Devastating Fires Threaten the Safety of our Planet

The General Assembly,

Alarmed by the fact that approximately 7.1 million acres are destroyed by fires each year globally,

Observing the extreme damage of the Australian bush fires that destroyed over 5,800 homes and killed or displaced over 3 billion animals, including mammals, birds, reptiles, and amphibians,

Bearing in mind that UNICEF recently referred to the Australian bushfires as an “unprecedented disaster”,

1. Calls upon the UNDRR (UN Office of Disaster Risk Reduction) to work with the WALFA (Western Arnhem Land Fire Abatement) project and the Australian government to monitor and create controlled burns using aboriginal techniques in order to decrease the chance of major bushfires in the future;
2. Calls for the UNDRR to work with Ladera Tech in order to produce and distribute their FORTIFY product to regions with a high risk in order to prevent the possibility of future large fires;
3. Requests that the World Animal Network work with the World Organisation for Animal Health and WWF to help rebuild habitats for animals affected by the Australian bushfires.

1 Equal Access to a COVID-19 Vaccine for Immigrants

2  
3 The General Assembly,

4  
5 Deeply concerned about access to a COVID-19 vaccine for immigrants. As of right now there are approximately  
6 80 million displaced people in the world during a deadly global pandemic,

7  
8 Observing that many countries are focused on communications with pharmaceutical companies and their plan  
9 for rolling out the vaccine, but are not including these undocumented people,

10  
11 Recognizing that this leaves a large population with possible exposure to the COVID-19 virus and no protection  
12 against it,

13  
14 Taking into consideration that this population would not only have no protection against the virus, but would  
15 also continue to spread the virus, ultimately resulting in prolonging the life of the pandemic,

16  
17 Conscious of human rights and the urgency to protect and assist displaced persons while providing them with  
18 full equality without discrimination, as declared by the United Nations Resolution 74/160 of January 2020 and  
19 by the Human Rights Council Resolution 41/15 of July 2019,

20  
21 1. Recommends partnerships between government agencies that are administering the vaccine and the  
22 immigration department;

23  
24 2. Seeks the United Nation's power to establish financial aid to provide vaccines designated for  
25 displaced people.

Securing and Maintaining Human Rights in the World's Prisons

The General Assembly,

Concerned that many human rights violations have occurred in prisons around the globe,

Deeply Disturbed that the European Court of Human Rights regularly hears cases against prison systems,

Bearing in mind prison rooms are overcrowded contributing to unsanitary living conditions which may lead to the spread of illnesses such as COVID 19,

Taking into consideration that medical care is not guaranteed or has never been implemented in many prisons worldwide,

1. Encourages the United Nation member countries to participate in a world-wide prison check to regulate and to ensure livable and humane prison conditions.

1 Proposal for Universal Quality Pre-Primary Education

2  
3 The General Assembly,

4  
5 Recalling the United Nations Declaration of Human Rights Article 26 which states,  
6 "Everyone has the right to education. Education shall be free, at least in the elementary and  
7 fundamental stages. Education shall be directed to the full development of the human personality and to  
8 the strengthening of respect for human rights and fundamental freedoms,"  
9

10 Fully aware that nearly half of all pre-primary age children around the world are not enrolled in preschool,

11  
12 Noting that the failure to provide quality pre-primary education limits children's performance in higher  
13 education and denies them opportunities to reach their full potential,  
14

15 Deeply concerned that the lack of quality education of citizens limits the futures of countries, robbing them of  
16 the human capital needed to reduce inequalities and promote peaceful, prosperous societies,  
17

18 Convinced that a stronger global initiative on the investment and development of quality pre-primary education  
19 can dramatically support the United Nations Sustainable Development Goals #4 (Quality Education) and #10  
20 (Reduced Inequalities).  
21

- 22 1. Calls upon Member States to adopt the UNICEF Model for Universal Quality Pre-Primary Education.  
23  
24 2. Encourages the prioritization of at least one year of Pre-Primary Education in every country's  
25 Education Sector Plan  
26  
27 3. Recommends dedicated and increased financial investment for Pre-Primary Education from  
28 government education funds and from education aid  
29  
30 4. Requests progressive improvement of quality Pre-Primary Education by supporting quality standards,  
31 curricular frameworks, and teacher training  
32  
33 5. Trusts vulnerable populations will not be the last to benefit

