CORE VALUES

- Honesty
- Caring
- Respect
- Responsibility

KENTUCKY YMCA MISSION STATEMENT

To develop engaged citizens and servant leaders inspired to affect change in their school, community, Commonwealth, nation, and world. Through experiential learning, service, and community activism, the Kentucky YMCA Youth Association fosters critical thinking, leadership, and social responsibility in teens.

AREAS OF FOCUS

Youth Development
Nurturing the potential of every child and teen

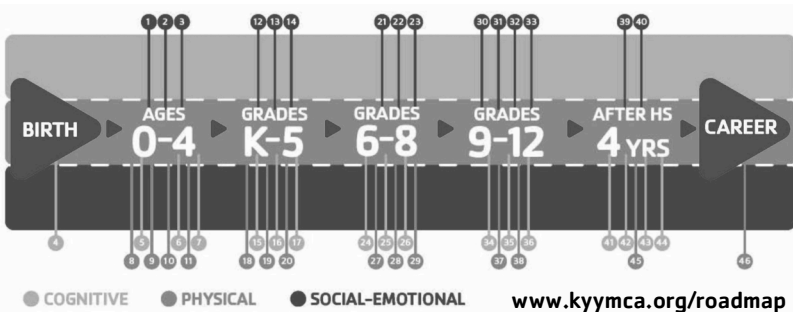

Healthy Living
Improving the nation's health and well-being

Social Responsibility
Giving back and providing support to our neighbors

YOUTH DEVELOPMENT AT THE YMCA

Kentucky YMCA Youth Development is the **social-emotional**, **cognitive**, and **physical** process that all youth uniquely experience from birth to career. A successful development process fulfills children and teens' innate need to be loved, spiritually grounded, educated, competent, and healthy.

Positive youth development is supported by the intentional efforts of individuals, including parents, mentors, teachers, community members, peers, and others who help foster the skills needed for successful living through motivation, active engagement, enriching activities, and healthy relationships.

DIMENSIONS OF WELL-BEING

At the Y, we support youth development by fostering nine dimensions of well-being: Character, Giving, Inspiration, Health, Achievement, Relationships, Belonging, Meaning, and Safety.

Youth Development at the Y emphasizes three of these dimensions when measuring the impact and effectiveness of our programs:

- Achievement**
- Relationships**
- Belonging**

THE FIVE PILLARS

To help ensure the fidelity and quality of our YMCA teen programs, we measure and seek to maximize impact using the following pillars:

- Academics**
- Positive Relationships**
- Positive Identity**
- Life Skills**
- Civic Engagement** (Youth and Government*)

*Each YMCA teen program has a unique pillar of measurement. As a Youth and Government program, the Kentucky YMCA and our Student YMCA Chapters measure civic engagement.

It is important that our participants and guests feel welcomed and safe in our programs. This code of conduct embodies the spirit of the Y, and is intended to help everyone feel comfortable and thrive. As a YMCA participant or guest, we ask you to agree to follow this code of conduct which is rooted in our core values.

These requirements also serve as an extension and supplement to any codes of conduct students and participants must abide by for in-person programming.

1. Appropriate Video Call Etiquette:

- When registering/signing-in for any video call or meeting, please use your **First & Last Name** (not a random username), as well as your **School** in parentheses (for KUNA, please include **COUNTRY instead of School**).
Example: Curious George (Monkey Acad.). This helps us to ensure the privacy of our meetings.
- Please find a quiet area and call in at the scheduled meeting time so that you can be fully present in the virtual experience. We ask that all participants have their video function on their device if possible so we can see and hear you.

UN UNIVERSAL DECLARATION OF HUMAN RIGHTS

Preamble

Whereas recognition of the inherent dignity and of the equal and inalienable rights of all members of the human family is the foundation of freedom, justice and peace in the world,

Ask a Non-Debatable Technical Question (NDTQ):

...(Ask your question).

Speak during Pro/Con Debate (1-minute speeches):

...I rise to speak in (favor/opp.) of this resolution.

Optional - before starting your speech, you can also choose ONE (1) of the following options. If you are yielding, the other Ambassador must be with you:

...I rise to speak in (favor/opposition) and reserve my right to yield to the Ambassador from (Country).

