."

Keeping in mind that 53 countries across the world have tropical rainforests within their borders and even more have temperate rainforests.

1. Calls upon the United Nations Forum on Forests to commence negotiations for a treaty to put a restriction on the percent of vegetation that can be deforested per plot of land in the rainforest.
2. Recommends the aforementioned treaty require landowners in rainforests to maintain 65% of the rainforest on their property.
3. Further recommends that the aforementioned treaty not be retroactive and only apply to future rainforest landowners and landowners that have cut down no more than 35% of their land.

1 Convention on the Total Eradication of Muslim Reeducation Camps in the People's Republic of China
2
3 The General Assembly,
4
5 Deeply concerned with the cruel treatment inside the Muslim Reeducation Camps (informally known as labor
6 camps),
7
8 Further reminds that the Chinese government has silenced most media or conversation over the reeducation
9 camps,
10
11 Emphasizes that any violation of the Declaration of Human Rights would result in other governments
12 prosecuting those responsible for such violations.
13
14 1. Requests upon the United Nations to absolutely and totally eradicate all "vocational education and
15 training centers" (i.e. Muslim reeducation camps) in the People's Republic of China.
16
17 2. Urges the implementation of this decision to occur the day after ratification in all countries that
18 fall under the authority of the United Nations.
19
20 3. Further recommends that the actions taken in condemning of these camps will take place as
21 quickly, humanely, and safely as possible.

1 Creation of a Committee for the Relief From the Effects of Poverty
2
3 The General Assembly,
4
5 Alarmed by the statistic that 10% of the world lives in extreme poverty,
6
7 Deeply concerned for the health and well being of global citizens living in extreme poverty,
8
9 Recalling the United Nations sustainable development goal for ending poverty,
10
11 1. Calls upon the United Nations General Assembly to form a Committee for the Relief from the
12 Effects of Poverty (CREP)
13
14 2. Expects the council to be comprised of qualified experts, human rights activists, and driven
15 volunteers from around the world,
16
17 3. Further proclaims that the council will allocate funds and resources as necessary to nations who
18 apply for assistance through the council, specifically focused on alleviating the effects of poverty in
19 developing nations such as hunger, thirst, and homelessness,
20
21 4. Encourages the council to assign a member of the council to follow through the poverty relief
22 process with each country following approval of their application to ensure the proper use of
23 resources,
24
25 5. Asking that \$10 million a year be allocated from the United Nations general fund to the CREP,
26
27 6. Expecting that member nations will donate back to the council when monetary resources are
28 available.

An Act to Open Flights to Cuba for Commerce and Travel

The General Assembly,

Fully conscious that Cuba’s economy is undeveloped with a GDP per capita of 6,630.00 USD as of 2022, approximately 21,120.00 USD less than the poverty line for an American family,

Alarmed by the amounts fleeing citizens of Cuba having hostile and dangerous encounters when attempting to leave the country in hopes of economic opportunity resulting in human trafficking, rape, murder, and theft,

Aware of the many changes in United States-Cuban relations during the John F. Kennedy, Obama, Trump, and Biden administrations, As Cuba, we ask the United Nations to open up flight and trade for our nation,

1. Open flights to and from the United States. Cuba has 10 international airports, therefore, no additional funding from the United Nations will be required. Rather, costs such as fuel, maintenance, and staff will be covered by consumers purchasing their services. Any registered airline in the United States that volunteers to lead travel flights to Cuba will be granted access from the United Nations.

2. Commercial supplies and/or products to be flown and shipped based on demand. Any product purchased remotely by consumers in Cuba will be flown out as long as shipping is covered.

3. This resolution is to go into effect January 1st, 2023.

Convention on the Prohibition of Nuclear Weapons

1
2
3 The General Assembly,
4
5 Conscious that nuclear weapons pose a serious physical threat to the safety of North Koreans,
6
7 Viewing with appreciation the Treaty On The Prohibition Of Nuclear Weapons which banned the
8 development, testing, production, manufacturing, otherwise acquiring, possession, or stockpiling of nuclear
9 weapons or other nuclear explosive devices,
10
11 Deeply Disturbed by the knowledge that even after the adoption of the Treaty On The Prohibition Of Nuclear
12 Weapons some countries still possess, test, and manufacture nuclear weapons,
13
14 Deeply convinced that multiple countries are currently planning nuclear attacks on North Korea,
15
16 Alarmed by the conduction of dangerous military exercises taking place near North Korea by the United
17 States and other countries,
18
19 Having considered the dangers of conducting nuclear weapon exercises near the nation of North Korea,
20
21 Bearing in mind the United Nations' goals of preventing conflict,
22
23 Emphasizing the UN's ability and responsibility to protect countries that do not have the means to do so
24 themselves against aggressors,
25
26 1. Calls upon the UN Conference on Disarmament to condemn all military exercises involving the use
27 of nuclear weapons taking place near North Korea.
28
29 2. Trusts that the UN will accept its obligation of preventing and protecting North Korea against any
30 and all exertions of force, nuclear or non-nuclear.
31
32 3. Strongly urges the complete nuclear disarmament of the United States of America, Russia, France,
33 United Kingdom, Pakistan, India, and Israel.