- 1
- 2 The General Assembly,
- 3
- 4 Realizing that Cuba has had a trade embargo with the United States for nearly 60 years,
- 5
- 6 Stressing that the United States does not have similar trading policies for other communist countries that now
- 7 pose a larger threat than Cuba, such as Vietnam and China,
- 8
- 9 Noting that the United Nations has expressed its strong opposition to the embargo since 1991,
- 10
- 11 Acknowledging that the original reasons for the embargo are now irrelevant,
- 12
- 13 Recognizing that that US engages in trade with Cuba on an annual basis in the form of a check of approximately
- 14 \$4,000 USD for the use of the land that the Guantanamo Bay Detention Camp occupies,
- 15
- 16       1. Encourages the practice of free trade between Cuba and the United States;
- 17
- 18       2. Allows for Cubans to have better and more affordable access to the Internet through the new influx
- 19 of technology that would come from lifting the embargo;
- 20
- 21       3. Stresses that the embargo denies Cubans basic necessities such as affordable food and medicine;
- 22
- 23       4. Helps the Cuban economy through large new trading opportunities with the United States.

Restrictions of Carbon Emissions

1  
2  
3 The General Assembly,  
4  
5 Fully aware that air pollutants are an important factor in the climate crisis, as well as that they can cause  
6 serious health issues.  
7  
8 Conscious that Denmark has a plan to decrease the amount of amount of carbon emissions by 70% by 2030.  
9  
10 Recalling that air pollution from particulate matter in Denmark causes severe health problems, causing more  
11 than 3,000 deaths per year in the country.  
12  
13 Confident that drastic action should be taken to decrease the world’s air pollutants,  
14  
15 1. Calls upon the member countries of the United Nations to implement a plan similar to that of  
16 Denmark, which will decrease the amount of carbon emissions produced by that country by a significant  
17 amount in order to keep the planet habitable.  
18  
19 2. Requests that the United Nations prioritize the climate crisis until the planet is back in a safe and  
20 steady climate.

17  
18  
19  
20  
21  
22  
23  
24  
25

The General Assembly,

Deeply disturbed that domestic violence is the leading cause of injury to women more than car accidents, muggings, and rapes combined,

Emphasizing that 64% of Fijian women who have been in intimate relationships have experienced domestic violence,

Recalling that the United Nations (UN) reported in the last 12 months that 24% of intimate partners in Fiji experienced domestic violence,

According to the UN Declaration of Human Rights, "No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment,"

Determined to reduce the rate of domestic violence globally,

1. We will implement a two-hour education program dedicated to second-year secondary school students on prevention, identification, and protection (P.I.P.) regarding domestic violence;
2. The curriculum will be developed by the UN Educational Scientific and Cultural Organization;
3. This program will be available to all UN countries but tailored to countries with high domestic violence rates.

A Resolution to Minimize Suicide Rates in Finland

1  
2  
3 The General Assembly,  
4  
5 Deeply concerned by Finland’s tremendous suicide rates,  
6  
7 Noting that Finland ranks 51st in suicide rates out of 183 listed countries according to the World Health  
8 Organization,  
9  
10 Recognizing that there are 800,000 deaths globally per year due to suicide as cited by WHO,  
11  
12 Concerned that Finland consistently has a higher suicide rate than the world average,  
13  
14 Emphasizing that suicide falls under the UN’s Sustainable Development Goal titled “Healthcare and Wellbeing”,  
15  
16 Bearing in mind that the three largest reasons for suicide are lack of mental health resources, substance abuse,  
17 and youth unemployment,  
18  
19 1. Urges Finland to dedicate more resources to mental health, such as money and manpower,  
20  
21 2. Recommends Finland to enhance awareness about substance abuse,  
22  
23 3. Advises that Finland create more adolescent job opportunities to reduce stress.

14  
15  
16  
17

The General Assembly,

Convinced that the Rates of unemployment in France will dramatically decrease if Refugees receive proper work training.

Alarmed that France had 407,915 refugees which was a 10.74% increase from 2018.

Reaffirming that this process will not only decrease the unemployment rate in France but will also provide more jobs and bring more money into the economy.

1. Calls upon the UN to grant France the funding to Train Refugees. Requests \$40,000 for refugee training. Note that Even if the United Nations gave funding for 10% of the refugees, 40,791.5 people would benefit from that and that number will continue to grow.

2. This will be enacted on January 1, 2022.

Promotion and protection of human rights: A right to privacy in the digital age.