The General Assembly,

Alarmed by the fact that approximately 7.1 million acres are destroyed by fires each year globally,

Observing the extreme damage of the Australian bush fires that destroyed over 5,800 homes and killed or displaced over 3 billion animals, including mammals, birds, reptiles, and amphibians,

Bearing in mind that UNICEF recently referred to the Australian bushfires as an “unprecedented disaster”,

1. Calls upon the UNDRR (UN Office of Disaster Risk Reduction) to work with the WALFA (Western Arnhem Land Fire Abatement) project and the Australian government to monitor and create controlled burns using aboriginal techniques in order to decrease the chance of major bushfires in the future;
2. Calls for the UNDRR to work with Ladera Tech in order to produce and distribute their FORTIFY product to regions with a high risk in order to prevent the possibility of future large fires;
3. Requests that the World Animal Network work with the World Organisation for Animal Health and WWF to help rebuild habitats for animals affected by the Australian bushfires.

1 Equal Access to a COVID-19 Vaccine for Immigrants

2

3 The General Assembly,

4

5 Deeply concerned about access to a COVID-19 vaccine for immigrants. As of right now there are approximately

6 80 million displaced people in the world during a deadly global pandemic,

7

8 Observing that many countries are focused on communications with pharmaceutical companies and their plan

9 for rolling out the vaccine, but are not including these undocumented people,

10

11 Recognizing that this leaves a large population with possible exposure to the COVID-19 virus and no protection

12 against it,

13

14 Taking into consideration that this population would not only have no protection against the virus, but would

15 also continue to spread the virus, ultimately resulting in prolonging the life of the pandemic,

16

17 Conscious of human rights and the urgency to protect and assist displaced persons while providing them with

18 full equality without discrimination, as declared by the United Nations Resolution 74/160 of January 2020 and

19 by the Human Rights Council Resolution 41/15 of July 2019,

20

21 1. Recommends partnerships between government agencies that are administering the vaccine and the

22 immigration department;

23

24 2. Seeks the United Nation’s power to establish financial aid to provide vaccines designated for

25 displaced people.

1 Securing and Maintaining Human Rights in the World’s Prisons
2
3 The General Assembly,
4
5 Concerned that many human rights violations have occurred in prisons around the globe,
6
7 Deeply Disturbed that the European Court of Human Rights regularly hears cases against prison systems,
8
9 Bearing in mind prison rooms are overcrowded contributing to unsanitary living conditions which may lead to
10 the spread of illnesses such as COVID 19,
11
12 Taking into consideration that medical care is not guaranteed or has never been implemented in many prisons
13 worldwide,
14
15 1. Encourages the United Nation member countries to participate in a world-wide prison check to
16 regulate and to ensure livable and humane prison conditions.

1 Proposal for Universal Quality Pre-Primary Education

2
3 The General Assembly,

4
5 Recalling the United Nations Declaration of Human Rights Article 26 which states,
6 "Everyone has the right to education. Education shall be free, at least in the elementary and
7 fundamental stages. Education shall be directed to the full development of the human personality and to
8 the strengthening of respect for human rights and fundamental freedoms,"

9
10 Fully aware that nearly half of all pre-primary age children around the world are not enrolled in preschool,

11
12 Noting that the failure to provide quality pre-primary education limits children's performance in higher
13 education and denies them opportunities to reach their full potential,

14
15 Deeply concerned that the lack of quality education of citizens limits the futures of countries, robbing them of
16 the human capital needed to reduce inequalities and promote peaceful, prosperous societies,

17
18 Convinced that a stronger global initiative on the investment and development of quality pre-primary education
19 can dramatically support the United Nations Sustainable Development Goals #4 (Quality Education) and #10
20 (Reduced Inequalities).