1 A Resolution to Reduce Foreign Threats to Our Constituent Country of Greenland
2
3 The General Assembly,
4
5 Alarmed by the aggressive interest of countries such as China, the United States of America, and Russia
6 towards the Kingdom of Denmark’s constituent country of Greenland,
7
8 Convinced that the Russian military buildup in the Arctic Ocean poses a threat to Greenland’s sovereignty as
9 a constituent country, as Russia possesses 2 military bases in the Arctic region,
10
11 Deeply concerned that China bought 12.5% of Greenland Minerals Energy’s shares and established a mining
12 firm in an area with an estimated 270,000 tons of uranium in Greenland, leading to European Union
13 dependence on China’s control of the rare element in Greenland for the EU’s defense industry. Additionally,
14 China’s mining efforts serve as a detriment to the Greenlandic environment and global climate change as a
15 whole,
16
17 Conscious of the fact that China invested 2 billion dollars in transactions pertaining to Greenland between
18 2012 and 2017, pertaining to mining and shipping,
19
20 Cognizant of the fact that the United States has expressed explicit interest in buying Greenland in 1867,
21 1910, 1946, and 2019, and currently operates an Air Force base in Thule, Greenland,
22
23 1. Requests that the UN Security Council discuss the potential conflict in Greenland and establish
24 preventative measures;
25
26 2. Calls upon the United Nations to reestablish the fact that Greenland is a constituent country of
27 the Kingdom of Denmark, and will remain as such, to the global community;
28
29 3. Encourages the use of boycotts by United Nations member countries against Chinese uranium
30 exports until the deposits of Greenlandic uranium are back in Greenland Mineral Energy’s control;
31
32 4. In recognition of the UNCLOS, we ask that foreign countries refrain from military activity within
33 Greenland’s established sea territory and prevent behavior that could be deemed aggressive in these
34 waters;

1 An Act to Combat Corruption within Certain Non-Governmental Organizations (NGO)

2
3 The General Assembly,

4
5 Having examined that the numerous active non-governmental organizations within Dominican Republic ultimately hurt the
6 local economies of the countries they claim to be helping, effectively posing a threat to the sovereignty of the nation,

7
8 Fully aware that some non-governmental organizations may inhibit the advancement of developing countries' economies by
9 driving local industries out of business due to the flood of outside resources,

10
11 Deeply concerned that certain non-governmental organizations are fostering citizens' reliance upon outside organizations for
12 their resources and alarmed that the steadfast reliance upon them that is rapidly growing within Dominican Republic and other
13 developing countries,

14
15 Considering the fact that some non-governmental organizations may have deceived the general public into believing that their
16 mission is solely to provide aid, when in reality their aid can be detrimental,

17
18 Calling upon the pre-existing Economic and Financial Committee of the United Nations to determine the countries eligible for
19 this initiative;

20
21 1. Urges that after two years of this resolution being in effect, each non-governmental organization in eligible
22 countries must source 10% of their aid locally (aid locally would be defined as resources purchased within the
23 borders of the nation from citizens or inhabitants of the nation);

24
25 2. Urges that after four years after the passage of this resolution, each non-governmental organization in eligible
26 countries must have 25% of their aid locally sourced;

27
28 3. Urges that six years after the passage of this resolution, each non-governmental organization in eligible countries
29 must have 45% of their aid locally sourced;

30
31 4. Urges that eight years after the passage of this resolution, each non-governmental organization in eligible
32 countries must have 60% of their aid locally sourced;

33
34 5. Urges that ten years after the passage of this resolution, each non-governmental organization in eligible countries
35 must have 75% of their aid locally sourced;

36
37 6. Requests that at the ten year mark, it will be re-evaluated to see whether the non-governmental organizations
38 need to continue to increase the locally sourced aid or start the removal of non-governmental organizations in the
39 countries;

40
41 7. Affirms that this resolution will be enacted on May 1, 2022 when passed.

Improving the State of Water Quality in Third World Countries

1
2
3
4
5
6
7
8
9
10
11
12
13
14
15
16
17
18

The General Assembly,

Recalling that 95% of Guatemala’s water is contaminated to ingest, this bill will regulate contents of point sources of high pollution of water sources in Guatemala and designate each body of water with a specific purpose and regulation criterion.

Seeking that a water purification system will be established which will use reverse osmosis so that there is more clean, safe drinking water available. Authorizes the system of water purification into Guatemala and other countries whose water quality does not meet the UN standards.

1. Requests that the UN enact the water purification system into third world countries that do not meet the qualification standards. In January 2023, 11 months prior to the peak of annual tourism in Guatemala (dry season). There is one thing no human being can survive without, water. Lack of water is not only a health issue but a human rights issue. Contaminated water leads to extreme poverty and multiple different diseases. Allowing clean water is the least we can do for those in third world countries, as it’s a basic necessity to life.