The General Assembly,

Deeply disturbed by the invasion of privacy in Germany,

Calls upon all Nations:

1. To respect and protect the right to privacy, including in the context of digital communications;
2. To take measures to put an end to violations of the right to privacy and to create the conditions to prevent such violations, including by ensuring that relevant national legislation complies with their obligations under international human rights law;
3. To review, on a regular basis, their procedures, practices and legislation regarding the surveillance of communications, their interception and the collection of personal data, including mass surveillance, interception and collection, as well as regarding the use of profiling, automated decision-making, machine learning and bio-metric technologies, with a view to upholding the right to privacy by ensuring the full and effective implementation of all their obligations under international human rights law
4. To establish or maintain existing independent, effective, adequately resourced and impartial judicial, administrative and/or parliamentary domestic oversight mechanisms capable of ensuring transparency, as appropriate, and accountability for surveillance of communications, their interception and the collection of personal data;
5. To provide individuals whose right to privacy has been violated by unlawful or arbitrary surveillance with access to an effective remedy, consistent with international human rights obligations;
6. Develop, review, implement and strengthen gender-responsive policies that promote and protect the right of all individuals to privacy in the digital age;
7. To take appropriate measures to ensure that digital or bio metric identity programs are designed, implemented and operated with appropriate legal safeguard
8. Calls upon the UN to prioritize personal privacy and expresses this resolution become effective within one year of passing the General Assembly.

26  
27  
28

The General Assembly,

Emphasizing that natural habitats are important around the world, any environment destroyed by either natural or human-born cause shall be replenished back to its original state. Also, any corporation or organization responsible for the destruction of an environment must assist in the efforts to replenish the area. One such example would be the Gold King Mine in Colorado, United States. The area was destroyed in 2015 and still remains unrestored.

1. Fully aware of the effort needed to assure the restoration of natural habitats, the UN shall appoint officials to oversee the various projects and assist the process to go as smoothly and professionally as possible.
2. Calling upon the United Nations to assist in the restoration of natural habitats to assure the world’s various environments that any significant damage that occurs to these areas shall be restored to its original state.
3. Requesting the requirement that any individual or corporation responsible for the destruction of any natural habitat is obligated to complete the majority of restoration needed for that specific environment;
4. Drawing attention to the importance of this project, any currently needed action shall begin immediately after being passed;
5. Further requesting that after a natural disaster or other various reasons for habitat demolition, an assessment shall be made immediately after the catastrophic event so that restoration can begin as soon as possible.

1                   A Call to Action – Addressing the Mental Health Crisis Among Victims of Human Trafficking  
2  
3    The General Assembly,  
4  
5    Convinced that victims of human trafficking are faced with social and mental hardships when they attempt to  
6    reenter their communities.  
7  
8    Acknowledging that victims of human trafficking are at high risk for depression, PTSD, anxiety, memory loss,  
9    guilt, shame, and fear.  
10  
11    Deeply concerned that mental health issues can cause victims of human trafficking to reenter trafficking  
12    situations due to the comfort of a familiar situation.  
13  
14    Keeping in mind that victims of human trafficking can be shunned by traditional communities and families when  
15    they return home.  
16  
17    Recalling the Protocol to Prevent, Suppress and Punish Trafficking in Persons, which established a victim-  
18    centered approach to trafficking by the United Nations in 2000.  
19  
20    Conscious of the monetary funds collected by United Nations Voluntary Trust Fund for Victims of Human  
21    Trafficking administered by the United Nations Office on Drugs and Crime (UNODC).  
22  
23    Calls upon member nations to create agencies to provide mental health and transition services for victims of  
24    human trafficking.  
25  
26                   1. Recommends agencies to be funded partially by individual member nations and funds from the UN  
27                   Voluntary Trust Fund for Victims of Human Trafficking.  
28  
29                   2. Encourages agencies to provide trauma informed therapy services, job skill training, basic education  
30                   remediation, and material/housing support.  
31  
32                   3. Further requests agencies to provide education and community awareness campaigns to communities  
33                   who may receive victims of human trafficking in order to normalize the experience of the victims so that  
34                   they may be embraced by their communities.