- 21
22 1. Calls upon Member States to adopt the UNICEF Model for Universal Quality Pre-Primary Education.
23
24 2. Encourages the prioritization of at least one year of Pre-Primary Education in every country's
25 Education Sector Plan
26
27 3. Recommends dedicated and increased financial investment for Pre-Primary Education from
28 government education funds and from education aid
29
30 4. Requests progressive improvement of quality Pre-Primary Education by supporting quality standards,
31 curricular frameworks, and teacher training

- 3
- 4 Realizing that Cuba has had a trade embargo with the United States for nearly 60 years,
- 5
- 6 Stressing that the United States does not have similar trading policies for other communist countries that now
- 7 pose a larger threat than Cuba, such as Vietnam and China,
- 8
- 9 Noting that the United Nations has expressed its strong opposition to the embargo since 1991,
- 10
- 11 Acknowledging that the original reasons for the embargo are now irrelevant,
- 12
- 13 Recognizing that that US engages in trade with Cuba on an annual basis in the form of a check of approximately
- 14 \$4,000 USD for the use of the land that the Guantanamo Bay Detention Camp occupies,
- 15
- 16 1. Encourages the practice of free trade between Cuba and the United States;
- 17
- 18 2. Allows for Cubans to have better and more affordable access to the Internet through the new influx
- 19 of technology that would come from lifting the embargo;
- 20

Restrictions of Carbon Emissions

1
2
3 The General Assembly,
4
5 Fully aware that air pollutants are an important factor in the climate crisis, as well as that they can cause
6 serious health issues.
7
8 Conscious that Denmark has a plan to decrease the amount of amount of carbon emissions by 70% by 2030.
9
10 Recalling that air pollution from particulate matter in Denmark causes severe health problems, causing more
11 than 3,000 deaths per year in the country.
12
13 Confident that drastic action should be taken to decrease the world’s air pollutants,
14
15 1. Calls upon the member countries of the United Nations to implement a plan similar to that of
16 Denmark, which will decrease the amount of carbon emissions produced by that country by a significant
17 amount in order to keep the planet habitable.
18
19 2. Requests that the United Nations prioritize the climate crisis until the planet is back in a safe and
20 steady climate.

The General Assembly,

Deeply disturbed that domestic violence is the leading cause of injury to women more than car accidents, muggings, and rapes combined,

Emphasizing that 64% of Fijian women who have been in intimate relationships have experienced domestic violence,

Recalling that the United Nations (UN) reported in the last 12 months that 24% of intimate partners in Fiji experienced domestic violence,

According to the UN Declaration of Human Rights, "No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment,"

Determined to reduce the rate of domestic violence globally,

1. We will implement a two-hour education program dedicated to second-year secondary school students on prevention, identification, and protection (P.I.P.) regarding domestic violence;
2. The curriculum will be developed by the UN Educational Scientific and Cultural Organization;

1 A Resolution to Minimize Suicide Rates in Finland

2
3 The General Assembly,

4
5 Deeply concerned by Finland’s tremendous suicide rates,

6
7 Noting that Finland ranks 51st in suicide rates out of 183 listed countries according to the World Health
8 Organization,

9
10 Recognizing that there are 800,000 deaths globally per year due to suicide as cited by WHO,

11
12 Concerned that Finland consistently has a higher suicide rate than the world average,

13
14 Emphasizing that suicide falls under the UN’s Sustainable Development Goal titled “Healthcare and Wellbeing”,

15
16 Bearing in mind that the three largest reasons for suicide are lack of mental health resources, substance abuse,
17 and youth unemployment,

18
19 1. Urges Finland to dedicate more resources to mental health, such as money and manpower,

20
21 2. Recommends Finland to enhance awareness about substance abuse,

1 Investment in Job Training for Refugees

2

3 The General Assembly,

4

5 Convinced that the Rates of unemployment in France will dramatically decrease if Refugees receive proper work

1 An implementation to Reclaim and Recycle Water in Jamaica

2

3 The General Assembly,

4

5 Alarmed by the amount of pollution in the water of Jamaica, of water quality issues associated with industrial

6 and agricultural run-off or badly managed sewage, open burning of garbage, cane fields, or poorly managed

7 dumps and lack of water.

8

9 Aware with the recent droughts, Jamaica has experienced a consequential water shortage, a significant factor in

10 the island's sanitation conditions.

11

12 Acknowledging reclaim water also prevents pollution by decreasing the amount of waste water that must be

13 discharged. Reused water can even be used to help create or replenish wetlands and wildlife sanctuaries. In

14 these ways, water treatment systems are a net positive for the environment.

15

16 Realizing that Jamaica is not the only Caribbean Island or country to be affected by wasted and polluted water.

17

18 1. Calls upon the United Nations Environment Programme (UNEP) to construct 2 water-recycling plants

19 in Jamaica to recycle and reclaim water, cutting a small amount of money from the UN's budget of over

20 \$5 billion;

21

22 2. Allowing the UNEP to expand the project in surrounding islands as needed or countries as needed.