 <p>KENTUCKY YMCA YOUTH ASSOCIATION KENTUCKY UNITED NATIONS ASSEMBLY United Nations Resolution</p>	Resolution # 12

1 Reducing the Effects of Soil Erosion on the Environment

2
3 The General Assembly,

4
5 Deeply concerned by the effects of soil erosion in Iceland because it can greatly damage the environment and contribute
6 to poor vegetation.

7
8 Convinced that Iceland is in trouble due to it already having a limited land surface with vegetation. The landscape of
9 Iceland has less than 50% of land surface covered by vegetation.

10
11 Recognizing that a study conducted in 2000 found that due to recent afforestation efforts, Iceland’s C-sequestration
12 totaled 4.7% up from 2.9% just five years earlier. This is necessary for sequestering excess CO2 that has entered the
13 atmosphere following the erosion of carbon-rich soils.

14
15 Bearing in mind that it takes up to one thousand years to make 2-3 centimeters of soil while it only takes 5 seconds to
16 erode a piece of land equivalent to the size of a soccer pitch.

17
18 Taking note that one of the effects of soil erosion on soil organic carbon is that atmospheric carbon was released over
19 approximately 1000 years of soil disturbance is equivalent to that of up to 320 years of current anthropogenic
20 emissions.

21
22 Having adopted practices such as one in 2000 when the government of Iceland and sheep farmers came to a subsidy
23 agreement provided that certain criteria were met by farmers, such as no grazing in areas defined as highly erodible.

24
25 Taking note that volcanic activity that occurs beneath Iceland’s large glaciers can also have profound effects on social
26 stability due to water erosion from severe flooding. Environmental factors such as this have caused scientists to look
27 into long-term solutions.

- 28
29 1. Calls upon the government of Iceland to plant more trees in order to reduce the effects of the wind on the
30 soil of farmlands. This will also benefit the environment due to the increased oxygen produced by the trees.
31
32 2. Recommends a requirement of a certain type of cover crop in order to keep the soil in a strong and stable
33 condition. Some examples of cover crops include rye, clovers, and buckwheat.
34
35 3. Requests farmers to be given government-provided windbreaks in order to maintain the soil in a healthy way
36 if trees are not a sustainable way to prevent this in the current climate of Iceland.

1 Ensuring Global Cooperation Towards the Reduction of Human Trafficking

2
3 The General Assembly,

4
5 Deeply concerned that the Indian government does not meet the minimum standards in several key areas for the
6 elimination of human trafficking As of 2021 India is tier 2 in the human trafficking spectrum that affects 20 to 65
7 million Indians.

8
9 Having examined the United Nations Tier Classification for Global SDG Indicators,

10
11 Noting that Tier 1 countries are those with internationally established procedures and that regularly produce data, Tier
12 2 countries are those which have established procedures but do not regularly produce data, and Tier 3 countries are
13 those which either do not have any established procedures or are currently developing those procedures,

14
15 Conscious of the United Nations Global Plan of Action to Combat Trafficking in Persons, which urges governments to
16 take well thought out and consistent measures to try and eliminate human trafficking,

17
18 Emphasizing that under article four of the Universal Declaration of Human Rights, it states that "No one shall be held in
19 slavery or servitude; slavery and servitude shall be prohibited in all their forms,"

20
21 Recalling that in resolution 73/146, the sponsors called upon all world governments to criminalize all forms of human
22 trafficking,

- 23
- 24 1. Affirms the previous call for all governments to criminalize all forms of human trafficking;
- 25
- 26 2. Calls upon all governments to meet the established minimum standards put into place globally;
- 27
- 28 3. Recommends that all governments with existing consequences for traffickers increase the severity of those
- 29 consequences;
- 30
- 31 4. Expresses its appreciation to all countries who have achieved Tier 1 status according to the Tier
- 32 Classification;
- 33
- 34 5. Expresses its hope that all countries not yet classified as Tier 1 will make significant efforts to attain Tier 1
- 35 status and/or demonstrate improvement.
- 36
- 37 6. To aid in building capacity, we will work through UNESCO (The United Nations Educational, Scientific, Cultural
- 38 Organization) to promote public safety in regards to human trafficking.

- 1 A Convention to Reform Educational Curriculums and Establish a Conflict Resolution Among Ethnic Groups in
2 Schools.
3
4 The General Assembly,
5
6 Regarding the deep-rooted conflict between Israelis and Palestinians and how they mirror other conflicts
7 around the world. The Israelis and Palestinians are in such a dispute because of each group’s historical and
8 religious claims to the same land.
9
10 Proposes that the United Nations sponsors and supports the integration of schools and the removal of the
11 barrier that exists and stimulates the conflict between Israelis and Palestinians
12
13 Determined to establish peace among the Israelis and the Palestinians, along with other various ethnic
14 groups around the world,
15
16 1. Calls upon the United Nations to promote the establishment of educational facilities that harbor
17 students from both ethnic backgrounds
18
19 2. Calls upon the United Nations to establish and support a curriculum that embodies the conflict
20 resolution skills required to establish said peace among various ethnic groups Proposes that this
21 school integration is not mandatory, but is offered to both groups equally. Existing schools within
22 the conflict zone will be offered additional funding per child if they elect to implement the inclusion of
23 students from both ethnic backgrounds along with the conflict resolution curriculum. Further
24 proposes that this model of integration will be globally expanded and funded through UNICEF and
25 MoEHE to other zones where ethnic conflict is present.