The General Assembly,

Fully aware of the Quality of Education in India needing improvement, in regards to infrastructure, teaching and staff practices, and student handling,

Taking into consideration of the Article 29 from the Aims of Education adopted by the Committee on Rights of the Child in the twenty-sixth session on April 17th, 2001, on education being child - friendly and empowering which is questioning with the education in India,

Recognising the concerns that the article Quality Education of UNICEF has brought up on the poor quality education based in India,

Welcoming the efforts of UNICEF with Sarva Shiksha Abhiyan on providing a quality based education and an integrated childhood development,

1. Requests to the General Assembly of the UN to observe the situation of the education system in India,

2. Further requests UN to discuss with India to make recommendations on solutions to improve the quality of education in India.

The General Assembly,

Alarmed by the growing problems associated with climate change,

Determined to combat the negative effects of a warming planet,

Observing the need to encourage nations to use renewable energy,

Recognizing the United Nations goal to decrease global use of fossil fuels,

1. Encourages the United Nations to promote the use of solar farms in Italy.

2. Further invites the United Nations to call on the governments across Europe to devote funding towards the construction of solar farms.

3. Reaffirms the commitment of the United Nations under the Framework Convention on Climate Change calling for the reduction of greenhouse gas emissions and increased investment in renewable energy.

1 An implementation to Reclaim and Recycle Water in Jamaica

2  
3 The General Assembly,

4  
5 Alarmed by the amount of pollution in the water of Jamaica, of water quality issues associated with industrial  
6 and agricultural run-off or badly managed sewage, open burning of garbage, cane fields, or poorly managed  
7 dumps and lack of water.

8  
9 Aware with the recent droughts, Jamaica has experienced a consequential water shortage, a significant factor in  
10 the island's sanitation conditions.

11  
12 Acknowledging reclaim water also prevents pollution by decreasing the amount of waste water that must be  
13 discharged. Reused water can even be used to help create or replenish wetlands and wildlife sanctuaries. In  
14 these ways, water treatment systems are a net positive for the environment.

15  
16 Realizing that Jamaica is not the only Caribbean Island or country to be affected by wasted and polluted water.

17  
18 1. Calls upon the United Nations Environment Programme (UNEP) to construct 2 water-recycling plants  
19 in Jamaica to recycle and reclaim water, cutting a small amount of money from the UN's budget of over  
20 \$5 billion;

21  
22 2. Allowing the UNEP to expand the project in surrounding islands as needed or countries as needed.

23  
24 3. Enabling UNEP to use the results of the Jamaica project would also allow the UN to expand the  
25 service to other areas in the world where they are needed. These areas may include the Chinese and  
26 Korean rivers that flow into the extremely polluted East China Sea, the American rivers that flow into  
27 the Gulf of Mexico, the River Thames and certain French rivers that dump into the English Channel, and  
28 a few select rivers in the arctic region of North America and Asia.

32  
33  
34  
35  
36

The General Assembly,

Asserting that Japan has experienced an average temperature increase equivalent to 2°C to 4°C (35.6°F to 39.2 °F), resulting in frequent high temperatures that rise over 35°C (100°F),

Fully aware that over 600 million people worldwide live on coastlines with the rising sea levels of 3.4 inches alone in 2019 and 9.14 inches between by 2020,

Understanding that regional temperatures increasing in Japan has left many fruits such as grapes and peaches unable to be farmed as much due to imperfections, and the paddy rice fields of the Tohoku region are predicted to have a decreased amount of rice by 2060,I only say this because it is two separate ideas...

Affirming that important prefectures of Japan like Fukushima, Aomori, and Iwate that produce the most rice are expected to have a decreased amount of usable land due to the global temperature rising while still having to produce over half of all the rice in Japan, Recognizing that Japan has realized the Kyoto Protocol, a plan to reduce its carbon emissions by 30-50 percent from now until 2030,

1. Calls upon the Kyoto Protocol to the top 3 countries with the most carbon Emissions (China, America, India)
2. Urges that global warming protocols like the United Nations Framework Covenant on Climate Change, forcing each delegation to follow the protocol's rules or face expulsion from the union.
3. Proclaims that China's Carbon Neutral bill should be strengthened, doubling the costs from 5 to 10 trillion to shorten the timespan to 2030 instead of 2060
4. Calls upon the United Nations to raise funds in order to combat via economic sanctions placed on the top 3 biggest carbon emitters.
5. Recommends that countries use tariffs and taxes on oil, plastics, and any other environment harming products to incentivize customers to pay for less damaging products.
6. Encourages other countries to participate by offering economic opportunities with aiding in environmental causes, through raising money or manufacturing environmentally safe products.