23

24 3. Enabling UNEP to use the results of the Jamaica project would also allow the UN to expand the

25 service to other areas in the world where they are needed. These areas may include the Chinese and

26 Korean rivers that flow into the extremely polluted East China Sea, the American rivers that flow into

27 the Gulf of Mexico, the River Thames and certain French rivers that dump into the English Channel, and

28 a few select rivers in the arctic region of North America and Asia.

The General Assembly,

Asserting that Japan has experienced an average temperature increase equivalent to 2°C to 4°C (35.6°F to 39.2 °F), resulting in frequent high temperatures that rise over 35°C (100°F),

Fully aware that over 600 million people worldwide live on coastlines with the rising sea levels of 3.4 inches alone in 2019 and 9.14 inches between by 2020,

Understanding that regional temperatures increasing in Japan has left many fruits such as grapes and peaches unable to be farmed as much due to imperfections, and the paddy rice fields of the Tohoku region are predicted to have a decreased amount of rice by 2060,I only say this because it is two separate ideas...

Affirming that important prefectures of Japan like Fukushima, Aomori, and Iwate that produce the most rice are expected to have a decreased amount of usable land due to the global temperature rising while still having to produce over half of all the rice in Japan, Recognizing that Japan has realized the Kyoto Protocol, a plan to reduce its carbon emissions by 30-50 percent from now until 2030,

1. Calls upon the Kyoto Protocol to the top 3 countries with the most carbon Emissions (China, America, India)
2. Urges that global warming protocols like the United Nations Framework Covenant on Climate Change, forcing each delegation to follow the protocol's rules or face expulsion from the union.
3. Proclaims that China's Carbon Neutral bill should be strengthened, doubling the costs from 5 to 10 trillion to shorten the timespan to 2030 instead of 2060
4. Calls upon the United Nations to raise funds in order to combat via economic sanctions placed on the top 3 biggest carbon emitters.
5. Recommends that countries use tariffs and taxes on oil, plastics, and any other environment harming products to incentivize customers to pay for less damaging products.
6. Encourages other countries to participate by offering economic opportunities with aiding in environmental causes, through raising money or manufacturing environmentally safe products.

Dispatch of Riparian Plantings to Stop Water Pollution

1
2
3 The General Assembly,
4
5 Deeply concerned about the water pollution which is happening in different countries. Some sources have stated
6 that the tap water in different parts of Luxembourg City isn't safe to drink and that it should be boiled for 10
7 minutes before drinking,
8
9 Declaring that resolution 64/292 said that all humans should have the right to water and sanitation. This clean
10 drinking water and sanitation are essential to the lives of humans,
11
12 Taking into consideration that the Declaration of Human Rights grants the right to water. This says that water
13 should be "sufficient, safe, acceptable, physically accessible and affordable,"
14
15 Viewing with appreciation that the Global Programme of Action for the Protection of the Marine Environment
16 from Land-based Activity concentrates on the regulation and reduction of wastewater, marine litter, and
17 nutrient loading,
18
19 Recalling that UNICEF has said both of the following, "2.2 billion people lack access to safely managed drinking
20 water services" and "297,000 children under five die every year from diarrhoeal diseases due to poor
21 sanitation, poor hygiene, or unsafe drinking water,"
22
23 1. Calling upon the UN to start a dispatch of Riparian Plantings on certain waterways leading into
24 Luxembourg City;
25
26 2. Requesting that after the dispatch of Riparian plantings, the UN help monitor the success of ridding
27 the water pollution from certain parts of Luxembourg City;
28
29 3. Requests that the UN reports results to other places which could benefit from Riparian Plantings.