25
26
27

The General Assembly,

Deeply concerned by the prevalence of crime in even the most developed cities in the country,

Concerned that the homicide rate in Jamaica is the third highest in the world despite being advertised as one of the most idealized vacation destinations,

Recalling that the average population density of Kingston, Jamaica exceeds three-thousand people per square kilometer, while minimum wage remains unsustaining as yearly income remains below five-thousand U.S. dollars,

Noting further that crime remains more prevalent in mostly unpoliced areas due to the waning national law enforcement with a ratio of about less than five hundred police officers per every one-hundred-thousand civilians,

Recognizing the paramount presence of the drug trade and gangs within larger cities in Jamaica despite the lack of drug usage by civilians,

Convinced that the extreme levels of crime stem from unsustainable wages and a poor welfare system,

1. Urges the UN to provide funding towards a sustainable welfare system capable of drastically reducing the poverty in Jamaica’s largest urban centers;
2. Calls upon the UN to provide funding towards a larger Jamaican police force able to deal with Jamaican urban crime.

Convention on the Continued Power and Global Reliance on Chinese Industry

The General Assembly,

Convinced of the fact that the global community's reliance on Chinese industry is a threat to basic principles of freedom, worker's rights, among other things, and poses a grave threat to the world in the form of carbon emissions,

Deeply concerned with the continued abuses of power of the Chinese government upon its people,

Deeply concerned also with the working conditions to be found in Chinese industry, and the low wages the workers earn, which increases the risk of severe poverty,

Alarmed by the fact that the People's Republic of China is in violation of numerous articles of the Declaration of Human Rights, but most specifically to this resolution, Articles 23 and 24,

Recalling the rights of workers to a decent wage, days off work, and to choose where to live and where to spend their days off as outlined in the Domestic Workers Convention,

Conscious of attempts made by numerous countries, mostly notably the United States of America, to curb the spread of outsourcing to the People's Republic of China,

Determined to achieve a convention on inhumane Chinese labor practices and the effect on climate change the growing Chinese industry has,

1. Calls upon the International Labor Organization (ILO) to launch an investigation into Chinese factory working conditions;
2. Trusts that the ILO will report the full findings of the investigation to the General Assembly;
3. Urges the global community to sanction China appropriately based on the findings of the investigation;
4. Recommends that the nations of the world come together to halt the outsourcing of factories and jobs to the People's Republic of China;
5. Further recommends the nations of the world continue to adhere to the climate goals set out in the Paris Climate Accord.

The Eradication of Trafficking in Persons

1
2
3 The General Assembly,
4
5 Convinced that human trafficking poses a serious threat to many countries, including the Maldives,
6
7 Referring to resolution 11/3 trafficking in persons violates human rights and impairs the enjoyment of them,
8
9 Reaffirming the UN Declaration of Human Rights Article 4, No one shall be held in slavery or servitude;
10 slavery and the slave trade shall be prohibited in all their forms,
11
12 Conscious of the United States’ Trafficking Victim Protection Acts definition of Tier 1, Tier 2, and Tier 3,
13
14 Recalling the Office of the High Commissioner protocol of resolution 55/25, Article 3 section C states, any
15 means for the purpose of exploitation will be considered “trafficking in persons”,
16
17 1. Requires Tier 2 and 3 countries to make significant efforts to enact recommendations outlined in
18 the Trafficking In Persons Report
19
20 2. Calls upon the UN to investigate all Tier 2 and 3 countries regarding their efforts within a year
21 after this is enacted
22
23 3. Requests a report on the investigations of Tier 2 and Tier 3 countries to the United Nations’
24 Human Rights Council, which will determine further course of action.

An Act to Resolve the Current Prison Crisis in Mexico and the World

The General Assembly,

Deeply concerned that the healthcare in prison systems across the world is reaching crisis levels far below the threshold of which would be considered acceptable for normal citizens.

Alarmed by the overpopulation rate in Mexico and around the world, with Mexico's prison system being at 102 percent capacity, and Haiti leading the world, at 454.4 percent capacity, a serious outbreak of diseases like Covid-19 and other airborne diseases would devastate the prisons.

Reaffirming resolution 45/111, which states that basic healthcare rights shall be provided to prisoners.

Deeply concerned that prisoners are not able to receive healthcare items from family or other outside sources due to covid.