Dispatch of Riparian Plantings to Stop Water Pollution

1  
2  
3 The General Assembly,  
4  
5 Deeply concerned about the water pollution which is happening in different countries. Some sources have stated  
6 that the tap water in different parts of Luxembourg City isn't safe to drink and that it should be boiled for 10  
7 minutes before drinking,  
8  
9 Declaring that resolution 64/292 said that all humans should have the right to water and sanitation. This clean  
10 drinking water and sanitation are essential to the lives of humans,  
11  
12 Taking into consideration that the Declaration of Human Rights grants the right to water. This says that water  
13 should be "sufficient, safe, acceptable, physically accessible and affordable,"  
14  
15 Viewing with appreciation that the Global Programme of Action for the Protection of the Marine Environment  
16 from Land-based Activity concentrates on the regulation and reduction of wastewater, marine litter, and  
17 nutrient loading,  
18  
19 Recalling that UNICEF has said both of the following, "2.2 billion people lack access to safely managed drinking  
20 water services" and "297,000 children under five die every year from diarrhoeal diseases due to poor  
21 sanitation, poor hygiene, or unsafe drinking water,"  
22  
23 1. Calling upon the UN to start a dispatch of Riparian Plantings on certain waterways leading into  
24 Luxembourg City;  
25  
26 2. Requesting that after the dispatch of Riparian plantings, the UN help monitor the success of ridding  
27 the water pollution from certain parts of Luxembourg City;  
28  
29 3. Requests that the UN reports results to other places which could benefit from Riparian Plantings.

The Taxing Effects of Air Pollution on Earth and its Inhabitants

The General Assembly,

Noting with deep concern that air pollution is one of the world’s leading risks of death, accounting for nearly one tenth of global death,

Emphasizing that Mongolia is ranked 3rd globally for worst air pollution with an air index of 196 and the capital Ulaanbaatar as the city with the most air pollution in the world,

Observing that 90% of children breathe polluted air every day,

Deeply concerned by the fact that air pollution is the leading cause of premature deaths globally,

Keeping in mind that coal is the main source of air pollution in Mongolia and many other countries globally,

1. Encourages the UN Human Settlements Programme to work with SOAP (Switch Off Air Pollution) to help insulate gers in Mongolia in order to reduce the amount of coal burned to heat them;
2. Calls upon the international Atomic Energy Agency (IAEA) to work with countries in order to convert current coal plants into Thorium Reactors to provide a cleaner and more sufficient source of energy;
3. Further requests the United Nations Environmental Programme to work with organizations such as Plant for the Planet and One Tree Planted to plant more trees in countries with the worst air pollution to convert harmful carbon dioxide into clean oxygen.

A Program Aiming to Fix Dams

1  
2  
3 The General Assembly,  
4  
5 Deeply concerned about the dams in Morocco along with numerous other countries and the repairs needed to  
6 several,  
7  
8 Fully aware these dams are controlling the flow of water, and if they were to break it would mean the flow of  
9 rivers would be disrupted,  
10  
11 Realizing not fixing these dams could risk homes, clean water, and lives, so we would like to repair them,  
12  
13 Emphasizing that repairing dams is extremely important and that the said amount of money will be decided by  
14 the UNDP,  
15  
16 Bearing in mind of countries like The United States and India have taken steps to fix their dams,  
17  
18 1. Calls upon the United Nations Development Programme to discuss the amount of money to help  
19 repair these dams,  
20  
21 2. Observing how this project works in Morocco, it will be determined if this program would be used in  
22 other countries,  
23  
24 3. Further resolves to involve people within those countries.