The General Assembly,

Noting with deep concern that air pollution is one of the world’s leading risks of death, accounting for nearly one tenth of global death,

Emphasizing that Mongolia is ranked 3rd globally for worst air pollution with an air index of 196 and the capital Ulaanbaatar as the city with the most air pollution in the world,

Observing that 90% of children breathe polluted air every day,

Deeply concerned by the fact that air pollution is the leading cause of premature deaths globally,

Keeping in mind that coal is the main source of air pollution in Mongolia and many other countries globally,

1. Encourages the UN Human Settlements Programme to work with SOAP (Switch Off Air Pollution) to help insulate gers in Mongolia in order to reduce the amount of coal burned to heat them;
2. Calls upon the international Atomic Energy Agency (IAEA) to work with countries in order to convert current coal plants into Thorium Reactors to provide a cleaner and more sufficient source of energy;
3. Further requests the United Nations Environmental Programme to work with organizations such as Plant for the Planet and One Tree Planted to plant more trees in countries with the worst air pollution to convert harmful carbon dioxide into clean oxygen.

A Program Aiming to Fix Dams

1
2
3 The General Assembly,
4
5 Deeply concerned about the dams in Morocco along with numerous other countries and the repairs needed to
6 several,
7
8 Fully aware these dams are controlling the flow of water, and if they were to break it would mean the flow of
9 rivers would be disrupted,
10
11 Realizing not fixing these dams could risk homes, clean water, and lives, so we would like to repair them,
12
13 Emphasizing that repairing dams is extremely important and that the said amount of money will be decided by
14 the UNDP,
15
16 Bearing in mind of countries like The United States and India have taken steps to fix their dams,
17
18 1. Calls upon the United Nations Development Programme to discuss the amount of money to help

Sustainable Energy for the Region of Nigeria

1
2
3 The General Assembly,
4
5 Deeply concerned that over 47% of Nigerians are left without power,
6
7 Recalling that the United Nation’s 13th goal is to take urgent action to combat climate change and its impacts,
8
9 Emphasizing that on October 30, 2009, the United States Environmental Protection Agency (EPA) published a
10 rule for the mandatory greenhouse gasses from sources that in general emit 25,000 metric tons or more of
11 carbon dioxide equivalent per year. The United States EPA targeted industries which released the most
12 greenhouse gas. A large portion of the carbon dioxide released in the US comes from power generation using
13 fossil fuels.
14
15 Conscious that the Energy Commission of Nigeria was established in 1988 with the statutory mandate of
16 strategic planning, coordination, and evaluation of national policies in the energy sector,
17
18 Taking into consideration that the secretary general said, “There can be no doubting or denying that the world
19 faces a climate emergency”,
20
21 Viewing with appreciation that António Guterres once said, “Making peace with nature is the defining task of
22 the 21st century”,
23
24 1.Requests the United Nations Assembly to establish a committee to oversee the establishment of
25 green energy to the region of Nigeria. It will be the goal of this committee to work with all member
26 states in the region to ensure that best practices are followed and negative impacts from one member
27 state to another can be avoided
28
29 2. Recommends that China or Germany helps to fund and/or to establish a commision with the goal to
30 educate Nigeria on the subject of geothermal energy and best practices
31
32 3. Encourages the United Nations General Assembly’s Second Committee to suggest to the General
33 Assembly to help fundraise and gather money to build and acquire parts for the geothermal plants;

The General Assembly,

Deeply concerned by whaling in Norway,

Recognizing that due to whaling thousands of whales are slaughtered each year for their meat. Their blubber is turned into oils for pharmaceutical purposes. Over two-thirds of the whales killed by Norwegian whalers are female and over 40% of these are pregnant. Whalers remove only select cuts of meat from the whale carcass, and then throw the body back overboard, often rather close to shore. Despite a global ban on whaling, Norway continues to kill whales under an "objection" to the law,

Affirming that in 1986, commercial whaling was banned by the International Whaling Commission. Iceland and Norway, however, launched official objections and continues to whale commercially. Iceland and Japan continue to hunt whales due to "scientific whaling." We propose a permanent ban on commercial whaling in Norway,

Fully aware that only 400 North Atlantic whales remain, and 6 out of the 13 great whale species are endangered or vulnerable. Our resolution should go into effect on January 1st 2022. The whaling industry is worth between 26 and 32 million dollars. Norway's objections to the global moratorium have no apparent documented reason, other than the fact that they make money off of whaling.

1. Recommends that commercial whaling be banned, and any country or group violating the law will be required to pay twice the money that they made illegally whaling. We will enforce this law by informing Norway's coast guard to be on the lookout for whalers, and report anything suspicious. Those that make a living off of whaling will be relocated to the transportation and warehousing industry, which has a shortage of workers globally.