Recommends UN Member States further provide solutions to overcrowding and provide basic healthcare in prisons

1. Recommend that Member nations raise 7.5 billion dollars to distribute.
2. Request that the UN begin providing an abundant amount of healthcare items, to allow prisoners to take care of themselves.
3. Calls for the UN should provide opportunities, such as shelter and the ability to find a job, for citizens to enter the free world once their sentence has been served.
4. Encourages the UN to help provide a job to ex-convicts through programs allowing them access to a stable job after leaving prison, such as:
 - a. Staffing maintenance and civilian positions in prisons
 - b. Staffing maintenance or low level positions in the government
 - c. Staffing ex-convicts into prisons to provide jobs.
5. Request that national governments create mandatory quarantine sections in prisons to stop the spread of an infectious disease, such as Covid-19
6. This resolution would be funded by The United Nations Human Rights Council (UNHRC). The resolution would go into effect by December 15th, 2022.

A Resolution Regarding The Implementation of Solar Panels in Morocco

1
2
3 The General Assembly,
4
5 Convinced that the climate crisis is currently the largest threat across the Globe,
6
7 Alarmed by the drastic increase of natural disasters such as droughts, severe storms, and increased ocean
8 and land temperatures,
9
10 Deeply concerned by the increase of carbon emissions causing droughts and desertification in Morocco,
11
12 Appalled by the rapid erosion of 1 meter per year on Moroccan coasts as a result of reduced rainfall,
13 growing water scarcity, and fragile ecosystems,
14
15 Distraught by the drought in Morocco being the worst in 30 years and rainfall being 64% less than average,
16
17 Recognizing with deep concern that Carbon dioxide in the atmosphere is now exceeding 50% higher levels
18 than when mass burning of fossil fuels originated during the industrial revolution, Morocco contributing 67.8
19 million tons as of 2020,
20
21 Welcoming the benevolence of the Pavagada Solar Park project offsetting 578,631t of carbon emissions a
22 year from the use of solar panels,
23
24 1. Calls Upon the UN Environment Programme to aid in the endeavor of further implementing solar
25 energy in order to reach carbon offset goals by 2035,
26
27 2. Requests the UN Environment Programme to allot a grant of 15 million US dollars
28 (141,606,270.00 Moroccan Dirhams) to install and upkeep solar panels in existing urban
29 communities, to later expand into rural Morocco.
30
31 3. Considers the use of solar panels beneficial to the economic and ecological status of Morocco as
32 the implementation promotes rainfall and increases the economic prosperity of the agricultural
33 community.

Lowering Politicians Salaries in Nepal

1
2
3 The General Assembly,
4
5 Recalling that in Nepal the amount of money that politicians receive is unjust,
6
7 Deeply concerned that politicians in Nepal abuse their power and benefit themselves, and not their people,
8
9 Alarmed by the fact that the Nepali governmental officials often accept bribes to complete work,
10
11 Noting further that this is a violation of the Nepali people, especially the 17.45% of the Nepali citizens who
12 live under the national poverty line,
13
14 Fully aware that it is unlikely that politicians want to dock their own salaries,
15
16 1. Draws the attention to the corruption of governments when leaders receive unequitable amounts
17 of money;
18
19 2. Requests that all politicians who are paid unfairly, reduce their yearly pay to a more reasonable
20 salary, an agreed upon number that is reasonable in comparison to the citizens of their country.

19
20

The General Assembly,

Convinced that the oil spills are severely detrimental to environments and communities around the world,

Recalling that the UNCTAD outlined how oil spills are “threatening an ecological catastrophe” and highlighted the need for improved transportation of possible pollutants, In Article 58 of UNCTAD Transport and Trade Facilitation Newsletter,

Reaffirming, that several United Nations sustainable development goals related to the health of the environment and its inhabitants,

Ignoring the oil issue, and remaining idle will prohibit those goals from being achieved,

1. Calls upon the Conference of the United Nations Environment Assembly to commence discussions on oil spill prevention and clean up for a recommended plan to be implemented;
2. Requests the Conference on Oil Spills to report to the General Assembly on results of those discussions.

1 Convention on Improving Health Education and Preventative Awareness for Bettering Life Quality
2
3 The General Assembly,
4
5 Deeply concerned with the increasing rate of preventable non-communicable disease (NCD) formation and
6 sleep deprivation amidst South Korean citizens in spite of having the world’s 9th highest life expectancy
7 rate,
8
9 Recognizing that the Republic of Korea’s attempt to develop programs to diminish sleep deprivation, but are
10 backed with little strength and preparation in addition to applicability limited to certain workplace
11 environments,
12
13 Reaffirming that the incentive to limit sleep goes against Articles 24, 25, of the U.N.’s Universal Declaration
14 of Human Rights,
15
16 Alarmed that 16.7% of South Korean citizens sleep less than 5 hours and are prone to stress levels
17 influencing the expression of high premature mortality rates from NCDs.
18
19 1. Calls Upon the UN to allocate resources for reforming the Republic of Korea’s educational system
20 to allow for a more equitable balance of academic rigor and attention to personal physical and
21 mental health in order to reach a higher quality of life for South Korean citizens;
22
23 2. Encourages the schools of South Korea to undergo regulative measures to provide a healthier
24 curriculum that emphasizes not only academic development but proper physical development as well;
25
26 3. Takes Note of the cultural importance and emphasis of education that has made South Korea a
27 leader in global educational standards;
28
29 4. Urges the United Nations to recognize the vital necessity for youth around the globe to be
30 properly informed on sleep education and the physiological occurrences which depend on a proper
31 amount of rest being reached.