Sustainable Energy for the Region of Nigeria

1  
2  
3 The General Assembly,  
4  
5 Deeply concerned that over 47% of Nigerians are left without power,  
6  
7 Recalling that the United Nation’s 13th goal is to take urgent action to combat climate change and its impacts,  
8  
9 Emphasizing that on October 30, 2009, the United States Environmental Protection Agency (EPA) published a  
10 rule for the mandatory greenhouse gasses from sources that in general emit 25,000 metric tons or more of  
11 carbon dioxide equivalent per year. The United States EPA targeted industries which released the most  
12 greenhouse gas. A large portion of the carbon dioxide released in the US comes from power generation using  
13 fossil fuels.  
14  
15 Conscious that the Energy Commission of Nigeria was established in 1988 with the statutory mandate of  
16 strategic planning, coordination, and evaluation of national policies in the energy sector,  
17  
18 Taking into consideration that the secretary general said, “There can be no doubting or denying that the world  
19 faces a climate emergency”,  
20  
21 Viewing with appreciation that António Guterres once said, “Making peace with nature is the defining task of  
22 the 21st century”,  
23  
24 1.Requests the United Nations Assembly to establish a committee to oversee the establishment of  
25 green energy to the region of Nigeria. It will be the goal of this committee to work with all member  
26 states in the region to ensure that best practices are followed and negative impacts from one member  
27 state to another can be avoided  
28  
29 2. Recommends that China or Germany helps to fund and/or to establish a commision with the goal to  
30 educate Nigeria on the subject of geothermal energy and best practices  
31  
32 3. Encourages the United Nations General Assembly’s Second Committee to suggest to the General  
33 Assembly to help fundraise and gather money to build and acquire parts for the geothermal plants;  
34  
35 4. Calls upon the United Nations Assembly to establish a partnership with other member nations to  
36 build and establish geothermal plants in applicable places such as Ikogosi and Ruwan Zefi Springs in  
37 Nigeria.

21  
22  
23  
24  
25  
26

The General Assembly,

Deeply concerned by whaling in Norway,

Recognizing that due to whaling thousands of whales are slaughtered each year for their meat. Their blubber is turned into oils for pharmaceutical purposes. Over two-thirds of the whales killed by Norwegian whalers are female and over 40% of these are pregnant. Whalers remove only select cuts of meat from the whale carcass, and then throw the body back overboard, often rather close to shore. Despite a global ban on whaling, Norway continues to kill whales under an "objection" to the law,

Affirming that in 1986, commercial whaling was banned by the International Whaling Commission. Iceland and Norway, however, launched official objections and continues to whale commercially. Iceland and Japan continue to hunt whales due to "scientific whaling." We propose a permanent ban on commercial whaling in Norway,

Fully aware that only 400 North Atlantic whales remain, and 6 out of the 13 great whale species are endangered or vulnerable. Our resolution should go into effect on January 1st 2022. The whaling industry is worth between 26 and 32 million dollars. Norway's objections to the global moratorium have no apparent documented reason, other than the fact that they make money off of whaling.

1. Recommends that commercial whaling be banned, and any country or group violating the law will be required to pay twice the money that they made illegally whaling. We will enforce this law by informing Norway's coast guard to be on the lookout for whalers, and report anything suspicious. Those that make a living off of whaling will be relocated to the transportation and warehousing industry, which has a shortage of workers globally.

1 A resolution to provide access to more educational opportunities  
2  
3 The General Assembly,  
4  
5 Alarmed, by the fact tests in Korea are eight hours long and a grueling process. If you have a bad test score, it  
6 can affect which college you go to and what jobs you have in the future. If your test scores are not high enough  
7 you may not be able to get a well-paid job. 590,000 students take the Entrance Exam, to get into college.  
8  
9 Emphasizing, from the Age of 13 to 14 students in South Korea start studying for the entrance exam. The study  
10 by taking extra academic courses, and pack into school after closing to study for 16 hours, staying up late to  
11 do so.  
12  
13 Fully aware, Only 2 percent of the 590,000 students that take the exam are selected to go into Ivy League  
14 schools in Korea. The other 98 percent is rejected from their school of choice. This can put an impact on their  
15 future.  
16  
17 Recalling, article 26 of the Universal Declaration of Human Rights it said:  
18 "Everyone has the right to education. Education shall be free, at least in the elementary and  
19 fundamental stages. Education shall be directed to the full development of the human personality and to  
20 the strengthening of respect for human rights and fundamental freedoms."  
21  
22 1. Calls upon, The United Nations to establish colleges for people from around the world no matter their  
23 test scores, sexual orientation, race, gender, income, and ethnicity. The schools would be run by the UN  
24 not the countries directly.  
25  
26 2. Further recommends, actions should be taken in 2022 in countries such as South Korea, China,  
27 United States, Somalia, South Sudan, Afghanistan, Singapore, and India.