The General Assembly,

Recalling that in the 1980's communist dictator Ceausescu worked toward industrializing Romania. People were forced out of their houses in the countryside and dogs were abandoned. If they were not fixed, they bred which created more dogs and the circle of breeding came into place creating a serious stray dog problem. Dog catchers chased, beat, abused, and killed a lot of the stray dogs. The dogs were even poisoned and put into shelters only to die from disease, hunger and thirst. Some were killed by lethal injections, although some were not not done accurately so many dogs suffered when they were injected. The law was in 2008 and failed. It was called The 2008 Animal Protection law. The law was told to spay and neuter them, but dogs were still being killed. To this day, killing dogs is used as business as they sell the fur and hinds and getting the money from the government and from when they sell to regular people.

1. Calls upon the Romania government to end the Stray Dogs Euthunasia Law.
2. Requests the Romania government support spay and nuetur procedures to decrease the stray dog population by ending the 14 day euthanization window.

6 rising sea levels;
7
8 Recognizing that more than 600-million people live in low-lying coastal zones;

Promoting the Export of Abundant Natural Resources

1
2
3 The General Assembly,
4
5 Believing that exports are the most important and efficient way for people around the world to benefit from
6 resources that are not contained in one country to promote the general welfare,
7
8 Affirmed by the number of exports our country accounts for, we are confident that other countries need to be
9 held accountable for the lack of effort in sharing their goods with the rest of the world,
10
11 Taking into consideration we were the United States' 35th largest supplier of goods imports in 2019, we call
12 upon all of the countries we trade with to exchange in a way that not only benefits them but also benefits the
13 rest of the world,
14

17
18 Seeking exports of abundant natural resources, in order for other countries to access higher quality goods
19 throughout the world.
20
21 Fulfilling the goals in A/RES/70/1 17.11 (Significantly increase the exports of developing countries, in particular

1 Raising Minimum Monthly Salary to Get Accepted to Immigrate to Sweden
2
3 The General Assembly,
4
5 Believing that raising the minimum monthly salary to immigrate to Sweden from 13,000 to 25,000 SEF will
6 make it a safer and more affordable place to live, and help bring down the crime rate as well.
7
8 Recalling that immigrating to the country without the requirement would be a crime as stated in resolution

10
11 Affirming that trying to bypass the requirement will result in a violation of The Declaration of Human Rights,
12

The General Assembly,

Deeply Concerned that the deforestation of the jungles in Thailand all lead to this research from NASA. And climate change is happening now. Trees convert CO2 into oxygen thus keeping the CO2 balanced in the atmosphere. When there are fewer trees the CO2 will rise because it is not turned into oxygen by the trees.

Convinced global warming is heating the planet and causing climate change. When the water rises we will have less land. The population needs space to live and if there is no area people will not have a place to live.

Observing that the world bank stated,

“In Thailand, forest cover has declined from 53.5% in 1961 to 31.6% in 2014 as a result of population growth, infrastructure development, agricultural expansion, illegal logging, and uncontrolled forest fires. On average, the annual deforestation rate was estimated at 0.6% or 140,000 hectares per year, from 1973 to 2014.”

Recalling that according to NASA,

“Global climate change has already had observable effects on the environment. Glaciers have shrunk, ice on rivers and lakes is breaking up earlier, plant and animal ranges have shifted and trees are flowering sooner...The IPCC predicts that increases in global mean temperature of more than 1.8 to 5.4 degrees.”

1. Calls upon the United Nations to create sanctions on companies who contribute to deforestation. Those companies that use over 10 acres will be sanctioned 10 percent of every profitable dollar.
2. Requests an increase in sanctions on logs and palm oil in Thailand’s exports to discourage deforestation.

10
11 Alarmed that children ages 5-19 years were underweight.
12
13 Keeping in mind a large part of populations experience food insecurity first-hand.

Dates: TBA • VIRTUAL

LTC is an inspirational and motivational experience that builds servant leaders through personal discovery and skills development. Through in-depth guided discussion, small group activities, and teambuilding, teens hone leadership skills and explore their own values away from the pressures of their daily lives.

A rare space where teens can truly be themselves, students have fun, forge lasting bonds with peers from around the Commonwealth and return home better prepared to be effective servant leaders in their home, school and community.