1 A convention on increased freedom of the media throughout the world

2
3 The General Assembly,

4
5 Alarmed that suppression of global media has worsened over the past decade, and Serbia's position in the worldwide press
6 freedom ranking of NGO Reporters Without Borders has dropped from 66th out of 180 countries in 2017 to 93rd in 2021.

7
8 Concerned that this trend will be sustained in the coming years, offering more restraint and conformity with the lack of self-
9 expression in the nation of Serbia as well as throughout the world.

10
11 Reaffirming that everyone has the right to freedom of opinion and expression without interference as declared in article 19 of
12 the International Covenant on Civil and Political Rights.

13
14 Conscious that, over the past several years, the share of the world's population that enjoys a free press has remained at a
15 miniscule 14%, while journalist face constant threats, violence, and intimidation while those responsible remain unaccountable.

16
17 Aware that issues concerning lack of media freedom are also prevalent in countries such as North Korea, Eritrea,
18 Turkmenistan, China, Saudi Arabia, Vietnam, and many more.

19
20 1. Calls upon the UN Office for the Coordination of Humanitarian Affairs and Office of the High Commissioner for
21 Human Rights to be diligent in intervening in any state apart of the UN that is in violating the privileges guaranteed
22 by articles 19 and article 20 of the International Covenant on Civil and Political Rights so that they are in accordance
23 with the United Nations Universal Declaration of Human Rights.

24
25 2. Request for the UN to determine which countries are in most need of intervention based on the level of
26 governmental suppression and crimes against media sources within the nations of the UN and then prioritize those in
27 most dire need.

28
29 3. Desiring that the states in which intervention is deemed necessary remain cooperative with the United Nations
30 efforts in the name of furthering the United Nations goal of continued world prosperity.

31
32 4. Further recommends a summit be held biannually discussing the current situation related to global media freedom
33 and other humanitarian topics to reevaluate where UN intervention is necessary and in what form.

34
35 5. Supports the implementation of internal systems be implemented in states to aid in the regulation and protection
36 of not just the rights pertaining to media and expression but the accumulation of freedoms protected by the UN
37 Universal Declaration of Human Rights.

38
39 6. Requests that the UN Department of Economic and Social Affairs provides the financial assets necessary for the
40 formation and implementation of these aforementioned internal regulatory and protective systems so that the
41 financial burden is not placed upon these already suffering nations in which UN intervention may be necessary.

The General Assembly,

Alarmed by the rates of gender-based violence in South Africa Noting that South Africa is one of the most infamous countries among the international community involved in nationwide cases of gender-based violence, rape, non-partner abuse, murder, and assault, as well as aware that, according to Reuters, only 25% of women feel safe at night,

Emphasizing that, according to the UN's declaration on the elimination of violence against women, said violence constitutes a direct violation of fundamental rights and freedoms, as well as becomes a manifestation of historically unequal power between men and women,

Deeply concerned that, according to Human Rights Watch, the South African government is not adequately funding or managing overwhelmed shelters, as well as not delivering on past promises dedicated to ending the crisis of gender-based violence in South Africa.

1. Calls upon the United Nations to intervene in the South African government's endeavor to end gender-based violence

2. Encourages the UN to help support educational programs through funding aimed toward public perception such as non-commercial advertisements, school curriculum, etc.

3. Requests UN-funded/managed abuse shelters across South Africa, as well as aid non-governmental agencies involved in the fight against gender-based violence and the sheltering of abuse victims.

1 Assistance to Refugees and Asylum Countries to Combat the Covid -19 Pandemic

2

3 The General Assembly,

4

5 Convinced that the acceptance of refugees by asylum countries and international aid for those countries is

6 essential in upholding the human rights of displaced persons,

7

8 Recalling the UN's emphasis on providing support to asylum countries, increasing their capacity to accept

9 refugees, and protecting the human rights of and protecting refugees and migrants from discrimination in

10 resolutions 52/101, 38/103, 53/126, and 54/126,

11

12 Reaffirming that Article 14 of the United Nations Declaration of Human Rights grants every person the right

13 to seek and enjoy asylum from persecution,

14

15 Conscious that the United States has taken steps via the New York Declaration for Refugees and Migrants

16 to show solidarity for and promote the rights of refugees and to encourage supplying aid to countries

17 affected by large flows of refugees as an international responsibility,

18

19 Bearing in mind that the Secretary General's report on Human Rights and Mass Exoduses details the

20 importance of instituting policies to protect the rights of displaced persons and setting up programs to fund

21 and carry out relief efforts,

22

23 1. Calls upon the ECOSOC Commission for Social Development to establish programs that aim to

24 supply international aid to asylum countries to reach pre-COVID-19 levels of refugee acceptance,

25

26 2. Encourages the OHCHR and CESCR to intensify efforts and assist governments in implementing

27 policies and ratify treaties to preserve and promote the human rights of refugees,

28

29 3. Requests that the OHCHR hold conferences and trainings that aim to limit discrimination faced by

30 refugees in their asylum countries.