16  
17  
18  
19  
20

The General Assembly,

Recalling that in the 1980's communist dictator Ceausescu worked toward industrializing Romania. People were forced out of their houses in the countryside and dogs were abandoned. If they were not fixed, they bred which created more dogs and the circle of breeding came into place creating a serious stray dog problem. Dog catchers chased, beat, abused, and killed a lot of the stray dogs. The dogs were even poisoned and put into shelters only to die from disease, hunger and thirst. Some were killed by lethal injections, although some were not not done accurately so many dogs suffered when they were injected. The law was in 2008 and failed. It was called The 2008 Animal Protection law. The law was told to spay and neuter them, but dogs were still being killed. To this day, killing dogs is used as business as they sell the fur and hinds and getting the money from the government and from when they sell to regular people.

1. Calls upon the Romania government to end the Stray Dogs Euthunasia Law.
2. Requests the Romania government support spay and nuetur procedures to decrease the stray dog population by ending the 14 day euthanization window.
3. Requests that a fine be established to those who are caught killing dogs.

1                   Lack of freedom of expression as it relates to the criticism of the Russian government.  
2  
3    The General Assembly,  
4  
5    Alarmed by the recent treatment of Russian citizens who are publicly speaking out against President Vladimir  
6    Putin,  
7  
8    Recalling that Resolution HRC44 passed on June 16, 2020 guarantees freedom of opinions and expressions  
9    online is a human right in accordance with Article 19 of Universal Declaration of Human Rights as well as  
10   resolutions 7/36, HRC 16/4, 25/2, and 43/4.  
11  
12   Reaffirming that the right to freedom of opinion and expression, both online and offline is a human right  
13   guaranteed to all, in accordance with article 19 of the Universal Declaration of Human Rights and of the  
14   International Covenant on Civil and Political Rights  
15  
16                   1. Calls upon the UN Human Rights Council to protect the same rights people have offline must be  
17   protected online, in particular the freedom of expression and opinion Designating assistance for people  
18   who have been unfairly imprisoned or sanctioned by the threat of national security for expression  
19   opposing political beliefs or opinions.  
20  
21                   2. Recommends independent counsel of UN member states to review of each case based on violation of  
22   Humans Rights. If a violation has occurred then the UN Office of the High Commissioner on Human  
23   Rights Council will move forward with suspending any assistance and/or obligations provided by the UN.

An Act to Restrict Fossil Fuel Spending

1  
2  
3 The General Assembly,  
4  
5 Deeply concerned that carbon emissions caused by fossil fuels have been linked to global warming and therefore  
6 rising sea levels;  
7  
8 Recognizing that more than 600-million people live in low-lying coastal zones;  
9  
10 Noting that the UN Environment Programme reports that to limit global warming countries will need to reduce  
11 global fossil fuel emissions by an average of 6% per year over the next decade;  
12  
13 Viewing with appreciation that the United Nations Green Climate Fund was set up to help finance projects that  
14 will directly combat climate change;  
15  
16 Bearing in mind that the Green Climate Fund donates money to clean air projects, but also donates to fossil  
17 fuel-related projects, which therefore can cause climate change;  
18  
19 1. Calls upon the United Nations to prevent the Green Climate Fund from funding any fossil fuel  
20 projects.  
21  
22 2. Encourages all future Green Climate Fund financial investments to cover only clean energy projects  
23 and climate change mitigation projects.

31  
32  
33  
34  
35

The General Assembly,

Believing that exports are the most important and efficient way for people around the world to benefit from resources that are not contained in one country to promote the general welfare,

Affirmed by the number of exports our country accounts for, we are confident that other countries need to be held accountable for the lack of effort in sharing their goods with the rest of the world,

Taking into consideration we were the United States' 35th largest supplier of goods imports in 2019, we call upon all of the countries we trade with to exchange in a way that not only benefits them but also benefits the rest of the world,

Understand that fulfilling the demand for natural resources is something from which all people around the world can benefit.

Seeking exports of abundant natural resources, in order for other countries to access higher quality goods throughout the world.

Fulfilling the goals in A/RES/70/1 17.11 (Significantly increase the exports of developing countries, in particular with a view to doubling the least developed countries' share of global exports by 2020)

Recalling the A/RES/70/1 17.10 on the World Trade Development that promotes a universal, rules-based, open, non-discriminatory, and equitable multilateral trading system under the World Trade Organization, including through the conclusion of negotiations under its Doha Development Agenda.

Allowing for the Enhancement of global macroeconomic stability including through policy coordination and policy coherence as stated in A/RES/70/1 17.13.

1. We request that the UN promotes international trade and global prosperity through increased exports.

2. We subsequently request that the UN condemns any nation that hesitates or does not increase the utilization of international development and cooperation.