Kentucky United Nations Assembly

Disease caused by unclean drinking water kills more than 3.75 million people every year – and nearly half of them are children under five years old.

WaterStep installs water treatment plants that supply developing communities with access to safe, clean water.

By holding a WaterStep Shoe Drive, you'll help fund water projects that save hundreds of thousands of lives in the world's poorest countries.

Safe drinking water shouldn't be a luxury.

Worldwide, **884** million people suffer without any access to safe water.

Nearly **5,000** children perish each day due to diseases caused by unclean water.

Over **2.2 million** people could be saved this year just by having access to safe water.

Save lives.

Donating Shoes is Simple.

Gather up pairs of shoes you no longer wear. Ask your friends and family to pitch in.

Tie the laces, and drop them into a collection bag at a shoe drive or drop-off location.

Your shoes will fund projects that provide clean water for hundreds of thousands of people all over the world.

To promote a WaterStep Shoe Drive at your school, church, business or event, contact Jennifer Poe 502.567.7463 or jennifer.poe@waterstep.org.

Kentucky YMCA Youth Association

Global Initiatives Fund

As a Diversity, Inclusion, and Global (DIG) Innovation Network Y, the Kentucky YMCA Youth Association has worked to improve YMCA global impact since 2012. Alongside YMCAs across the U.S., the Kentucky YMCA is helping to lead the YMCA Global Movement for Change. With the Global Initiatives Fund, the Kentucky YMCA is constantly growing, developing, and supporting new International relationships and fellow YMCAs.

Global Initiatives Fund

Each year, The Kentucky YMCA raises money for the Global Initiatives Fund to support internationally—focused activities. The Kentucky YMCA uses these funds to support international programming and needs, newcomer/immigrant students, non-profits worldwide, and the YMCA Global Movement. This year, we will be dedicating the Global Initiatives Fund to the San Juan and Ponce YMCAs in Puerto Rico.

International Experiences

The Kentucky YMCA supports various International Experiences for Participants, Volunteers, Alumni, and Staff. These experiences not only provide a learning opportunity, but also professional development and personal growth. Through local conferences, international exchanges, participation in the YMCA World Alliance, and International Leadership Opportunities, the Kentucky YMCA connects its community with the wider global network.

KUNA

The Virtual Kentucky United Nations Assembly (KUNA) provides students from across the Commonwealth with the opportunity to travel the world in just two days. Annually, over 6,000 students research other countries, write and debate UN resolutions, and resolve global as ambassadors of represented countries. This authentic learning experience underscores the importance of global citizenship, connecting Kentucky teens to the broader world.

YMCAs of Puerto Rico

Puerto Rico has two YMCAs—the San Juan YMCA is a wellness center/gymnasium, and the Ponce YMCA is a pool and general facility. The YMCA of Ponce is stepping up its services—as a school, child care center, and critical community center. They have **tripled** their normal offerings and resources. Because that's what the Y does: it supports its community, no matter what.

The Ponce Y has been damaged by the hurricane and earthquakes. Its staff members have faced multiple hardships and trauma. But they know the way forward is to heal together, and the Kentucky YMCA will be there with them. We are dedicating our 2021 KUNA Global Initiative Fund to support the Ponce YMCA- so it can serve and feed the region's children when no one else can -- and continue helping their community get back on its feet after several devastating blows.

Need-Based Scholarships for Newcomer/Immigrant Students

The Kentucky YMCA does everything it can to ensure all students can attend programs. We offer need-based scholarships to students. Often our newcomer/immigrant students need additional assistance as their families are still settling in the U.S. We use our Global Initiatives Fund to support students new to the United States, offering a safe, welcoming, and educational environment.

International Partnerships

The Kentucky YMCA continues to develop partnerships across the globe. In addition to local organizations like the World Affairs Council of KY & Southern IN and WaterStep, the Kentucky YMCA also has International Partnerships with the YMCA of Denmark and the Cape Town YMCAs in South Africa.

The Cape Flats YMCA in Cape Town has been growing and improving over the past few years. As our largest partner, we help to fund their progress with hopes of providing a space for children to go and grow. Sports, afterschool clubs, volunteer opportunities, and more are offered to children in an effort to keep them safe.