 KENTUCKY YMCA YOUTH ASSOCIATION KENTUCKY UNITED NATIONS ASSEMBLY United Nations Resolution	Resolution # 28

A Resolution Relating to the Disarmament of the Ukrainian-Russian Border

The General Assembly,

Deeply concerned with 130,000 Russian troops, as of February 2022, stationed around the northern, eastern, and southern borders of Ukraine, Given that Russians are performing military exercises in Moldova and Belarus and stationing various warships in the Black Sea,

Fully aware of the consequences to the livelihoods and safety of Ukrainian citizens if such an invasion were to occur,

Troubled that if Russia were to invade Ukraine they will install their own form of government where Ukraine would answer to Russia, limiting the rights guaranteed to individuals in the United Nations Declaration of Human Rights; regarding such rights being violated include the rights of Article 2, 3, 13, 14, 18, 20, 21, 24, 28, 30; such conclusions may not be direct but, as a result of such an invasion, would occur in the aftermath,

Reminds the General Assembly that in accordance with Resolution 29/33 14, The use of armed force against a country against the political independence of another country is defined as aggression; An attack by the armed forces of a country on the forces of another country qualifies as an act of aggression; Aggression is the most dangerous form of illegal use of force; The responsibility under the United Nations Charter is to settle international disputes by peaceful in an effort to preserve international peace; A war of aggression is a crime against international peace.

Recalling that the United Nations allows fellow member states to apply economic sanctions and other measures not involving the use of force to prevent or stop aggression as well as to consider and make recommendations on the general principles of cooperation for maintaining international peace and security, including disarmament,

1. Calls on the Security Council to endorse disarmament of the Russian and Ukrainian border to de-escalate tensions and avoid an invasion, and

2. Calls upon the General Assembly, under Article 41, chapter VII, to levy harsh economic sanctions against Russia in order to maintain peace and security, if and only if such disarmament on the part of Russia is not met.

35

The General Assembly,

Deeply concerned with the rise in the amount of youth related violence not only in the United Kingdom, but across the world,

Convinced that youth violence is a global public health problem. It includes a range of acts from bullying and physical fighting, to more severe sexual and physical assault to homicide.

Deeply disturbed by the worldwide, some 200,000 homicides that occur among youth 10-29 years of age each year, which is 42% of the total number of homicides globally each year.

Also concerned by the amount of affect to pursue this problem.

Fully aware that this issue can be combated and pursued in a way that supports the youth of the U.K and across the world. There are already various ways to help this problem. Some include: opening various community centers in communities of need, providing support groups in schools, and hyped involvement with law enforcement.

Realizing that youth violence is a particularly pertinent issue in the United Kingdom. Same goes for the surrounding countries of Scotland, Wales, Northern Ireland and England. Even in the United States the issue has been prevalent in many well known cities.

Emphasizing the youth violence is made from a combination of factors and doesn't have a direct solution to end the problem. There are options to help prevent the amount of youth violence across the United Kingdom and the world.

1. Requests the supporting UN countries spend the adequate amount of money to have resources in the needed counties, schools or any other needed place. All depending on the following countries GDP of course. (The United Kingdom's GDP is listed as 2.7 trillion.)
2. Recommends the school systems of the supporting countries expand their awareness of this issue to best help the youth of their communities and schools.
3. Urges reducing the access of alcohol, drugs, and firearms in youth. To help prevent the early stages of violence.

A Resolution to Secure International Peace

The General Assembly,

Bearing in mind the safety and security of all nations throughout the world, as representatives for the United States of America in this year's United Nations Convention, we would draw the attention of our comrades to the heightened tension present in today's world,

Noting with deep concern these rising tensions and taking into account the sensitivity of the subject, it is of the utmost importance that measures be taken to maintain peace for the sake of countries involved in any future conflicts as well as others which will eventually and inevitably become involved,

Guided by the knowledge of the moments within history that rely on a singular decision to influence a multitude of sequential events, we recognize the situation with which we are faced today is one such example,

Conscious of our duty as members of both the United Nations and the world as a whole, we must center our responsibility on minimizing the negative, long-term consequences that will result from hasty, insufficient measures taken in the present moment,

Having considered the current implementation of the numerous measures to secure peace across multiple nations throughout the world, but,

Fully aware of the gravity of the situation of today's political atmosphere and the complexities of navigating foreign policy, we note without accusation how many of these measures have been disregarded by those parties involved,

Recognizing the nuanced nature of these conflicts and seeking to further the efforts towards peace which have been taken already, we resolve to create a organization focused on cooperation and alliance upon which the burden of alleviating the pressure of the maintenance and upholding of international stability will fall,

Calls Upon the UN General Assembly to commence discussion and negotiation of such a program which may allow for the intervention of a new designated security team in any situation deemed a threat to international peace and stability;