1                                    Raising Minimum Monthly Salary to Get Accepted to Immigrate to Sweden  
2  
3    The General Assembly,  
4  
5    Believing that raising the minimum monthly salary to immigrate to Sweden from 13,000 to 25,000 SEF will  
6    make it a safer and more affordable place to live, and help bring down the crime rate as well.  
7  
8    Recalling that immigrating to the country without the requirement would be a crime as stated in resolution  
9    65/230,  
10  
11    Affirming that trying to bypass the requirement will result in a violation of The Declaration of Human Rights,  
12  
13    Realizing the steps taken by Norway and other UN countries to try to spread out immigration throughout the  
14    UN will eliminate high crime rates and will help lower prices of housing.  
15  
16    Conscious that the rising immigration rate over the years has led to a rising of crime rates and higher prices of  
17    housing,  
18  
19                                    1. Calls upon the Swedish Government to raise the minimum monthly salary to immigrate to Sweden.  
20                                    The Swedish Government could gradually raise the minimum monthly salary until the number of  
21                                    immigrants in Sweden becomes more stable. Raising the minimum monthly salary will stabilize the  
22                                    population which will also lead to less people without homes and will lower crime rate. Immigrants who  
23                                    do not meet requirements should not be let into the country until they meet the requirements;  
24  
25                                    2. Urges The UN to report to the General Assembly from the results of the negotiations.

18  
19  
20  
21  
22  
23  
24  
25  
26

The General Assembly,

Deeply Concerned that the deforestation of the jungles in Thailand all lead to this research from NASA. And climate change is happening now. Trees convert CO2 into oxygen thus keeping the CO2 balanced in the atmosphere. When there are fewer trees the CO2 will rise because it is not turned into oxygen by the trees.

Convinced global warming is heating the planet and causing climate change. When the water rises we will have less land. The population needs space to live and if there is no area people will not have a place to live.

Observing that the world bank stated,

"In Thailand, forest cover has declined from 53.5% in 1961 to 31.6% in 2014 as a result of population growth, infrastructure development, agricultural expansion, illegal logging, and uncontrolled forest fires. On average, the annual deforestation rate was estimated at 0.6% or 140,000 hectares per year, from 1973 to 2014."

Recalling that according to NASA,

"Global climate change has already had observable effects on the environment. Glaciers have shrunk, ice on rivers and lakes is breaking up earlier, plant and animal ranges have shifted and trees are flowering sooner...The IPCC predicts that increases in global mean temperature of more than 1.8 to 5.4 degrees."

1. Calls upon the United Nations to create sanctions on companies who contribute to deforestation. Those companies that use over 10 acres will be sanctioned 10 percent of every profitable dollar.

2. Requests an increase in sanctions on logs and palm oil in Thailand's exports to discourage deforestation.

1 Medical permits for disadvantaged countries that need vaccines

2

3 The General Assembly,

4

5 Understanding that in developing countries, a major issue and cause of death is lack of vaccinated citizens and  
6 the spread of disease.

7

8 Convinced that people of every country deserve vaccinations even with obstacles such as an unstable  
9 government or poor healthcare infrastructure

10

11 1. Asking that the United Nations create an option for medically disadvantaged countries to receive a  
12 medical permit, allowing them to receive certain vaccines when requested if dire situations occur.

13

14 2. Requesting international medical organizations, such as UNICEF, to provide aid toward countries who  
15 request this medical permit.

Hidden Hunger

1  
2  
3 The General Assembly,  
4  
5 Bearing in mind the rising rates of obesity and chronic diseases, and dietary risk factors are a major contributor  
6 to premature death and ill-health.  
7  
8 Noting with deep concern that despite the abundance and diversity of food assistance groups, many people are  
9 experiencing food insecurity remain hungry.  
10  
11 Alarmed that children ages 5-19 years were underweight.  
12  
13 Keeping in mind a large part of populations experience food insecurity first-hand.  
14  
15 1. Calling upon the World Food Program to assist in implementing a school feeding program  
16  
17 2. Seeks assistance from organizations such as Action Against Hunger to educate communities on  
18 topics such as nutrition and health, water, and sanitation, so individuals will learn how to provide for  
19 themselves.  
20  
21 3. Further recommends the organization of an educational program to teach individuals how to grow  
22 food and offer agricultural training on how to improve harvests and safely store food.