1. Seeks to develop and maintain this stability through the formation of a specialized task force composed of units from 3 separate nations but funded by the United Nations and chosen on a repeating schedule from members of the General Assembly, which would be designated to manage tense or disruptive events across the globe;
2. Further requests the Program to Usurp Threats to International Neutrality, as this team will be known, be approved to take action by a council of randomized and varying representatives from multiple nations, the only qualifying factor for this council being the countries for which these representatives speak not be a part of the United Nations Security Council, which would give the task force the permission and means to take whatever measures deemed strictly necessary to reimplement peace in whatever international areas may be affected by a political or military stability crisis;
3. Proclaims the future this program aims to secure as directly involving concerns for international peace, funding for such a team would be sourced in the budget of the United Nations

Human Meat Trade

1
2
3 The General Assembly,
4
5 Deeply concerned over the inhumane slaughter of animals for meat,
6
7 Considering the growing world-wide concern for animal health, animal welfare and protection,
8
9 Reaffirming the UN World Charter for nature stating that "Every form of life is unique, warranting respect
10 regardless of its worth to man, and to accord other organisms such recognition, man must be guided by a
11 moral code of action.",
12
13 Noting that the Food and Agriculture Organization of the United Nations produced guidelines for the
14 humane slaughter of livestock,
15
16 1. Calls upon the Food and Agriculture Organization of the UN, to provide training and education to
17 small scale and personal slaughter operations on the humane processes of handling, transporting
18 and slaughtering of livestock.
19
20 2. Requests that the FAO Education for Effective Nutrition in Action provide these training courses
21 on the humane processes of handling, transporting and slaughtering of livestock in coordination with
22 their nutrition education programs.

1 An Act to Lower Occurrences of Human Rights Abuses Within Mali’s Security Forces
2
3 The General Assembly,
4
5 Alarmed by the number of constitutional infringements and human rights abuses being carried out by the
6 Malian Security Forces.
7
8 Deeply disturbed by the roughly 195 reported extrajudicial killings committed by Malian police and Security
9 Forces in the first six months of 2020.
10
11 Deeply concerned by the current prison sentence for general torture in Mali being merely 1-10 years, as
12 stated in the nation’s penal code.
13
14 Recognizing the recurrent violations of Article 12, Article 26, and Article 31 from the Code of Conduct for
15 the Armed and Security Forces of Mali, as well as violations of Article 3 of Mali’s Constitution of
16 1992 and Article 12 of the United Nations Convention against Torture.
17
18 1. Calls upon Article 31 of the Code of Conduct for the Armed and Security Forces of Mali to be
19 amended, requiring all members of the Security Forces to be mandated reporters of suspected
20 human rights abuses committed by any fellow member of any position, or be potentially held liable
21 for ignoring to do so.
22
23 2. Requests that the Malian Security Forces and Armed Forces instates a whistleblower protection
24 rule, protecting individuals from being fired, fined, or harassed by fellow officers for simply
25 reporting acts of abuse and misconduct.
26
27 3. Proclaims that Article 209 of the Malian Penal code be amended, specifying a separate prison
28 sentence for security and law enforcement officers convicted of torture, thereby raising the
29 sentence to a minimum of 15-20 years in prison for these specific situations.

1 An act pertaining to the growth and development of geothermal energy throughout Scandinavia and the
2 Norwegian Sea
3
4 The General Assembly,
5
6 Affirming that the annual savings due to established geothermal heating amass to people saving 30-70% in
7 their utility bills. Geothermal power plants also positively contribute to the environment. Geothermal plants
8 emit 97% less acid rain-causing sulfur compounds and 99% less carbon dioxide than fossil fuel power
9 plants.
10
11 Conscious that our world is facing a catastrophic environmental crisis. Building these geothermal plants
12 could significantly lower our carbon emissions. The metropolitan regions of California are 60% powered by
13 geothermal energy. The wastewater and excess carbon can also provide valuable resources. Scandinavia
14 conveniently sits on some of the highest heat flow areas in the world, and we will look towards expanding
15 the process to other countries.
16
17 Emphasizing that geothermal power plants are 80% less expensive than fossil fuel plants, according to
18 National Geographic. Unlike clean energy from the wind and sun, these geothermal sites are available at all
19 times. The maintenance of these plants will also provide economic opportunities, And even lead to advances
20 in geothermal technology.
21
22 1. Confirms that our resolution will build four 40mW geothermal power plants. We acknowledge that
23 this resolution will cost 200 million, but realize that the benefits of this project outweigh the costs.
24 The United Nations Green Climate Fund has already reported a budget of 10 billion USD this year
25 alone. Our resolution will cost a minuscule amount of money when compared to the budget.
26
27 2. Authorizes that the money saved by Norway will be returned to the United Nations at a rate
28 determined by the Green Climate Fund. The Green Climate Fund will be able to utilize 80% of the
29 money saved by Norway to fund various environmental projects in the future. Other countries
30 proving to hold sufficient infrastructure to hold the plants will be able to opt in to this program as
31 well.
